

FILIPINO JUNTA AT HONGKONG.

Unified States Will Ask for Its Suppression.

GROUND FOR SUCH REQUEST

In a Violation of Laws of Neutrality—
Great Britain is Expected to
Promptly Comply.

New York, Nov. 8.—A special to the
World from Washington says:

Great Britain will be requested by the
government to suppress the Filipino
junta at Hongkong. The administration
has had this in contemplation for some
time, and now that no political obstacle
presents itself, the action is to be taken
without delay.

Secretary Hay has already been ad-
vised of the administration's wishes in
the matter. He will direct Ambassador
Choate to represent to the British govern-
ment that the Philippines are main-
taining a junta at Hongkong for the
purpose of aiding Filipinos in their re-
bellion against the authority of the
United States in the Philippines and
that they are practically making Hong-
kong a base of supplies for the insur-
rectionists.

Objection will be based on the ground
of a violation of the laws of neutrality.
Great Britain is expected to promptly
comply with the request. In this same
connection it may be said that Lopez,
the representative of Agoncillo, who
recently came to the United States from
Europe will be closely watched and if
excuse be found by reason of his con-
duct he will not be permitted to remain
within the borders of the United States.

The suppression of the Junta at Hong-
kong is in accord with the policy now
to be pursued with respect to the insur-
rection in the Philippines.

According to the results of the election
an unqualified endorsement of the Presi-
dent's Philippine policy and that the
American people have expressed ap-
proval of the attempted subjugation of
the natives military operations will
now be carried on in the Philippines
with greater vigor. The rainy season is
now near the end and as soon as troops
can be moved freely about the islands
the most strenuous efforts will be made
to suppress the insurrection and free
the Philippines into absolute submission.

Instructions sent to Gen. MacArthur
several days ago were in contemplation
of this program. He was directed to
assemble his troops into larger com-
mands that they might be able to inflict
severe punishment on any bands of
Filipinos encountered.

With the return to Manila of troops
sent to China, Gen. MacArthur will be
able to inaugurate a campaign, which
he is hoped in effect circles here will
accomplish the desired object.

It is also counted upon here that the
ending of the rainy season will permit
of the return to the ranks of a large
percentage of the soldiers from the
hospitals, incapacitated by the diseases
brought on by the rains and excessive
heat prevailing during the summer and
fall months.

Yellow Fever at Nicaragua.

Managua, Nicaragua, Oct. 18.—El
Commercio, of this city, in its issue of
today, declares that yellow fever is
prevailing in the city of Leon to an
alarming extent and that the disease,
is of a very dangerous type.

May Expel from Gibraltar.

Gibraltar, Nov. 7.—An order in coun-
cil empowering the governor to expel
any person from Gibraltar whom the
judges thought undesirable has been
promulgated. British and American resi-
dents not employed in her majesty's
service are required to register at the
police offices and must take out per-
mits.

A Baronet Secures a Divorce.

London, Nov. 7.—Sir George Henry
Poyser, baronet, has been granted a
divorce on the ground of his wife's in-
fidelity. She is said to be living with
a man named Carey Johnstone, a hotel
proprietor in San Francisco. Sir George
lost sight of his wife soon after they
were married. Later she wrote to him
from San Francisco.

REVIEW OF THE IRON TRADE

Buyers Have Been Placing Large
Orders the Last Week.

Cleveland, O., Nov. 8.—The Iron Trade
Review this week will say:
"Buyers of iron and steel have been
busy placing orders in the past week,
and it has made a greater record than
either of the two weeks preceding. Chi-
cago leads as a buying point, with 50,000
tons of pig iron closed, 100,000 tons of
rails and 20,000 tons of plates, and every
form of finished product showing in the
movement. One firm having bought
pig iron has booked 50,000 tons of heavy
iron in the past ten days for consump-
tion by Eastern and Indiana gas belt
plants. Pittsburgh reports that for the
month of October sales of Bessemer iron
reached 35,000 tons, or more than in all
the six months preceding."

"From all quarters come reports that
buyers have been placing orders in the
belief that the simultaneous demand
generally expected after Nov. 8 might
produce higher prices. The fact is that
in some cases where furnace companies
have been selling at a loss, pig iron
prices advanced fifty cents in the past
week, this being true of some southern
Ohio and Alabama irons. On the other
hand, some of the Chicago business,
which included contracts running into
next year, was closed at bottom prices."

