

EDWARD'S HEALTH IS PRECARIOUS.

Medical Press and Circular Prints Alarming Details.

WILL UNDERGO OPERATION.

Applomatous Growths Have on Three Occasions Been Removed From Left Vocal Chords.

New York, Oct. 31.—The London correspondent of the Tribune cables the following concerning the health of King Edward:

With a full sense of its responsibility in the matter, the Medical Press and Circular prints some alarming details in the subject of the king's health. It stated that papillomatous growths have on three occasions been removed from the king's left vocal chords and that an immediate operation of another nature has since been rendered necessary. "Under the circumstances," says the Medical Press, "it seems right and proper that the natural anxiety should be at once met with a clear announcement as to the truth or otherwise of these distressing reports."

A Chicago Building Collapses.

Chicago, Oct. 31.—The five-story brick building at 141-143 Ontario street was destroyed by fire early this morning. The building was occupied by the following firms:

Derby Steam Laundry.
The Chicago General Cleaning Works.
Zimmerman and Company, manufacturers of men's suits.
The Chicago Box Company at 145 and 147 Ontario street, caught fire. The structure, which is of four stories, was wrecked.

The loss of the building burned is estimated at \$50,000, half of which is on tenants. The fire is supposed to have started from an explosion.

The Oregon in Dry Dock.

Seattle, Wash., Oct. 30.—The battleship Oregon is now on the government dock at Puget Sound navy yard, where she was taken last Friday to undergo repairs to her keel, which was severely strained when she ran on the rocks some months ago. Later, she will be given a general overhauling and painting.

More than ordinary care was necessary on account of the strained keel, and for many days prior to the docking extraordinary preparations were made for the reception of the big war vessel.

In order that she might rest gently on the blocks, instead of punting all the way from the dock, as is usually the case, only about six feet were taken out. Shores were then placed in position and two divers entered the water to adjust the wedges and blocks carefully about the keel before any great part of the weight of the battleship was allowed to rest. The remainder of the water has since been pumped from the dock and the damaged part of the hull exposed.

Killed His Baby Girl.

Butte, Mont., Oct. 30.—Little Ethel Plumb, aged 2 years, is lying dead at the home of her grandmother, Mrs. H. H. Parke, at Virginia City, this state, as a result of a beating administered by her mother, Mrs. Plumb. Mrs. Plumb has a bullet wound in the hip. Mrs. Parke was shot through the right shoulder and Mr. Plumb is in jail with a bullet wound in the head.

Plumb and his wife have not lived happily together for a long time, and of late Mrs. Plumb has been living at the home of her mother, Mrs. Parke.

Last night Mr. Plumb went to the house and opened fire upon his wife, who secured a revolver and also began shooting. At the first shot fired by the husband the child fell dead with a bullet through the head.

Many shots were exchanged before help came and the infuriated man was carried off to jail. The woman will recover.

David Horgan's Body Found.

Butte, Mont., Oct. 30.—David Horgan, a Butte mining man, who disappeared from his cabin in Alaska, near here, a few days ago, has been found dead in Centennial creek, near Lake View, this state.

Better Steamer Service for Mexico.

San Francisco, Oct. 31.—The Kosmos steamship line of Hamburg, has contracted with the Mexican government to establish regular connection between the Pacific coast service and that covering Mediterranean ports.

Under the contract with the Mexican government the company will handle mail free and ten tons of government freight on each of its vessels. In consideration of this service the company will be exempted from 65 per cent of the tonnage dues.

N. Y. University Alumni Ass'n.

New York, Oct. 31.—Arrangements are being made for the formation of a general alumni association of New York university. It is the intention to have local centers for the general association in some of the larger cities, preferably Philadelphia, Chicago, Boston and St. Louis.

Postal Service Estimates.

Washington, Oct. 30.—The estimates for the entire postal service for the fiscal year ending June 30, 1902, aggregate \$153,835,500. This is inclusive of \$1,037,370 for departmental salaries and \$216,550 contingent expenses.

The total for rural free delivery is \$2,450,000, an increase of \$2,750,000 over the current year.

The compensation for postmasters amounts to \$20,000,000; letter-carriers and substitute and temporary carriers, \$17,400,000; star route service, \$6,715,000; office car service and railway mail service, \$524,826.48. The grand total for inland mail transportation is \$63,019,956, and for foreign mail \$2,542,000.

The total for compensated postage stamps is \$20,000,000; postage stamps and newspaper wrappers, \$716,000; postal cards, \$177,000; registered packages, \$146,000; fees to special delivery messengers, \$742,000. The total for mail transportation and all other means of the general assistant postmaster-general is \$255,000.

