MINING, BUSINESS AND STOCKS

JENNIE MINE AT GOLD SPRINGS

Perseverance Has Won Out in The Development of This Gold Property.

E. R. WOOLLEY RETURNS HOME

Enthusiastic Over Iron County Camp -Mill Operating Successfully.

The Jenuie Gold Mining company's property at Gold Springs, Iron county, is a shining example of what perse verence will do. The manager, Chas. A. Short, used to be a newspaper writer but believing his chances for making a fortune with his pen to be a doubtful proposition, he forsook his first choice and took up the pick instead. His partner, H. R. Elliott, was a tender-

partner. II. R. Elliott, was a tenderfeet from Hillneis, who had visions of
noiking a fortune at mining. They
went to scuthern Utah and after drifting strand from place to place for
awhile they finally landed in what
is now tool Springs and located the
ground which is in possession of the
Jenne company of the present time.
Both noen put on their old clothes
and worked, but when they found
fheir supply of "grub" and powder
running low without accomplishing results which they desired. Mr. Elliott
struck out for the east to raise funds.
He was successful. But their project
faced disaster when compelled, by way
of diversion, to defend themselves in
a sult instituted in the court to decide
the priority of certain locations. After
many months of tedious fighting in the
courts they won out and since then
the Jernic company has been carrying
on a vigorous campaign of development and the property has risen to a
ranking of her among Utah gold mines.
E. R. Woolley, who returned from
making an inspection of the Jennie
yesterday, talks enthusiastically about
the Gold Springs district and the Jennie mine in particular. The new mill
is giving satisfaction and is operating with four stamps and the battery
of eight, now being installed, will be
ready for commission within the next
two weeks. At 175 feet depth, Mr.
Woolley says, the vein is fully 10 feet
wide and carries average mill values
of from 116 to \$20 a ton.

ON MINING EXCHANGE.

ON MINING EXCHANGE.

Year Closed With Indications of Inc provement in Stocks.

The last day of the year rlosed with signs of clearing skies for the local mining stock market. Everyone about the exchange today took on the air of optimism and expressed the belief that the new year would dawn with a return of confidence. The metals behaved better today; both silver and capper were quoted higher: the eastern markets were in better tone and that made things look more cheerful. Trading was better today than it has been for some little time and stocks strengthened all along the line. The assurance that the proposed Heinze smeller will be built: the amouncement that Jesse Knight will proceed without a moment's delay in the construction of the new lead smelter near Silver City, all tend towards improvement in 1908.

Ohlo Copper sold today at \$2.42½ and \$2.45 by the tenders. The last day of the year closed with

but the trading in the unlisted but the frading in the closing quapper sold today at \$2.4219 and the trading in the unlisted stocks was limited. T

NEARING END

Boston Con. Mining Company Appeals to United States Court for Aid.

The long drawn out trouble between local railroads and mining companies is coming to a head now; this result being hurrled by the Boston Con. Mincompany which has asked the Unit States district court for a prelim ed States district court for a preliminary writt of injunction against the Rio Grande Western Railroad company. This action will be followed by others in which the mining companies are going to fight for rates based upon net values of ores and not upon gross values, as is being done at the present time. The Sait Lake Route is charging rates upon net values of ore—that is, upon values of ores obtained by the mining companies from the smelters, hence smelter values. The Rio Grande is one of other railroads which are charging upon gross values which are charging upon gross values of ores—that is, values of the ore at the

As there is a big difference between As there is a big difference between the two values, the Boston Con, feels an injustice is being worked upon it by the railroad company, and that such action is in direct violation of the original and final contract drawn up by the two corporations. The Utah Copper company is mentioned as another sufferer in the bill of complaint. The papers have just here fluid with the contract of the company is mentioned as another sufferer in the bill of complaint. The papers have just here fluid with the contract of papers have just been filed with the clerk of the United States court.

WORKING AT WONDER.

Scheme Devised to Build an Oil Burning Smelter.

Wonder, Nev., Dec. 28.-With the advent of the new year work will commence in the mines here with renewed vigor. This is assured by the fact that the miners of the district will be re-lieved by that time of the necessity of looking after of looking after annual assessment work for outsiders. It is estimated that the annual work required in this direction cost no less than \$50,000. Some even place the figures higher, taking into account as they do the stretch of country lying between the Pairview district and Wondor.

