

AMENDMENT OF O. S. L. CHARTER

Judge Cornish Throws Some Light
On the Steps to be Taken.

LINES AND STEAMSHIPS.

Scope of Company Thereby Enlarged
So That It May Engage in
Other Enterprises.

Judge William D. Cornish, vice president of several of the Harriman lines, and Secretary Alexander Miller of New York, Judge Kelly and Auditor Evans, of Young, Omaha, Vice President of the Union Pacific, and a member of the Oregon Short Line legal department, were in the directors' room of the Oregon Short Line this morning in consultation over matters connected with the regular stockholders' and the special meetings which are called for tomorrow and Thursday.

Judge Cornish was seen this afternoon. He stated that he was glad to get west here more and as soon as he had completed the necessary work that falls his lot in connection with his annual visits to Utah that he would go to California with Mrs. Cornish and live in the luxury of a vacation.

Coming down to the object of his visit here he stated that there was absolutely nothing to give out at this time which would be of interest to the general public. He then went on to state that the reports that the Oregon Short Line was going into the steamship business were, to say the least, somewhat premature. "We already now operate a line of steamers, or rather the O. S. L. does," he declared with a smile, "and is losing money on it. There is a prospect that the Short Line will operate any steamers."

He then proceeded to explain that the special meeting had been called for the purpose of amending the charter of the company so as to provide for the acquisition of other lines, and that the amendment was to be made in the future. It was the intention, he said, to have done this at the annual meeting, but the matter was overlooked. While Mr. Cornish did not specify in what particular direction this amendment was to be made, the inference was that when effected the Oregon Short Line would be given more power in the direction of acquiring and operating other lines, steamships, and other valuable adjuncts to a large and up-to-date railroad corporation.

SPIKE AND RAIL.

A. Foley, general agent for the Illinois Central, left for Boise this morning on a business trip.

The tentative plan of the Southern Pacific directors to issue \$25,000,000 for the purpose of acquiring and operating other lines, steamships, and other valuable adjuncts to a large and up-to-date railroad corporation, has been abandoned.

It is on the cards that Poncell will have a new depot commensurate with importance as a railroad junction center.

The contract for the grading of the Montana Railroad company's extension from Harlowton, on the Butte and Great Northern, to Lewis and Clark, a distance of 33 miles, has been let to the Ab Construction company.

Judge Cornish is decidedly pleased in the new headquarters of the Oregon Short Line. It will be recalled that he was here before he arrived two years after the big fire.

Chief Clerk Robinson, who succeeds Smith in the office of the general superintendent of the Rio Grande, Oct. 15, is in town shaking hands and getting further acquainted.

George B. Dodge, general agent of D. & R. G. Dodge, dentist, is a student at the University of Idaho, in a business trip to Butte. Mr. Dodge is well known in this city where he has a host of friends.

How comes the Denver Times with an announcement that Mr. Paulsen of Allen will succeed Edward Dickinson as general manager of the Utah Pacific? In the meantime Salt Lake City is a guessing game, despite the fact that Messrs. Paulsen and Dickinson have denied the purported changes.

Members of the executive committee of the Western Passenger association met in Chicago yesterday a movement looking to putting in effect low rates through out the western territory. With the committee met a committee of the Southwestern association in the west and south and vice versa. A general meeting was called Thursday to discuss details.

THE PUBLIC LIBRARY.

Patrons Must Stop Defacing Books
— Other Matters Considered.

The regular monthly meeting of the board of directors of the free public library was held in the library rooms at the city and county building this morning. Those present were T. G. Ober, G. D. Pyper, H. C. Hill, Mrs. Upstead and Mrs. Richards.

Attention was called to a number of cases which had been defaced by patrons. The board decided that such defacement should be stopped, and that the library should be kept in a clean and orderly condition.

Two of the books were submitted for inspection, and they showed evidence of rough treatment. The board decided that such practices should be stopped, and that the library should be kept in a clean and orderly condition.

