PAYNE'S ABSENCE NOTED.

The fact that Chairman Payne was not at the White House conference which was participated in by Senator Aldrich and Speaker Cannon this afternoon was a subject of comment but it was declared that this omission signified that Mr. Payne was working in thorough accord with the president and did not need to be called in. .

"The progressive" Republicans of the senate who have sought for downward revision throughout the .tariff deliberations were scheduled to meet in conference today to discuss a plan of action with reference to the conference report when it is submitted to the senate. It was expected that they would issue a statement. That portion of the president's declaration which referred to downward revision of the tariff as he interpreted the Republican platform pledge was to be the subject for special consideration at. the meeting which was to be attended by Senators Dolliver, Cummins, Bristow, La Follette, Clapp, and a number of others.

#### DOWN TO BUSINESS.

Washington, July 20 .- When the con-

ference committee of the two houses on the tariff bill met today and duty on thorite and monazite sand received first attention. These articles are constitu-ents of gas mantles and notwithstand ing they are strangers to the lexicography of a large majority of the people, the defense between the two houses as to the rate of duty has been very sharp. The house imposed a tariff of 4 cents and in addition inserted a provision for a duty of 60 per cent ad valorem on

thorium and gas mantles treated with chemicals Heretofore the conferees have been

putting aside the hard problems afte discussing them, but today they started with the intention of settling their disputes in so far as they possibly could do so, For a time after the president's ac-

tivities began, he occupied the center the stage and attention was naturally concentrated on him. Now that his attitude has been de-

fined the conferees have begun again to give attention to the problems that present themselves and which the conterees of the two houses must work out themselves regardless of the

White House, No votes have been taken, but when business began today it was understood that that stage must soon be reached. During the last 10 days of the existence of the conference, many agreements have been arrived at, but most of the differences left to be arranged are fun-damental in character and it is believed can only be settled by the process of the ballot.

### ONLY REPUBLICANS SITTING.

Only the Republican members of the two houses are sitting and the repro-sentatives of each of the branches vote separately. As there are five senators and six representatives on the confer-ence, the votes of three senators and four members of the house will be necessary to carry any proposition. The disposition on the part of the conferees of each house is to allow the majority to rule, and it is apprehended that there may not be so much difficulty in reach-ing a conclusion in either branch as there may be in burgering the two there may be in bringing the two

Chicago, July 20.-Dr. Daniel K. Pearsons yesterday announced that within a few days he will send his check for \$50,000 to the City Missionary Society of Chicago. This is in line with his announcement made some time ago that he would give his last million doilars to institutions of Chicago.

## JUST PROTEST AGAINST

CALLING FOREIGNERS DAGOES

Denver, July 20 .- Condemnation of the American manner of referring to foreigners as "dagoes," "roundheads," "butternuts," "red necks" and other obnoxious words occupied the time in the convention of the Western Federation of Miners this morning. The greater part of the membership is of foreign birth and it objects to the titles as commonly applied. James Kirwin of the Black Hills, a native born Irisb-man, expressed himself thus: "I con-sider that I am a better citizen than a of order for the chair to lay any or-dinary communication before the sensider that I am a better citizen than a large portion of the native born Amer-icans, for I came in with clothes on my back and my fare paid." The night work was stopped on Saturday night with the signing of a new contract for the ex-cavation of about 2,000 cubic yards, on which the firm is working now. Oklahoma, before it went dry, had 28 saloons; today there are 300 government certificates issued there. This is not a political organiza-tion; it is a fraternal and benevolont society; but these features are left to an excavation for the boiler room, etc., in the southeast corner of the building, which has to be taken 12 feet below the present basement level, or 26 feet below the curb. This hole in the already deep basement will also be lowered 2 feet 9 inches for 100 feet in the northeast corner. These extras with an additional piece on the east side will make the total number of cubic yards about 20,000. The com-pletion of these extras is estimated to take 20 days more, as with the in-creasing depth, the work will move for-ward more slowly. The entire exca-vation is expected to be completed by Aug. 16. In the meantime the executive com-mittee is preparing to call for bids for society; but these features are left to the local lodge to perfect itself."

## SENATOR SMOOT WITHDREW OBJECTION

Wasnington, July 20 .- When the sen ate met today Senator Brown of Ne-braska sought to have adopted the joint resolution directing the secretary joint resolution directing the secretary of state to transmit to the governors of the various states copies of the res-olution providing for a constitutinal amendment authorizing the levying of amendment authorizing the levying of an incomestax, but under objection from Senator Kean consideration was postponed. Mr. Kean raised the point of order that under agreement to tran-sact no business while the tariff bill was in conference the resolution could not properly receive attention. Mr, Kean was supported by Senator Smoot, who had difficulty in forcing the resolution over to another day. During the discussion Mr. Bacon de-clared that if the agreement was to be so strictly interpreted it would be out