Scarceiy a foot of this territory, 17 miles in length, between the rival camps is open to location. The hillsides lock as though a lot of prehistoric gophers had been grubbing in them. Apropos of the smelters, C. M. Lane, who with Colonel Coyle, has the Coyle-Lane lense on the group of claims sine lense on the group of claims whed by Judge Ross near the Yankee Poodle ground, has become interested in an oil barning smelter which he predicts will solve the problem of the Nexasa mines. According to Mr. Lane, who left Wonder for Goldfield a few days ago, the new smalter has passed out of the experimental stage. He asfreight rates on crude oil have been sail trom Bakersfield in Reno, it will thank the possible to cut under the marges for treating ore from \$2 to \$4

a ton.

The object of his visit to Goldfield is to secure the co-operation of the Goldfield color owners. According to his present plans he will erect one of the oil burning smetters near Hazen, which he thinks will be a central point in the mining industry of the state for a central ry.

Lane contends that the question is will put affect the oil burnof fluxes will rot affect the oil burning amelter in the least. He says that fully 20 per cent more silies may be contained in the ore than under the fully 20 per cent more allies may be contained in the ore than under the present methods used by the trust in treatment of Nevada ores, to secure relatively the same results. The discovery of ore with a large percentage of lead near Wonder was especially gratifying to him. He recently investignated the silver-lead minus near Winnermuces and will ranke them irthurary to his plant, he avers as soon as it is in running order. When he left Wonder he was extremely confident of success, based largely on the fact, he says, that a five-ton oil burning amelter has been operated accessfully. that the inventor of it also lavented the method of smalling ore used by the trust, and above all that constully, that the inventor of it also invented the method of smalling ore used by the trust, and above all that the time is opportune for the building of such a plant, that will mean more to the advancement of Nevada as a mining state that the discovery of 20 new districts, even if these are as good as Wonder.

BUSINESS MEN OF MURRAY ACT

Committee of Fifteen Named at Mass Meeting to Work in Smelter Closing Matter.

WANT PLANTS TO OPERATE

Until the Crops Are Planted in the Spring to Avoid Distress Among Laborers.

The citizens of Murray held a mass meeting last night to discuss the smelter situation and they are putting forth every effort to bring about a reconcillation between the farmers who were instrumental in bringing the smoke suits and the smelting companies with the hope that some plan will yet be devised to keep the smelters going until the spring crops are in.

The meeting was presided over by Mayor Charles Brown and W. H. Lyon acted as secretary. After a discussion of the subject for more than an hour and a hair a committee of 16 was appointed with power to act and which consists of the following:

consists of the following:
Charles Brown, mayor of Murray; J.
P. Cahoon, Murray; W. W. Wilson,
Sandy; Eugene Miller, Mill Creek; l'eter Gardner, Mill Creek; James C. Jenson, Sandy; Williard C. Bargon,
Union; R. L. Both, Bingham Junction; Robert Jorgenson, Sandy; R. H.
McDonald, Bingham Junction; J. A.
Bateman, West Jordan; William Cooper, Bingham Junction; J. F. Lindsey,
Taylorsville, Mayor J. S. Bransford of
Salt Lake and Orson Hewlett of the
Manufacturers & Merchants' association were named on the committee,
and the hope was expressed that they and the hope was expressed that they

would act.

The management of the Utah Consolidated, although the furnaces will be put out of commission tomorrow, has signified to the business men of Murray that they will be blown in again if the step taken in behalf of the employes is successful.

It was pointed out during the meeting that a menth ago the Utah Consolidated had 546 men on its smelter payroll and that the number has been since reduced to 318 owing to the preparations being made to close down. It

arations being made to close down. It was also stated that all but 60 of this number had families to support and that the company is employing none but white labor.

A STATE ORGANIZATION.

Mine Owners Believe Now is the Time To Work Together.

Definite steps have been taken towards the organization of a state mine owners' association. The project was discussed and a resolution passed at that gathering authorizing a committe consisting of C E. Leose, B. N. Lehman and Harry S. Joseph to call the producers in all camps within the state to meet for the purpose stated. According to a circular placed in the mails last evening, Jan. 15, at the hour of 11 o'clock in the forenoon, in the rooms of the Commercial club, are the date and time fixed.