The New Baby

Opens up a new world to the loving mother. If it is a strong, healthy baby that new world is a world of happiness. If it is a weak, fretful child the new world is full of anxiety. It has been proven in thousands of cases that the use of Dr. Pierce's Favorite Prescription makes all the difference between strength and weakness in children. Healthy, happy mothers have healthy, happy children. "Favorite Prescription" gives the mother strength to give her child. It makes the baby's advent practically painless and promotes the secretion of the nourishment necessary to the healthful feeding of the nursing child.

"I have been using Dr. Pierce's Favorite Prescription and can say it is just what you advertise it to be," writes Mrs. Victor J. Hadin, of Louisville, Ky. "I began taking it just two months before baby came and was greatly benefited by its use. The doctor who attended me said that I did not well as any one he had seen (as I was sick only about three hours) and also that my 'Favorite Prescription' was 'one of the best medicines' which he had ever given him one dose of medicine."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

ALYCHING IN KENTUCKY.

Mob Takes a Negro From Jail and Hangs Him.

RIDDLED WITH BULLETS.

The Man Had Compelled a Fifteen-Year-Old Boy to Commit a Crime.

Hodgenville, Ky., Oct. 31.—A mob of fifty or seventy-five determined citizens came down upon this little town about 2 o'clock this morning and took from the jail Silas Esters, a negro charged with forcing Granville Ward, a fifteen year old boy of Near Upton, to commit a crime, and strung him to the courthouse steps.

So quietly and systematically did the mob go about its work that the citizens of the town were in ignorance of the existence of the mob until the negro was in the clutches of the mob.

The citizens composing the lynching party approached the jail and upon their demand the keys were surrendered to them. The cell in which the negro was confined was opened and the mob was admitted.

He was dragged down the jail stairs and out into the street. He managed to slip the noose from his neck and made a break for liberty. The mob, crazed with anger, made after the negro, howling and firing at him with guns and pistols. The negro fell when about one hundred yards from the jail house, riddled with bullets.

The negro's body was again placed about the negro's neck and he was dragged to the courthouse and swung to the topmost steps.

The mob was formed in the neighborhood of the courthouse. When the work of lynching the negro had been accomplished the members of the mob quietly dispersed and went to their homes.

Queen Victoria Memorial Designs.

New York, Oct. 31.—The private view of the designs for the Queen Victoria memorial at St. James palace was a consolation stake for the unsuccessful competitors and also for the public, says the Tribune's London correspondent. The accepted designs of Thomas Brock for the statue and of Aston Webb for the improvement of the Mall and the landscape effects have not excited public interest nor quickened subscriptions, but when the other designs are examined in detail it is evident that the metropolis might have done worse. One design, however, provided for a recasting of the facade of Buckingham palace.

The designs are a series of arches for a processional road, representing Canada, Australia, India and Africa.

Strictest Pure Food Law.

New York, Oct. 31.—What is said to be the strictest pure food law in the United States will go into effect in New Jersey tomorrow. Its enforcement has been entrusted to the New Jersey state board of health. Under it the office of state dairy commissioner has been abolished and his duties will come under those of the chief food inspector. There will be a large number of deputies scattered all over the state. Everything that can come into use as human consumption as food or drink is included under the law. The inspection will even take in canned goods. It does not matter whether these or anything else is manufactured or put up outside the state or in it, they are included under the law. The law is able to come under the ban of the law if the analysis is to be made from time to time shows them to be unfit for human food.

American Cables for Glasgow.

New York, Oct. 31.—According to the World a conduit and cable company of this city will furnish the cables required for an extension of the Glasgow Corporation tramways. The contract will amount to nearly \$250,000. The cables will be manufactured at Hastings on the Hudson.

The British Westinghouse Electric & Manufacturing Co., limited, has also closed contracts with American machinery manufacturers for the equipment of its extensive works now under construction at Manchester. These contracts aggregate nearly \$300,000.

Mistaken for a Deer and Killed.

Nantmole, B. C., Oct. 31.—John Torrence, who owns a farm about one mile outside the village of Comox, was shot and killed by John Peacey, a hunter. Peacey was deer hunting and coming out of the woods to Torrence's farm saw Torrence in a ditch that he was digging. Peacey mistook him for a deer and fired, shooting Torrence through the neck and killing him instantly.

Russell Marries Mrs. Somerville.

London, Oct. 31.—Earl Russell and Mrs. Somerville were married at the registry office in London this morning.

Prince Chun in Hongkong.

New York, Oct. 31.—Prince Chun has arrived at Hongkong via a dispatch from that city to the London Times and the New York Times. He visited the governor, Sir Henry A. Blake and received a royal salute, but no guard of honor was provided with the exception of a few police. The Chinese merchants gave a banquet in honor of the prince.

Oil Refinery for Point Richmond.