"In the Mahoning and Shenandoah

DISEASE

and discomfort are not ease

and not-comfort. Ease is

health; so is comfort.

You may as well be comfort-

able; that is healthy; as ani-

mals are. It is natural, both

for you and for them.

If your ill health is caused

by imperfect digestion, try

Scott's emulsion of cod-liver

oil. It does what it does by

getting the stomach going

right.

We'll send you a little to try if you like.

SCOTT & BOWNE, 409 East Second, New York.

Many a man is looking out for his
health, but looking for disease in the
wrong direction. He takes medicine for
his nerves, which seem "gone to pieces,"
his "doctors" for his heart, which is
acting irregularly. He constantly stirs
up his liver with pills and powders. But
he does not get any better. He is look-
ing for the cause of his complaints in
the wrong direction.

It is a common thing for some one
who has used Dr. Pierce's Golden Medi-
cal Discovery for "stomach trouble" to
find that when the diseased stomach is
cured the "weak" heart is made sound,
the sluggish liver stimulated, and the
throbbing nerves tranquilized. This fact
alone suggests the truth which every
leading medical scientist knows and re-
cognizes—that diseases which seem re-
mote from the stomach are often caused
by the disease of the stomach and other
organs of digestion and nutrition. When
the diseased stomach and the digestive
and nutritive system are cured of disease,
the other organs are cured with them.

Food is the basis of life and of
strength. But it is not the quantity of
food eaten which supports the life and
health of the body. The body is sus-
tained by that portion of the food which
after being eaten is converted into
nourishment and properly assimilated.
When the stomach and its allied organs
of digestion and nutrition are diseased
or "weak," only part of the food eaten
is converted into nutrition, and the body
and its organs are therefore only partly
nourished. Dr. Pierce's Golden Medi-
cal Discovery cures the disease of the
stomach and digestive and nutritive sys-
tem which prevent the proper nourish-
ment of the body. In that way the
body is once more strengthened in the
only way possible, by food properly
digested and perfectly assimilated.

Any person suffering from disease in
chronic or aggravated form, is invited to
consult Dr. Pierce by letter free. All
correspondence strictly private and con-
fidential. Address Dr. R. V. Pierce,
Buffalo, N. Y.

There is no alcohol in "Golden Medi-
cal Discovery," and it is entirely free
from opium, cocaine, and all other nar-
cotics.

Accept no substitute for "Golden Medi-
cal Discovery." The main motive of
substitution is the desire of the dealer to
make a little more profit out of you by
selling you a less meritorious medicine.

ABLE TO WORK AGAIN.

Mr. John L. Conger, of Glenview,
Ill., writes: "I had been laid up for
nearly a year and a half, being unable
to work most of the time. The doctor
said I had heart disease and indigestion.
I began with a chocolate and cream
candy, later on I was troubled with a
cough, and I seemed to be raw from my
throat. I began with my stomach. My
stomach was weak and nervous, and I
was kept thinking continually, and I was
not able to sleep. Finally I wrote you for
help. I did not think your diagnosis was
right, but I ordered six bottles of Golden
Medical Discovery and began its use. After
using the bottles I began to improve, sleep
and went to work, and I have been working
ever since."

"SUFFERED ALL THE TIME."

"I feel that I would be doing an injustice
if I did not send you a statement of my
case," writes Mrs. David W. Guice, of Ham-
burg, Pa. "I had liver complaint, and
indigestion. Everything that I ate disagreed
with me. I suffered all the time with swim-
ming in my head, heart beat, and nervous-
ness. I was unable to sleep. I did not sleep
well at all. I was able to get about but very
little. I began with your Golden Medical
Discovery, and I feel that I am now
able to work again. I have been working
for several years. I would recommend Dr.
Pierce's medicine to all who are troubled as
I was. I have been a great deal older and
I most kindly for the happy relief and cure."

