AS TO SPRAYING.

The Correspondent Thinks London Purple Isn't Enough to Kill the Pests.

MANTI, April 25th, 1894.

Editor Deseret News:

I have just read an article in the SEMI-WEEKLY of April 11th about spraying trees—subject to which I am interested. It gives directions to spray with a mixture of one pound London purple to 150 gallons of water to apple, pear, plum, cherry, etc. I will now give my experience of one season. I bought a sprayer and spray, and sprayed as per direction given in the pamphlet I received with it, namely: Mix one pound of London purple to 150 gallons of water. I sprayed three times, the first time when four leaves, 10 to 12 days between it, I could see there were not one or worms killed, I think about 999-1000 of the apple codlin-moth worms, for the fruit was injured more or less every year before, and last year but few, but from the time when they were ripe, compared to former seasons, I was the only one that sprayed on account of late humidity, and I cannot expect but full trouble of spraying until my neighbors do the same; but I think there ought to some other ingredient mixed with the London purple, in order to destroy the pests. I would be glad to hear some further information, as I think the London purple not sufficient to kill the desired object. Does anybody know of an addition to the London purple that will not injure the tree?

On His Way Home.

Elder H. N. Leah, of Coral City, Iron county, made a pleasant call at the NEWS today. He arrived here last evening, on his way home from his mission to Great Britain, whither he left February 10, 1892, and will continue his journey south tomorrow morning. Elder Leah's missionary experience in Great Britain was in the Manchester conference as traveling Elder. Later he was appointed to preside over the Liverpool conference, obtaining that position until he started to come home. He reports considerable improvement in the conference during the past year, with an abatement of the prejudice against the Latter-day Saints and increased success attending the labors of the missionaries. The feeling of unity and co-operation which exists among the Elders is all that can be desired. Brother Leah's health was excellent, and his labors in the Gospel cause were highly enjoyable.

Take Care in Spraying.

Editor Deseret News:

Apropos of so much being said about spraying trees and the time and method of doing so, is it not as well to warn people to be careful how they handle the poisonous spraying mixture? If there is death to the insect in spraying trees while in bloom, is there not also danger to human beings in having the spray fall on the lettuce, onion-tops, rhubarb and other garden truck, which may slaughterous one carelessly to partake around with them to lunch? Care should be taken in this respect to prevent accident from these to those! Care should be taken in this respect to those way to many cases of the living put in purgatory by careless preparation. No irresponsible person should be allowed to handle such realities.

OBITUARY NOTES.

MARY BURGESS.

Mary Burgess, widowed wife of Spencer Burgess, was raised to the glorious hope of the Gospel, in Bedfordshire, England, on April 19, 1824, where she was also married to her husband, who preceded her to the spirit world. She has been a faithful member of the Church for many years, and was married for a time to Brother Burgess, who died in Salt Lake City, this city, and finally a resident of Provo.

Sister Burgess was the mother of five children, four of whom survive her. She died in Salt Lake City, this city, and was buried on April 25, 1894.

Her death caused the grief and sorrow of a large circle of friends, who will long remember her kindness, hospitality and goodness of heart. She was a woman of strong character, and her life was a testimony to the truth of the Gospel. Many were present at the funeral services, which were held in the Tenth ward meeting house.

ANNE.

Last Sunday word was received in Provo that Anne Lewis, completely bowed down with many years, had died at Pine Creek on the day before. Anne Lewis was born in Wales, and was 80 years of age. She was a member of the Church for many years, and was a faithful Latter-day Saint. She was a sister to the late Mrs. Jones, who died in Provo a few years ago. Anne Lewis was a kind and loving mother, and a good woman. She was buried from the Provo meeting house on Monday, April 23, 1894, aged 80 years and 11 days. She was one of a large family, and while she was the last of her father's family to be called home, she left behind many children and grandchildren to mourn her loss. The funeral services were conducted by Bishop W. H. Dusenberry, Counselor Stringham and President Lewis, after which the remains were interred in the Provo City cemetery.

SUPPORT HOME INDUSTRY.
THESE ARE THE PEOPLE WHO SELL HOME MADE GOODS.

THEY BUILD UP UTAH and are entitled to the support of the people. By dealing with the merchants who give preference to the sale of Home Made goods you help the Home Industry along. You help to give employment to worthy people; you help to build up a home, which contributes to the wealth and prosperity of that community in which you live. Every dollar expended for Utah made goods, directly adds employment for Home labor, every dollar expended for goods manufactured outside, causes non-employment by somebody being employed, and where consumers are greatest, are such as "Charity begins at home." This is a fact that both consumer and producer should consider.
