WOOLTEX SUIT ON PRINCESS LINES. The features of this smart wooltex walking costume made of leather-colored broadcloth are the braidings of the back in precisely the same manner as the front, and the very shallow simulated turn-over collar of velvet instead of the high military collar which the cut of the coat would lead one to expect. The sleeves are long and of ordinary size. The lines of coat and skirt combine with the trimming in making a charming princess effect.

To begin with, no picture looks its best when hung directly opposite to a window, as then the light falls on it flat and hard; therefore, the least important should be kept for this position. ## They lace In Front Ours is The Best Corset in The World-The Reason Why is Plain

The single fact that they lace in front makes them superior to all other corsets-the principle of construction is right-right for grace, right for health, right for style. They represent the finest workmanship in the world, the highest art, the deepest science and the best materials.

They will give you a better shape than you have ever had and the correct foundation for a well-fitting gown. They are the only corsets that positively reduce the figure of the stort woman without the slightest dis-comfort—IN FACT, THEY PRODUCE COMFORT.

There is not a figure wearing a laced back corset that we cannot improve with one of our models. In giving you style, we do not mean that "something indefinable" so often referred to. Our style means an erect carriage, a correct proportion, a trim appearance, something you can see, something that anyone will recognize as style. Economical women will find that one Gossard Lace Front Corset at \$5.00 is actually cheaper than five ordinary corsets at \$3.00.