San Francisco, Oct. 31.—The Chronicle says that plans are now completed for the establishment of a large plant by the Standard Oil company at Point Richmond in the immediate future. The plant will consist of a refinery to which oil will be piped from the Kern river district. A line of steamers to supply the oil to the Hawaiian islands will also be established.

NEW IDEA IN NAVIGATION.

Cable with Electric Lights to be Put in St. Lawrence River.

New York, Oct. 31.—An important patent connected with the St. Lawrence Navigation has been issued and submitted to Mr. Tate, minister of public works, by whom it will be submitted to the cabinet, says an Ottawa special to the Times. The patent is assigned to do away with the light-houses, buoys and in fact the entire paraphernalia for night navigation between Montreal and Quebec and substitute a submerged electric system. The main idea is to sink an electric

BRECKINRIDGE'S REPORT.

Notes Fact That All Officers Are Not Thoroughly Instructed and Efficient.

Reports From Officers on Various Posts All Favor the Canteen System.

Washington, Oct. 31.—The annual report of Inspector Gen. W. C. Breckinridge says that while there are reports of harmony and good will among the officers of the army, the expression "All officers are thoroughly instructed and efficient," is not heard so frequently as before the Spanish war, due, no doubt, to an influx of inexperienced officers. Most reports, however, are favorable. Some lack of attention given by officers to their daily life and duties is noted. The report commends the sagacity and ability of officers who have conducted civil affairs entrusted to them abroad.

The class of recruits received is reported generally up to the standard. The discipline of the troops is reported generally good.

Of the post exchange the inspector general says: "The reports show that wherever practical post exchanges were in operation at the time of the inspection, the prescribed rules and regulations were being fully complied with and their business was being satisfactorily conducted. A majority of the posts where post exchanges are maintained were inspected before the law prohibiting the sale of beer in the canteens was enacted, and most of the reports would show the effect of that law under them. At some of the posts inspected it was reported that the exchange was closed or was being operated at a loss since the sale of beer was prohibited, while at others the operations under the exchange law were reported to be unsatisfactory. The sentiment of the army on the subject is well known and is given expression in the following remarks of the inspectors:

"Col. Burton, (Cuba) says: 'Officers generally complain that the elimination of beer has worked a hardship on the soldier, and has been detrimental to good order and military discipline.'"

"Lieut. Col. Reed, (Dakota) reports that 'The consensus of opinion is that the canteen feature promotes the morals, temperance, discipline and health of the men.'"

"Col. Sanger, (Philippines) reports: 'The suppression of the canteens has worked a hardship on the soldier, and has been detrimental to good order and military discipline. At some of the posts inspected it was reported that the exchange was closed or was being operated at a loss since the sale of beer was prohibited, while at others the operations under the exchange law were reported to be unsatisfactory. The sentiment of the army on the subject is well known and is given expression in the following remarks of the inspectors:

BREAD RIOT IN MEXICO.

People Attack Warehouses and Are Fired on by Guards.

San Antonio, Texas, Oct. 30.—News was received here today that at Purandiro, Mexico, October 28, a bread riot occurred, in which twenty people were wounded, many of them fatally. The cause of the riot is said to have been the action of speculators in cornering the supply of corn.

A corn famine has existed in that section of Mexico for months, and the government recently removed the import duty on corn from the United States as a measure of relief.

It is said that speculators cornered the shipments to Purandiro and raised the price 100 per cent. The starving people, driven to desperation, attacked the warehouses, women and children leading the assault. They were shot down by the guards. Those who escaped the bullets fled appalled at what had happened.

The conditions in that section of the republic south of the city of Mexico are described as terrible. The government has sent troops to the scene.

FRENCH RAILWAYS.

Want State to Make Good Deficits Below Fixed Charges.

New York, Oct. 31.—The Matin quoted by the Paris correspondent of the London Times and the New York Times, says the French railways are about to ask the state to provide rather more than \$5,000,000 francs, the amount by which the railways' net profits fall short of the fixed charges. The correspondent says the amount of the railway deficit will probably exceed \$5,000,000 francs by the end of the year. He adds that the general budget deficit is likely to be 100,000,000 francs.

White May Return to Cornell.

New York, Oct. 31.—The Cornell university club members gave a reception last night in honor of Andrew D. White, ambassador to Germany, who is to sail for Europe soon.

Ambassador White made an address in which he said that he hoped to be able to resume an active connection with Cornell university when he is relieved from his present post.

FIGPRUNE Cereal

54% Fruit
46% Grains

A Perfect Food Drink

The beverage made from Figprune Cereal is smooth, palatable and nutritious. Because of the large percentage of natural saccharine matter in figs and prunes, Figprune requires less sugar than any other cereal coffee. All Grocers Sell It.