Dr. Pierce's Pleasant Pellets assist the
action of the "Discovery" and should be
used with it when a laxative is needed.

valleys the buying movement has been
attended by unchanged prices. In gen-
eral the furnace interests have now
taken a firmer stand, though no materi-
al advance is looked for in the near fu-
ture. The Bessemer iron producers in
the valleys are expected to meet this
week to fix a price on deliveries after
Jan. 1. This it is understood will not be
less than \$14 at furnace. The market
for Bessemer steel billets has gone un-
changed, the meeting in New York last
week taking no action. However, an-
other meeting is now in progress in New
York, which it is predicted will result
in an agreed price for billets—probably
\$20 at central western mills. Opinions
differ as to the advisability of engineer-
ing new agreements or reviving old ones
on certain finished materials.

"Following the lead of the plate mills
the manufacturers of steel bars have
planned a meeting in New York this
week at which it is expected to establish
a uniform price. These movements are
confirmatory of the distinct improve-
ment that has come over the market re-
cently, for only on a strong market can
agreements be successfully maintained.

The railroads have added to their pur-
chases of rails and buying on a liberal
scale from lines in the district. In gen-
eral the market has been better than it
has been for some time. The election is
over. The better feeling in all
parts of the market and the advance in
steel billets which manufacturers argue
is fully justified by the recent buying
movement, are counted on to dispose of
most of the remaining opposition to the
\$25 price for rails."

Meeting of Steel Companies.

New York, Nov. 8.—It is learned from
a trustworthy source that a meeting of
representatives of the steel companies
has just been held in this city. Steps
were taken some time ago to perfect
the proposed steel bill of 1900, and two
meetings for drawing up and adopting
agreements under which the pool could
be formed have now been held. What
action was taken at this latest meeting
could not be learned. It is known that
nothing definite was done at the pre-
vious meeting, as it was decided to de-
fer action until after the election. Rum-
ors have been current for some time
that the price of steel billets would be
advanced to \$20 a ton.

The present price is \$18.50.

MARINE CONFERENCE.

American Members Will Meet to
Consider England's Proposal.

New York, Nov. 8.—There will be a
meeting at Washington today, says a
Herald special, of the American mem-
bers of the marine conference in the
office of commissioner of Navigation
Chamberlain. It will be to consider a
proposition advanced by Great Britain
for the modification of the rules and
regulations regarding signals on fish-
ing vessels at sea.

The proposition is especially important
to American fishermen cruising off
the banks and to north sea fishermen.
It is in the interest of protection of

fishing vessels that the British govern-
ment has proposed certain changes.
The changes relate to the manner of
exhibiting lights and the danger signals
to be used to prevent collision at sea.
Great Britain desires that all the na-
tions accept the modifications in order
to secure international observance.
Lieutenant Commander V. L. Cott-
man, one of the American representa-
tives who attended the conference, is
now visiting fishermen along the Mas-
sachusetts coast and obtaining their
views as to the advisability of adopt-
ing the British proposition. The meet-
ing will be attended by Mr. Griscom
and Captain Shackford of the American
line; Judge Goodrich of the supreme
court; and Lieut. Com. Cottman.

Medal for Prof. Starr.

Chicago, Nov. 8.—Prof. Frederick
Starr, the well known anthropologist at
the University of Chicago, has received
a silver medal from Queen Wilhelmina
of Holland. This award of honor has
been given as an acknowledgment for a
fine collection of busts and pictures se-
cured by Prof. Starr.

PETTIGREW'S PREDICTION.

Says a New Party Will be Formed Based on
Protest Against Republicanism.

Saw How the Election Was Going
Weeks Ago, and Told National
Committee.

Stout Falls, S. D., Nov. 7.—"I predict
the formation of a new party, based on
the protests of the outraged against
Republicanism, as taught by Hanna,"
declared United States Senator R. F.
Pettigrew this morning. He had just
left his home to which he withdrew last
night when the first considerable batch
of telegrams arrived from South Da-
kota.

"I saw how it was going, and went
home. For weeks I have told the nation-
al committee we were defeated in South
Dakota, but they have kept claiming
the State, and I have been working for
political effect. No, sir, I was not disap-
pointed; I slept well last night. I will
remain in Stout Falls and I am now
going to resume my mill north of town.
Defeat is the more welcome to me, as
it has come, than victory would have
been if it came by endorsing the sort of
policy which the Republican party rep-
resents."

