Address:

Bazaine has arrived at Spa. Madame Bazaine says she planned her husband's escape, with a few of her relatives to help her.

The Spanish Republican general Blanco has relieved Vittoria, and captured some arms from the Carlists.

The Archbishop of Paris has pub lished another pastoral, and incited shall be by him recorded in a book another diplomatic difficulty.

An educated Chinaman has given a pitiful recital of the horror of the Chinese coolie business in Cuba.

The kingdom of Italy is said to be hopelessly bankrupt.

A HEALTHY CITY.

LONDON, including the city proper and the metropolitan districts, covers a space of 122 square miles of ground and is computed to contain be filed in said office and recorded. three and a half millions of inhabitants, being the largest city in the world, though not so densely popu-lated as Liverpool, which has close upon 100 sculs to the acre.

Notwithstanding the enormout size of London and the enormous number of its inhabitants, it is one of the healthiest cities on the globe. In comparison with its extent and population, perhaps no other city can compare with it. For the week ending July 11 of this year, the mortality of London was at the rate of 20 per 1,000 per annum, above the average for that city, and not greatly varying from the annual contracts, to sue and to be sued, rate of mortali'y in this city. For the same week in New York City the same week in New York City the mortality was a fraction above the rate of 44 per 1,000 per annum. New York papers, in discussing the causes of this extensive mortality in that city, attribute it to had

ed. It is also well governed, and as do those of New 1 ors. site of London must naturally be a very healthy one, and the climate is very mild, not usually subject to as do those of New York. The site of London must naturally be a very healthy one, and the climate is very mild, not usually subject to severe extremes, either of heat or cold, 80° F. being considered a very high temperature, and in winter snow rarely lying on the
