

crushed and left with other wounded and lying behind as they sought the open air. Only a few of the braver ones remained behind to care for their loved ones who were lying helpless and bleeding on the floor.

CHEYENNE, Wyo., Nov. 9.—Cheyenne was honored yesterday with a visit from the eminent divine and African missionary, the Rev. Dr. William Taylor. Taylor has been visiting his children in California and is now on his way back to his post of duty in the wilds of Africa. In 1884 he was elected missionary bishop of Africa and since that time he has devoted his whole time to the organization of missions and schools for the enlightenment of the natives of Central Africa. Bishop Taylor travels from one mission to another, hundreds of miles apart, on foot, accompanied usually by only two attendants.

LONDON, Nov. 9.—Alderman George Robert Tyler, the new lord mayor of London, was inducted into office today with the usual ceremonies, including the customary lord mayor's parade, which was witnessed by tens of thousands of people. The parade was not well received by the large number of unemployed workmen who witnessed it, they evidently believing that the large sums of money spent on it might have been better used in relieving their distress and that existing in the coal regions, and some of the more audacious even went so far as to hiss as the parade passed, though it was promptly suppressed by the police.

WASHINGTON, D. C., Nov. 13.—Officials at the navy department say they have no news from Honolulu by the steamer that arrived at San Francisco. Gresham asserts that he has nothing to say on the Hawaiian question and declines to either affirm or deny the reports offered to him for corroboration or denial. The officials in both departments, in fact, manifest a lively interest in all that can be told them by newspaper men. Soon after the reports received from Honolulu reached the department Gresham hurried over to the navy department and had a brief interview with Herbert which may have been only an inquiry as to whether his department had any news to communicate.

Some expressions by Hawaiian Minister Thurston, published this morning, are said to have given offense to the administration and a rumor is about that the Hawaiian representatives here will have their *exequaturs* demanded. Whether the representatives give an acting offense or not their position is an anomalous one, representing as they do a government which the United States is willing to see deposed and a severance of the relations between this government and the legation will not be surprising.

SAN FRANCISCO, Nov. 13.—Advises from Yokohama say: A severe storm swept over Southern Japan on Oct. 18th, lasting several days. In Yokohama, where the floods wrought the most destruction, 141 persons are known to have perished and hundred more are missing. One thousand three hundred and forty-six houses were washed away, many bridges destroyed and a great number of horses and cattle were killed. From other points 348 persons were reported as killed, 475 ships and boats wrecked, and great damage done to farms,

WASHINGTON, D. C., Nov. 13.—The memory of the late Justice Blatchford of the United States Supreme Court was duly honored this morning when Attorney-General Olney presented in the court the resolutions passed by the bar of the supreme court, adding on his own behalf, some remarks in eulogy of the late jurist's life and character.

OMAHA, Neb., Nov. 13.—On application of the federal government the United States district court this morning appointed J. W. Doane, of Chicago, and F. R. Couderc, of New York, additional receivers of the Union Pacific railroad without opposition. The petition sets forth the claims of the government against the road as entitling it to a larger representation among the receivers.

TORONTO, Kas. Nov. 12.—Ephraim Barnard, 80 years old, tonight shot and killed his wife aged 63, and his daughter aged 36 and then himself. He left a letter saying he had "outlived his usefulness." It is thought he had contemplated the crime for some time as he recently bought a lot in the cemetery here.

MADRID, Nov. 13.—A report has been made to the government in the Santander disaster. It says it will take a long time to repair the damage to the city and to the public buildings, including the offices of governor, collector of taxes, custom house, courts and prisons. Besides the loss of these the private losses will aggregate two and a half million dollars. Eighty persons are still missing.

The latest reports put the number of killed at two hundred and fifty, and the wounded at four hundred.

CHICAGO, Nov. 12.—Services in commemoration of the anniversary of the death of the five anarchists, August Spies, Albert Parsons, Louis Lingg, Adolph Fischer and George Engel, were held today at the monument erected to their memory in Waldheim cemetery, where some 2500 persons gathered. The occasion was made notable by the fact that Samuel Fielden, Michael Schwab and Oscar Neebe, comrades of the executed anarchists, who were sentenced to Joliet, but pardoned by Governor Altgeld, were present, Fielden and Schwab being the orators of the day. When the men were pardoned it was said that a condition of their release was that they should make no more anarchistic speeches, but they made them today nevertheless.

LONDON, Nov. 12.—A meeting of English and foreign anarchists was held today at Trafalgar Square. Twelve hundred "Reds" assembled to honor the memory of the Chicago "martyrs." The base of the Nelson column at the center of the front portion of Trafalgar Square was surrounded by anarchists, bearing red and black banners. There was a large number of police and detectives among the crowd, listening to the speeches and taking notes of sensational remarks. The speakers were less violent than usual.

SAN FRANCISCO, Nov. 13.—The steamer China arrived early this morning from Honolulu. She brings the intelligence that United States Minister Willis arrived there on the morning of Saturday, Nov. 4th, and went directly to Blount's headquarters at the Hawaiian hotel. He remained in

seclusion until Monday, resting from the fatigues of the journey, declining to see any reporters. On Monday morning he submitted to an interview. He declined to touch on the political questions concerning the islands or to make known the nature of the instructions on which he would act until after they had been presented to the island authorities. The interview, however, made evident the fact that he is accredited to the provisional government and this was emphasized later in the day when he sent a communication to the minister of foreign affairs of that government, asking when it would be convenient for President Dale to receive his credentials, and transmitting at the same time a manuscript copy of the remarks which he proposed to deliver on the occasion of his presentation.

President Dale promptly replied, fixing the hour of 11 o'clock, Tuesday, for the presentation of credentials. The steamer sailed that morning before the result of the meeting was known.

NEW YORK, Nov. 12.—The *World* this morning prints a letter received from S. C. Oglesby, who is a derailing confinement in the Royal prison at Havana. "The charge against him is 'assaulting the military police.'"

Proceeding, Oglesby says: "These are the simple facts in the case. On the evening of October 28th, I was assaulted by two soldiers, who bound my arms behind my back, ransacked my pockets, dragged me before an officer and preferred a charge against me for assaulting them. Meanwhile, I am confined in ward 24, with malefactors, and for a bed have soft granite. Twice daily the prisoners are fed with food a hog would decline with disdain. There is the amount of vermin and filth to be expected under the circumstances. Now confined in the same ward with myself is a young American, Harry Howard, a native of Boston. He has been waiting trial five months, with no prospect of getting one. The charge against him is *agresion de torza armada*. The fact is he defended himself when attacked by four soldiers. I am a native of Georgia, 29 years of age, well known at Nashville, Birmingham and other cities south as a printer, editor and newspaper man."

WASHINGTON, D. C., Nov. 12.—Secretary Gresham gave out the following tonight: When authentic information was received of the firing upon the American mail steamer Costa Rica at Anapola on the 6th inst., because of the refusal of the captain to deliver up Bonilla, a passenger, Young, minister to Honduras, under instructions from Gresham, by direction of the President, protested against the act and demanded an apology. The government of Honduras promptly disavowed the conduct of its officers and expressed sincere regret at the occurrence. The apology of Honduras was expressed satisfactorily to the United States.

NEW YORK, Nov. 11.—The *Herald's* Montevideo dispatch says: Word has just been received from Rio that all the banks were closed today and the bombardment renewed. There was some heavy fighting between the rebel forces and the royal troops at Niotheroy. The fire from the fort finally sank the rebel torpedo boat, though not before the insurgents' gun had inflicted considerable damage on Niotheroy.