Auditor Reiser reported a balance on hand to the credit of the library of \$3,143.11. Bills to the amount of \$81.88 were ordered paid by check.

The librarian filed her report for the month of September, which shows the membership on Oct. 1 to be \$732. It is an increase of 138 over the month. The number of books read for home use during September, 1902, an average daily loan of 26, were 5,624 books issued in the

I Will Cure You of Rheumatism

Else No Money is Wanted.

After 2,000 experiments, I have learned that cure for rheumatism is not to turn bony joints into flesh again; that is impossible. But I can cure the disease always, at any stage, and forever. I ask for no money simply write me a postal note, I will send you an order on your nearest druggist for six bottles of Dr. Shoop's Rheumatic Cure, for every druggist keeps it. Use it for a month and if it succeeds, the cost is only \$5.50. If it fails, I will pay your druggist myself.

I have no samples, because any medicine that can affect rheumatism quickly, must be drugged to the verge of danger. I use no such drugs, and it is folly to take them. You must get the disease out of the blood. It is only \$5.50. If it fails, I will pay your druggist myself. I know it and I take the risk. I have cured cases in this way, and my records show that 99 out of 100 who get those six bottles are cured.

I have learned that people in general are honest with a physician who cures them. That is all I ask. If I fail I don't expect a penny from you. Simply write me a postal note or let me hear from you my book about Rheumatism, and an order for the medicine. Take it for a month, as it won't harm you any way. It is only \$5.50. Address Dr. Shoop, Box 713, Racine, Wis.

Mild cases, not chronic, are often cured by one or two bottles. At all druggists.

YOUNG LADIES MEET.

Annual Session Commenced in the
Fourteenth Ward Today.

The annual meeting of the Y. L. M. I. A. was held this morning in the Fourteenth ward assembly hall. Counselor M. Y. Dougal presiding in place of the president, Mrs. Elmina S. Taylor, who was unable to be present. The hymn, "Come let us anew" was sung by the assembly with Mrs. Tuddenham leading and roll call the meeting was opened by Mrs. Dougal, who made a brief but earnest address, commenting chiefly upon the necessity of the officers of the various divisions remaining the importance of their positions and attending their duties. She urged the officers to suggest to the young sisters the importance of knowing how to prepare for temple ordinances, and related incidents of annoyance where this had been neglected. She read a communication from President Taylor relating to the importance of the association work, through officers accepting positions in other organizations, and urging a discontinuance of this practice. Mrs. Dougal said strongly against the subject and said that neither the bishops of wards nor officers of any organization had a right to call the M. I. A. officers to other places. Mrs. Cannon and Mrs. Aggie Campbell, who spoke earnestly upon matters pertaining to the good of the society, emphasizing their belief that the calling of officers to other organizations should be magnified, and if faithfully performed would be magnified by God.

Among the questions discussed were those pertaining to the setting apart of officers by constituted authority which was declared to be proper wherever there was a willingness to perform this office. The necessary steps to be taken with regard to dilatory acts, and the preliminary program as adopted by the Young Men's association.

The meeting closed with a most eloquent address by Mrs. Susan Y. Gates, who spoke upon advanced subjects of thought, and was listened to with rapt attention throughout. The more the most successful and satisfactory one, the attendance being large, and a spirit of great interest being manifested throughout.

BLOODY AFFRAY AT SCOFFIELD

Slays Defy City Marshal and Indulge in Shooting.

ONE DEAD, OTHER WOUNDED

Anthony Barinick, a Saloon Keeper,
Shot Through Body—Deputy Marshal Nalley Killed Lifeless.

My remedy does that, even in the most difficult, obstinate cases. No matter how impossible this seems to you, I know it and I take the risk. I have cured cases in this way, and my records show that 99 out of 100 who get those six bottles are cured.

The scene leading up to the condition of the man who was brutally killed while doing his duty terminated during a desperate fight and shooting affray at the coal camp.

