Do You Enjoy Your Meals?

One of the Most Important Questions to Consider in the Search for Happiness and Health.

The burning question, to you, is, "Are you getting out of life all the pleasure and the health you are entitled to?" If not, why not?

No matter whether every organ and member of your body is in a sound state of health and strength, if your stomach is in any way disordered, you are not going to be "yourself." You are going to be a worried, out-of-sorts, nervous or sullen individual, whose actions will reflect your condition inside, and people will naturally avoid you.

The world wants to smile and be cheerful, and unless you are cheerful and smile, at least occasionally, you will have few friends, fewer opportunities, no success, and you will go down in defeat—defeated by dyspepsia and a bad stomach.

A good and thorough digestion has a quick, wonderful reaction upon the brain. You must have noticed it many times, for the brain and stomach are as intimately connected as a needle and its thread, one can hardly be used to advantage without the other. If your stomach is slow and lazy in digesting your food, it will produce at once a slow, lazy and cloudy influence upon your brain. Mark it! If your stomach has absolutely quit work, and fermentation is poisoning your vitals as a result, surely your brain is going to be sluggish and corresponding depressed.

But why continue to suffer all the miseries and torments that a disordered stomach brings you? Your stomach can not digest your food, what will? Where's the relief? Where's the cure?

Stuart's Dyspepsia Tablets are the relief and the cure. Why? Because, as all at once, because one ingredient of Stuart's Dyspepsia Tablets is able to THOROUGHLY and COMPLETELY DIGEST 3,000 GRAINS of any kind of food, doesn't it stand to reason that these little Dyspepsia Tablets are going to digest ALL the food and whatever food you put into your stomach? Science nowadays can digest food without having to use the stomach for it. And Stuart's Dyspepsia Tablets are the result of this scientific discovery. They digest and digest thoroughly and well, anything and everything you eat. So, if your stomach refuses to work or can't work, and you suffer from eructations, bloating, flatulence, biliousness, sour stomach, heartburn, irritation, indigestion, or dyspepsia of any form, just take one or two of Stuart's Dyspepsia Tablets, and see the difference. It doesn't cost you much to prove it. Then you can eat all you want, what you want, whenever you want, if you use these tablets, and you can look the whole world in the face with a beaming eye and you will have a cheerful spirit, a pleasant face, a vigorous body and a clear mind and memory and everything will look and taste delicious to you. That's it!

Get a package of Stuart's Dyspepsia Tablets at any drug store on earth for 50¢ a package.

Send us your name and address today and we will at once send you by mail a sample package, free. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

CANAL CONSOLIDATION.

There are a number of small canals in this valley running parallel to each other and many of the stockholders are beginning to realize that they would be a great saving in consolidation. The Sevier Valley is the highest and longest canal in the valley and is naturally the one looked upon as the one that should absorb the others. The first move in this direction was made today, when representatives of the Mill Ditch made an attempt to have their water rights transferred to the Sevier Valley Canal. While all of the stockholders of the latter were favorable to the proposition, yet they were not prepared to so short a notice to state definitely the terms upon which a consolidation would be effected. A consolidation of the terms upon which members of the board to whom the matter was referred for investigation and report.

HARRIS RANCH RESERVOIR.

The people of this valley are naturally elated at the news which has just reached them that the building of the Harris Ranch Reservoir by the state is practically assured. The site has been surveyed and engineers are now working on the plans for the dam. The Sevier Valley Canal which will be enlarged sufficiently to carry the greater part of the water to be stored in the proposed reservoir.

Aside from the great benefit this reservoir will be in providing for thousands of new homes, the expenditure of the large sum of money that will be required to build the same, just this improvement in time when the people need it is hailed as a great boon to the residents of this part of the state.

NEW USE FOUND FOR THE BELMONT TUNNEL

New York, Jan. 15.—A use for the Belmont tunnel, which runs under the East river, from the foot of Forty-second street to Long Island City, has been found at last, according to the story which is in circulation in railroad circles, but which still lacks confirmation. It is said that the New York Central road has made arrangements with the company owning the tunnel by which all the express trains will be run under the river to Long Island City, where 50 acres of land were recently acquired and which will be used by the railroad for storing rolling stock. According to the story, express trains are to be run from Spuyten Duyvil to Forty-second street by way of Eleventh avenue and thence by way of a new tunnel to be constructed to the tube under the river. The tracks on

Eleventh avenue are now used exclusively for freight and must soon be lowered. It is said that by running express trains by this route they would not only escape the great local and third rail traffic which now runs on the Park avenue line, but the time to the Grand Central station would be lowered by half an hour. By using

the Belmont tube and the terminal at Long Island City, much time would also be saved, the terminal being only two miles from Grand Central station, while the present storage grounds are five miles from the station, and necessitate the moving of trains over crowded tracks.
