THE MUTUAL LIFE'S

5

per cent Gold Bonds

Are as safe as Government Bonds and give more than four times the net returns of U. S. 5 per cent Bonds.

The Mutual Life's 5 per cent Gold Bonds net 5 per cent.

U. S. 5 per cent Bonds, because of Premium, net about 1 per cent.

Government Bonds must be paid for, spot cash. The Mutual Life's Bonds are to be paid for during 10, 15, or 20 years, or life, and in every case are fully paid and delivered whenever death occurs, no matter if but one premium payment has been made. They are coupon bonds, in denominations of \$1000, and, if desired, the company will agree to cash them at \$1305 for each \$1000 as soon as they are deliverable. Business men and capitalists are taking these bonds in large amounts.
