A CHANGE FOR THE WORSE. SALT LARCE CITT. July 23, 1881.

We take this early opportunity of reminding our readers that the votes of all good citizens are required. An opposition ticket will be placed in the field, and efforts will be made to draw away as much of the strength of the majority as is possible by fair means or otherwise. Every live voter should constitute himself a committee of one to keep up an interest in the election, so as to bring out the full strength of the party on the first day of August. This should done all over the Territory. Never mind whether there is opposition or not, every legal voter should calculate to go to the polls and cast a ballot on the right

Let us show for once what our po litical strength is. Cast aside all apathy, and exercise the power of the suffrage, which is given for use and bears responsibilities as well as privileges. The time is over for disputes, if any, as to preferences The ticket is made up by the People's delegates. Now let the People sustain the nominations made for

them by men of their own choice, and lee us have a rousing, cheering and enthusiastic election, though con ducted on principles of order and sobriety, as becomes free and enlightened citizens of a great and progressive Republic.

A SHAMEFUL FABRICATION. A VILE story has been copied into several eastern papers to the effect that the "Mormons" in "prayer circle" have been constantly im-ploring the destruction of President Garfield, that when the news of the

the Saints gathered and had a time of joy and gladness, singing praises and giving glory to God for the assassination. The Providence Star referring to this story makes some unkind re-marks about the "Mormons,"—as editors usually do when about grant-ing us the least modicum of justice-and then says: "We do not believe the 'prayer circle' story that is now going the Gentiles as well as Mormons in Salt Lake City, and lying about the Saints is one of their chief accom-plishments. The account of a prayer for the death of President Gardiaki has about it all the ear-marks of a Gentile roorback, and we believe Gentile roorback, and we believe that we could put our finger upon its source in the Mormon capital."