In all probability, the independent smelter project will be one of the subjects discussed. At any rate, late events in the smelting world have made it apparent to a gerat many producers that their interests can be best conserved through organization, as has already been evidenced by the Tintic organization. In the case of the latter the operators of the Jush county camp have been able to obtain concessions from the railroads in the way of cheaper rates on ores smelters in the Salt Lake valley than could possibly have been done in any other manner. Progress also has been made in other directions and all in all the Tintic organization has been a success. Now that competition in the local smelting field is not as keen as it used to be, the time is believed to have arrived when a greater organization is needed.

TINTICS NEW SMELTER.

Plant May be Larger Than First Contemplated.

According to reports which have been traced to parties in a position to know, says the Eureka Reporter, the capacity of the Tintic smelter is to be increased. The smelter is now nearing completion and will be ready to start up sometime next March Acing completion and will be ready to start up sometime next March. According to the original specifications the smelter was to have a capacity of about 500 tons daily and now comes the report that it will, when finally completed, be a much larger plant. The chief engineer for the new company was out from Salt Lake the other day for the purpose of drawing up plans for the changes necessary to increase the capacity of the smelter. These changes will probably mean two additional furnaces and other equipment necessary for a heavier tonnage.

NEVADA DOUGLAS ORE.

It is said the stock of the Newhouse Mines & Smelters corporation will boon be listed on the Boston stock exchange.

Sam M. Levy has returned from making an inspection of the properties of the Gold Mountain Consolidated Mining company in the Gold Mountain dis-

The aerial transway of the Yampa company at Bingham went into com-mission last night and from this time on it will not be necessary to depend on the Copper Belt railroad to keep the smelter supplied with ore.

MAKING PLANS TO SAVE SMELTERS

Business Men Appoint Three Mayors as Committee On Matter.

To see what can be done towards bringing the farmers of Sait Lake valley and the smelter operators together in some form of an agreement, which will cause the farmers to go into court and ask that the decree closing the smelters on Jan. 4, be so modified to place the date further along in the spring, a committee is meeting this morning.

The committee is composed of valley The committee is composed of valley business men, with the addition of a few Sait Lakers, and it has taken into its ranks Mayor Brunsfords of Sait Lake, Mayor Brown of Murray, and Mayor Jensen of Sandy They were appointed a committee this morning to wait upon Manager J B Risque of the Highland Boy, and ascertialn what conditions the company will agree to meet the farmers upon. Another meeting of the general committee is schiduled for this afternoon, to hear a report and determine whether it is worth while to ask for a conference with the farmers' committee, or the farmers in a valley mass meeting mass meeting

GENERAL COMMITTEE.

The general committee consists of Mayor Bransford, Orson Hewlett, John R. Cahoon, Mayor Brown, W. W. Wilson, Mr. Jorgensen of Sandy, Mr. Bateman of the Highlang Boy, Mayor Jensen of Sandy, Mr. Booth of Hingham Junetion, W. P. Cooper of West Jordan and Mr. McDonald of Hingham Junetion.

The committee has assertained that the Highland Boy smelter employs 218 men of American hirth, 22e of whom are married, and that 518 children are dependent on the men for support. At the United States smelter there are 1,300 men at work, drawing \$85,000 a month in pay, and about helf of the Tonopah & California, 5 bid; Golden are American born.

YEAR'S RECORD ON EXCHANGE

Worth of Mining Stocks Sold.

JULY'S GREAT SHOWING.

Activity During Autumn Months-What Brokers Have Done Since 1897.

Nearly \$14,000,000 worth of business was transacted on the floor of the Salt Lake Stock exchange this year and with the exception of 1901, it was a record breaker. It is not so certain but what that year has been outdoneit all robability it has been-for during that period the records were not accurately kept; wash sales were of com-mon occurrence and it was at a time the sales records were padded by going out into the street and bringing in the curb

transactions.

At the close of business today, Secretary James Shorten gave out the following statement showing the amount of business done on the exchange during each month. It will be noted that July is credited with the largest sales in dollars, while August, September and October followed closely, with the balance in the number of shares transferred in favor of the latter. transactions.

TOTALS BY MONTHS FOR THE YEAR 1907.