As far as can be learned, on Sunday evening a crowd of Slavs congregated at the house of A. Barinick, who is thought to be a saloon keeper, and proceeded to celebrate. So hilarious did they become that eventually the neighbors sent for Marshal Hugh Hunter, who had endeavored to keep the Slavs to quiet down. Hunter was promptly shot to get out unless Scofield was anxious to have a dead marshal on his hands.

Hunter was unarmed he left and proceeded to hunt up his gun. He returned and thrusting the gun through the door, endeavored to force his way into the house. A shot was fired, and Hunter fell. He was shot through the head and killed during a desperate fight and shooting affray at the coal camp.

AMUSEMENTS.

Conference being over, the visiting
population of the city last night gave
itself up to entertainment. The con-
sequence was that the Tabernacle con-
cert and the two places of amuse-
ment, the Theater and the Grand,
were heavily attended. The theater be-
lieved to be the most of the audience
thronged from orchestra to third
gallery, and the Grand hardly having
breathing space.

The Tabernacle held an audience of
2,000 or 3,000 people, who were re-
warded by listening to one of the rarest
and most delightful concerts that has
been given in this city. The program
was a masterpiece of the highest order.
Time past. Miss Emma Lucy Gates was
the star of the concert, and she had
something like a dozen numbers to ren-
der. The big impression she made in
the audience was that of a woman who
was more than duplicated last night.
Her rendition of the more difficult num-
bers, created a positive furor, and the
audience was so much so that she was
introduced in "The Jolly Musketier."
The feature of the night, it would
have been enough had it not been the
closing number on the program and
even then a big section of the audience
remained in its seat and tried to call
her back. Next to this number, her
best work was done in "The Villanelle."

The coroner's inquest held over the
remains of Anthony Barinick brought
forth the verdict that deceased came by
his death through hemorrhage,
caused by a bullet of a 3-caliber re-
volver.

LUMBER DEMANDS.

Article is Very Scarce on Account of
The Big Forest Fires.

Contractors report a great scarcity of
lumber, and much uncertainty as to the
future. This is occasioned by the great
fire in the northwest, and the unprece-
dented demand not only all over the
United States, but in foreign countries
for American lumber. Now that it has
been discovered that the ants in the
Philippines will not touch American
timber, immense quantities are being
ordered for building purposes. The
demand for lumber is being kept up by
the prospect of the demand there
being continuing indefinitely; and
England is also in the American mar-
ket for lumber. There is a building
boom all over the country, with peo-
ple calling from all directions for build-
ing material.

A Salt Lake contractor said today
that at one west side lumber yard
where there should be at least \$10,000
worth of lumber in regular stock, he
was unable the day before to get any-
thing. He said that the lumber was
being taken to the mills and was "driven
to death" with orders, and when
they are really able to respond, the
chances are that the railroad companies
are unable to furnish the cars. Pa-
cific, Great Northern, Utah and Great
Salt Lake are being kept up by peo-
ple calling from all directions for build-
ing material.

There is only one word in our lan-
guage that does full justice to an en-
tertaining like that seen at the theater
last night, and that word is "rot."
The theater was jammed and the upper
part of it roared, there is no gain-
ing that. The lower part sat through
two acts, and then a big section of it
left. Where "Alphonse and Gaston"
was shown, but that excited by the
living, is one of the things past finding
out, and that the New York booking
agents of the Salt Lake theater should
have sent such an extraordinary show
for a full week is equally a mystery. The
same bill goes tonight.

At the Grand theater, we were better,
and in some respects they were worse.
"A Fox Tramp" is about the cheapest
and most meaningless aggregation of
trash that was ever thrown together
under the name of a play. Most of the
men are all wood and a cord wire, and
the leading lady's agony over the dead
body of some or another is worth
going miles to witness.

Blanche Douglas, the divorced wife of
Ralph Cummings, and Harrington Rey-
nolds, formerly a British officer, were
married recently at Los Angeles. Both
are now dramatic lights, and the groom
was for five years with the Frawley
company. He will be remembered for
his work in this city.
