"Wilds of the Wasatch."—This is the subject of a very large picture just completed by Mr. Reuben Kirkham, a young local artist, who is making progress in the art. He has been engaged the greater part of a year in the production of this last and best effort, and by numerous good points and effects he has introduced, shows that he has ability that but needs fine cul-

ture, to give these harmoniously blending and subdued touches which give an irresistible charm to the pictures of the modern masters.

"The Wilds of the Wasatch" picture is well worth seeing. It hangs, on exhibition, in Mr. Savage's art gallery.

The Corinne Stock Thieves.

A gentleman in from Bear River City states that the people thereabout are afraid to let their stock out upon the range. When they do so they consider they are running a fearful chance, the chances being four to one that they will never see them any more, the Corinne stock-stealing ring having a systematic plan of carrying on their thieving operations upon the whole sale principle. It is time this thing, which has been going along for years, was stopped, and there appears no reason why it shouldn't be, the evidence against some of the guilty parties being as strong as need be.

Kanab—Heavy Thunder—Stock Killed—Harvested—United Order.

The following under date of Sept. 25th comes to hand from Brother W. D. Johnson, Esq., our Kanab correspondent:—"The forecast of this month was very cold, and we have had a few frosts. Some of our good people put on their thick clothing, thinking Winter near, but for the last week the weather has been lovely. During the month we have had some very remarkable thunder storms, which were louder and more than any ever experienced in this country; the shocks were so severe that they shook some of the houses in town. On the 17th inst., two cows, while coming home leisurely, just beyond the limits of town, were struck with lightning and killed. They were the property of Brother Warren Follet. I understand on the same day five head of cattle were killed, in the same manner, at Cottonwood Canyon, ten miles distant from here.

"Our wheat is all harvested and we are putting in Fall grain.

The prospects of the United Order are of a very bright and hopeful nature. The people are becoming interested and taking hold with much zeal.

One of our citizens was much surprised, upon getting up yesterday morning, to find a strange animal in the house, which he thought was a bear, and he killed it. It proved to be a 'raccoon', a very fine specimen, the skin of which I intend sending to Professor Barfoot, at the museum."

City Council.—The Council met last evening, Alderman Raleigh in the chair.

Petition of Jacob Welles and twenty-two other residents of the 3rd Ward, asking that their taxes for the current year, or so much thereof as may be necessary to repair the streets in that part of the city, which are nearly impassable at some seasons; granted that the delinquent taxes and \$300 of the taxes of the present year be thus applied, the repairs to be done under the direction of the supervisor.

Petition of William Jennings, Sons & Sadler, and most of the principal business firms on East Temple Street, asking that, instead of continuing the present method of sprinkling the streets, the department in charge of the fire hydrants be authorized to attend to the matter each morning, the petitioners stating their willingness to pay a reasonable sum monthly or quarterly for having this done. The petition was laid on the table to come up in its order, with the understanding that it was the intention of the Council to have the street sprinkling done in the manner asked as soon as practicable.

On petition, E. Butterworth was granted the privilege of piling building material on the street in front of his premises, corner of 2nd South and 4th West streets.

The committee to whom was referred the petition of Mrs. Ruth Kimball, asking that she be relieved by the breaking over of the waters of the 19th Ward ditch, recommended that \$75 be appropriated for that purpose; report received, recommendation adopted, and amount appropriated.

The same committee reported favorably on the petition of Joseph Warburton and others, asking for the privilege of cutting a ditch and conveying a small stream of water from 6th South to 7th East Street, for turning a molasses mill; report adopted.

Alderman Pyper presented his police court report for September, which showed that eighty cases had been tried, \$91 had been collected in lack cash fines, \$128 in cash fines for the month, and \$337.50 in labor fines, making a total of \$1,056.50. The report was received and filed.

The marshal presented his report of expenditures for September, amounting to \$234.80; report received and amount appropriated.

Report of Chief Engineer of Fire Department of expenditures for September \$298.89; referred to committee on claims.

The following bills were presented and allowed:—

Of William Hyde, for boarding City prisoners in September, 1,324 meals, at 15 cents, \$198.60; of Paul A. Schetter, City Treasurer, month's salary \$200; salaries of City Marshal and police force \$990; month's salary of William Hyde, city jailor, watermaster and supervisor, \$150; of Jos. W. Burt, janitor of City Hall, for month's salary \$52; of W. E. Hyde, for lighting lamps and guarding water tanks \$90; bill of Dr. S. B. Young, for attending and caring for insane patients \$77.75.

The sum of \$500 was appropriated to pay interest on the Wardell note.

The committee on municipal laws, to whom was referred the matter of preparing and drafting a new ordinance for the regulation of the waterworks, reported an ordinance and recommended its passage. The bill passed.

Council adjourned till next Tuesday evening, at 7 o'clock.

Returned.—Parley L. Williams, Esq., who has been absent for a month, on a visit to New York and Philadelphia, got home last night.

The Lee Trial.—The Lee case was to come up in the Second District Court to-day on a motion for a new trial.

In the City.—Jay Gould, Esq., and Sidney Dillon, Esq., the great railroad capitalists, are in town.

A Mistake.—The young man who had his leg broken at the foot of Commercial street, on Monday morning, was not Henry Love, as erroneously stated, but John Fairclough.

General Sherman and Party.—General Sherman and Secretary Cameron and party visited President Brigham Young last evening. They were serenaded at the Walker House by the 14th Infantry band, and were called upon by a number of citizens. The party left to-day for the east.

A Terrible Arrangement.—"He has uttered treason against the Liberal cause?" Horrible! Most horrible! However, to mitigate the horror, let us add that the above fearful arrangement, being interpreted, merely means, in plain English, "He has not supported the party in its endless lies, slanders, and tricks!" That's all.

Returned Missionary.—This afternoon we were pleased to receive a call from Elder W. L. Binder, of this city, who arrived last evening, from a mission to England, with the company of Saints, of whom he had charge on the journey. The voyage across the Atlantic was quick but rather rough. There was little or no sickness on the ocean, except that usually caused by sea traveling. There was but one death on the whole journey, that of a young child, which occurred at Pittsburgh, Pa. The company numbered about three hundred, about half British and half Scandinavians. The trip by rail was very pleasant, the weather being lovely and the railroad officials polite, courteous and accommodating.

Elder Binder left here for England on December 9th, 1874, and on his arrival there was appointed Traveling Elder in the London Conference, in which capacity he labored nine months, and after that time until his departure for home he officiated as President of the Conference, in which part the progress of the work is steady, and the prospects, especially in the suburbs of the great city, are good.

The report for the last year showed the number baptized in that time to be one hundred and fifteen. He took great pleasure in his labors in the ministry and returns in good health.