"Yes, of course, I will be in the new
party. What it will be called is of little
moment. It may be 'Social Labor' or it
may be the 'New Democracy.' It will
be made up of persons discontented with
the elements in politics as a protest
against the existing conditions and the
present tendency of things. The move-
ment will grow rapidly and I believe
will defeat the Republican party in 1904.
The Mark Hanna Republicanism is
menacing the Republic. The concentra-
tion of wealth will create an influ-
ence soon to restrict the right of suf-
frage until capitalists will say no one is
fit to take part in the government who
does not own money to make money."

"The cry of prosperity and
the racial trait are more apparent now
than ever before of getting all we can
and keeping all we can get. No Anglo-
Saxon nation ever voted against the
party in power while engaged in war.
I thought it would be this time be-
cause of more dissemination of knowl-
edge. There will likely occur di-
vorcement of the Democratic and Popu-
lar parties, but the new party will be
the popular one. I cannot say whether
Mr. Bryan will affiliate with it or not."

California Sure Republican.

San Francisco, Nov. 8.—Nearly com-
plete returns from State show that
California has given McKinley and
Roosevelt close to 40,000 plurality. The
figures so far as compiled are:
McKinley 150,552; Bryan 112,283;
plurality for McKinley 38,269.

The preceding year Bryan gave the
following vote in 1896: McKinley
127,741; Bryan 135,914. If the average
of Republican gains is maintained in
these precincts they will swell the plu-
rality for McKinley by about 2,000, making it
reach the 40,000 mark.

There is no longer any doubt that Cal-
ifornia has returned a solid Republican
delegation to Congress. The Second dis-
trict, the only one in which the contest
was close, Samuel D. Woods will have
1,500 plurality over J. D. Sproul.

Julius Kahn had 339 plurality in the
Fourth district and McLachlan 5,132 in
the Sixth district.

Both branches of the legislature will
be Republican by phenomenal majorities.
The senate will stand 34 Republi-
cans and 16 Democrats, this being the re-
sult of the election by one Democrat.
The holders are: Republicans 15,
Democrats 5. This gives the Republi-
cans a clear majority of 18 holders for
the legislature, which will choose a sen-
ator.

The assembly, according to the best
figures now obtainable, will be com-
posed of 62 Republicans, and 18 Democ-
rats.

UNDERGOING IMPROVEMENTS

Bishop's Storehouse Has New Office
Rooms—Other Additions.

Some additions have been made to the
Bishop's storehouse in this city, includ-
ing the building of brick office rooms
on the east side of the building proper.
The annex is now used for the receiving
department and the offices as well, and
it has been fitted up very conveniently.
The annex is built of brick and is sub-
jected to an overhauling and the interi-
or arranged more conveniently as well
as more attractive.

A CHEMIST SPEAKS

Of Predigested Food.

"After having tested and tried every
form of predigested food on the market,
and experimenting in my own family,
my attention was attracted to an article
headed 'Brawny Scott's Diet,' mention-
ing eggs and Grape-Nuts. I carefully
tested the new food and finally began
its use in my family, with most grati-
fying results. My boy at that time was a
pale, anemic child and very poorly
nourished. Now, thanks to Grape-Nuts,
he is as fine a specimen of infantile
strength as I could wish for. My own
personal experience has been such that
for some years I was troubled with
dyspepsia; that is, I could not eat bread
or any preparation of boiled wheat
flour, such as cake or any of the starchy
preparations, without a fit of indiges-
tion, sour stomach, constipation, and
headache."

"As soon as I quit that sort of food
and used Grape-Nuts, which has the
starchy part predigested, I began to re-
cover. The change has been remarkable.
I feel lighter and more comfortable, and
weigh 137. I am strong, have more nerve
force than I ever possessed, appetite
perfect, sleep sound and can endure any
amount of work. I know exactly where
the change has come from, and it is
for some years I have been eating
food, which is worthy of the highest
commendation." Chas. B. Prior, C. of
P. Class '94, Middletown, N. Y.

SYRUP OF FIGS

ISELIN TO MANAGE THE COLUMBIA.

In the Trial Races Scheduled for
Next Summer.