Month.	Shares.	Amount.
January	1,680,096 \$	1,344,344.5
February	1,346,405	987,285,6
March	1,129,175	1,126,238.5
April	972,185	729,898.6
May	1,115,799	882,973.6
June	807,592	586,800,50
July	1,783,672	1,700,647.53
August	1,631,325	1,634,488,30
September	1.667,331	1,642,586.35
October	2,187,185	1,636,178,06
November	1.631.503	955,935,77
December	1,763,687	769,837.97

The transactions of the exchange from 1897 to 1996, inclusive are enumer-ated in the following:

GENERAL DRIFT WAS BACKWARDS

Nearly Fourteen Million Dollars Moderate Rise at Opening of Market, Reading and Union Pacific Being Absorbed.

SOON BECAME VERY DULL

Unfavorable Report on Atchison Earn. ings Had Bad Effect-Close Easy at About Lowest.

New York, Dec. 21.-There were no notable changes from last night's prices in the opening quotations today for A few small losses were minstocks. gled with the prevailing fractional gains. Anaconda fell I and Colorado Fuel rose %.

A moderate rise occurred, which was assisted in large part by the absorption of Reading and Union Pacific. Pressure against Amalgamated Copper and profit-taking at other points subsequently wiped out nearly all of the advance. Pacific Coast had been up 14, Delaware & Hudson 2, and American Tobacco preferred 2, Colorado and Southern first pfd. 1%, and American Beet Sugar 1½, Kansas & Texas pfd., Kansas City Southern pfd. and Mackay companies pfd. 1%, and Reading, Union Pacific, Canadian Pacific, Northern Pacific, Colorado & Southern and Central Leather pfd. 1. New York Airbrake fell 2½.

Individual stocks made advances but

Individual stocks made advances but the general drift was backwards and the demand insignificant. New York Chicago and St. Lous second pfd. rose 2, Interborough-Metropolitan pfd. 1%, National Biscuit 1%, U. S. Pipe pfd. 1%, and Northwestern 1.
Bonds were strong.
The market grew heavier and exceedingly dull, but the recessions from the noon level were slight.
Pennsylvania lost 1 and United Rallway and Investment 1%, Mackay company's gained 2.
The publication of the unfavorable

pany's gained 2.

The publication of the unfavorable November earnings of the Atchison induced liquidation of that stock which cost it 1% in price and caused sympathetic declines elsewhere. Southern Pacific, Reading and Northern Pacific receded 1 and Missouri Pacific 2, Grander Mis Mining gained 4% and American tion Oil 1.

The market closed easy at about the The market closed easy at about the lowest. Atchison was carried down 2½ and some considerable losses were established in sympathy. Union Pacific fell 2 below last night, Northern Pacific Reading, Pennsylvania, American Smelting and American Sugar 1½ to 1¾. St. Paul, Great Northern preferred, New York Central and Amalgamated Copper 1½ to 1½ and the United States Steel stocks 1.

PRODUCE.

CHICAGO.

Chicago, Dec. 31.—Following the decline of nearly 3 cents which occurred yesterday in the price of wheat for May delivery, the market today was again very weak because of renewed liquidation. A little firmness was manifested at the opening owing to the steadiness of the wheat market at Liverpool. Prices soon slumped sharply on lack of support, May sold off nearly 2 cents from the highest point which was reached on initial transactions. May opened a shade tosupport, this was reached on initial transactions. May opened a shade tosupport, this caused moderate weakness in corn. The volume of trading, however, was small, May opened a shade to be higher at 10% to 50%, and declined to 103%.

Oats were very quiet and the market was weak in sympathy with wheat and corn. May opened unchanged at 54 ami sold off to 15%.

Provisions were rather weak owing to a 10% to 10 to the decline in the price of live boxs. May pork was off The at 13.6%. Lard was se lower at 7.50. Ribs were also 5 cents lower at 1.50. CHICAGO.

Close Wheat May 60%; July 55% Corn-May 60%; July 55% May 52% 67%; July 60% 64%; July 46.

Pork-January 12.43%; May 13.10.
Lard-January 16.65; May 7.65%.
Rubs-January 6.65; May 7.65%.
Rys-Cash 75680.
Rarley-Cash 56697.
Timothy-March 4.70.
Clover-March 17.00.
The wheat market turned atrong about the middled of the session on urgent covering by shorts and continued strong the remainder of the day. The close was strong with May up 10 at 1.05% fill 06.
Corn-The close was strong with May showing a net gain of 16/11/4/60%.