CONTROL OF THE NEW BOAT

News of Mr. Iselin's Determination
Comes from a Yachtsman Who
is One of the Knowing Ones.

New York, Nov. 8.—C. Oliver Iselin
will manage the old defender Columbia,
in the trial races next summer with the
new yacht now being built at Her-
reschoff's shops in Bristol, R. I., to de-
fend the America's cup against Sir
Thomas Lipton's challenger. News of
this definite determination of Mr. Iselin
comes from a yachtsman who is in
close touch with plans now under way
for the defense of the cup. It means
that the delay in the selection of a man-
ager for the new boat, which is general-
ly understood to have been in a large
measure due to the hope that Mr. Iselin
might be induced to accept the respon-
sibility, will probably now come to an
end.

"Kid" O'Brien Dead.

Detroit, Mich., Nov. 7.—Michael Gold-
man, known in the ring as "Kid"
O'Brien, was knocked out last night
by Bernard Carroll before the
Cadillac Athletic club, died this morning
from concussion of the brain without
recovering consciousness. Carroll is
under arrest.

San Francisco Races.

San Francisco, Nov. 7.—Weather at
Oakland cloudy; track muddy. Results:
First race, seven furlongs, selling—
Urchin won, Onyx second, Honduran
third. Time—1:33 1/2.

Second race, five and a half furlongs
—Screenwell Lake won, Sad Sam sec-
ond, Merida third. Time—1:09 1/2.

Third race, six furlongs, selling—Good
Hope won, Clando second, Storm King
third. Time—1:15 1/4.

Fourth race, one mile, selling—Sunello
won, Essence second, Expedient third.
Time—1:45.

Fifth race, one mile and a sixteenth, sell-
ing—Formero won, Gonfalon second,
Favonius third. Time—1:48 1/2.

Sixth race, six furlongs—Fat Morris-
sey won, Imperious second, Tiburon
third. Time—1:14 1/4.

LOCAL EVENTS.

SECOND TEAMS GAME.

High School or Y. M. C. A. Will Be-
come Second Champions.

All is now in good shape for tomor-
row's game between the second teams
of the High School and Y. M. C. A.
Walker's gridiron will be the scene of
the conflict and a determined one it
will be. Both teams are in first class
condition and are positive of downing
the other in a big time style.

The winning team will claim the title
of second team championship of the
State. The All Hallows No. 2, have
been defeated by both teams and that
leaves the field open to the team
which meet tomorrow.

UNIVERSITY VS. COLLEGE.

Good Game Scheduled for Saturday
Afternoon.

The High School team has no foot-
ball game on for Saturday and the only
one in sight is the All Hallows—Uni-
versity game, which takes place at
Walker's field. This contest will un-
doubtedly prove interesting in the ex-
treme. It will demonstrate just what
the University eleven can do, as it will
be their first appearance on the grid-
iron. For the past ten days
Captain Morris has been practicing
the boys and they have improved won-
derfully in signal work.

The High School team will meet the
winner. At least a challenge will be
issued.

Gun Club Shoot.

The score of the gun club shooters
yesterday was anything but flattering.
Only a few members were present and
following was the score:
J. F. Sharp, 46; Newcomb, 37; J.
Sharp, 37; Barratt, 29; Dr. Dart,
28; Kendall, 13.

The medal was won by the team re-
presented by J. F. Sharp and Dr. Dart.

League Game Today.

Of the district league teams the
Washingtons and Websters met today
on the University campus to settle a
little affair of football. The victorious
eleven will have to meet the Lovells in
a series of best two out of three to de-
cide the winner of the Wilkes cup.

WALKER'S STORE.

All Day Saturday up
to \$1.75 Goods—50c.

The gathering will occupy no less than one
hundred feet of counter space in center aisle and contains
—About 2,000 yards of fancy waist silks, all new, up to
\$1.75 a yard kindle, none under \$1.25—these a new ship-
ment we received just this week; almost five hundred
yards of the silks left from the recent great silk sale—
new, too, every piece; 65c a yard India silks; a
few pieces of \$1.25 the yard Persian Cashmeres for
waists; \$1.25 the yard dotted Batistes; \$1.25 a yard
polka dot Henriettes; .75 a yard pastel tint Plaids;