AMERICANS ARE UP TO DATE

So Says German Commissioner to America.

AHEAD OF THE EUROPEANS.

What They Formulate Is Put in Practice in the United States.

New York, Oct. 31.—Among the passengers who will sail this morning on the Deutschland for Hamburg is Count Otto von Moltke, a nephew of the great German field marshal. Count von Moltke, Count von Moltke has been in this country since October 4, he having been appointed a commissioner by the Prussian parliament, of which he is a member, to study American transportation methods. In an interview he said: "It is a matter of disappointment that I am obliged to return to Germany so soon, but your climate is too severe for me, and my physician has ordered me to go home at once on account of lung trouble. I have been here long enough, however, to gain many valuable suggestions."

"I have visited the Pan-American exposition and Chicago, the latter place to make a hurried study of the stock yards. While in this city I have been the guest of Senator Dewey and Samuel Carpenter, of the Pennsylvania railroad. From them I have acquired considerable valuable material. I also gained much information at the American railway exhibition at Madison Square Garden."

"I am electrified by the progress you Americans have made in the methods of transportation. It is impossible for anyone in Europe to understand this without seeing it. The best expression I have heard here is 'up-to-date,' which tells the whole story. You have shown the most progress in adapting electricity as a means of transportation. The German Siemenses are the fathers of electrical improvements, and the Germans conceive many methods, but they cannot take hold of things the way the Americans do. Conservative methods keep the Germans from launching out extensively in any scheme. Europeans are theoretical and Americans are practical. The Europeans formulate and you put into practice."

Found Wife Dead and Slandered.

Toronto, Ont., Oct. 31.—John Armstrong, 55 years old, came home last evening and found his wife lying dead in bed. He went to the cellar and hanged himself.

Heart Disease

retards the circulation, weakens the stomach, deranges digestion, pollutes the blood, destroys the nervous force and saps the vitality of the whole system. It causes pains in the side, palpitation, shortness of breath, smothering, dropsical swellings, sinking spells, and frequently ends all suffering in sudden death. Why tempt death when a cure is within easy reach?

"My head would not so hot it seemed to be burning up, while my feet were like ice. My limbs would swell and get numb. I had to sit in a chair day and night for months and my heart throbbed and pained me terribly. After using three bottles of Dr. Miles' Heart Cure I could do a good day's work."

J. M. MACLAY,
Shippensburg, Pa.

Dr. Miles' Heart Cure

never fails to relieve, and few cases are too severe for it to cure. Sold by druggists on guarantee.

Dr. Miles Medical Co., Elkhart, Ind.

Still at 64 West 2nd South.

NO C. O. D.'s; NO APPROVALS; NO EXCHANGES.

Men's 25c and 35c Ties and Half Hose—18c.

This is a timely offering of half hose. They are just the right sort for the nipping weather soon to be here. Made of rather heavy cotton with a warm, cosy, softness that never feels unlike cashmere. The heels and toes are woven of mercerized cotton decidedly silk like in appearance and in bright colors—red, blue, pink, etc., a pretty contrast to the all black. A warning to those who may have delayed. Today and tomorrow, only orders will be taken; making, though can be done at your convenience. Reduced prices are:

The ties came with the half hose, at the same time and in the same way. Each one is made of a splendid quality silk in faultless patterns of the present season and every pretty color. Nearly all are four-in-hand styles, and the equal of any you pay 25c and 35c for, two days, won't last longer—18c.

Two Last Days of Women's Suits to Order.

This was news of utmost importance to women very particular as to fit and style, and desirous of the smartest master tailor alone can give to distinguish the made-to-measure dress from the ready-to-wear. They came promptly when announcement was first printed, and this serves merely as a warning to those who may have delayed. Today and tomorrow, only orders will be taken; making, though can be done at your convenience. Reduced prices are:

Dresses made to measure at—\$33.00 gives choice from goods up to—\$12.50 a yard. Jacket lined with taffeta silk, skirt with lustral.

Suits made to measure for—\$40.00 gives choice from fabrics up to—\$17.50 a yard. Jacket and skirt with lustral.

Suits made to measure for \$50.00 gives choice from fabrics selling up to—\$27.50 a yard. Jacket lined with Duchesse satin, skirt with taffeta silk.

Suits made to measure for \$60.00 gives choice from exclusive patterns selling up to \$30.00 each. Jacket lined with Duchesse satin, skirt with taffeta silk.

Rainy Day Skirts. Skirt patterns, black and colors, cut from every kind of fabric made for the purpose and sold regularly up to \$3.00 a yard—the length, enough for any skirt, two days—\$4.50.

The making for five gored skirts, with eight rows of stitching is reduced to \$5.00, for seven gored skirts with ten rows of stitching—\$7.50.

Shoes for Men, Women and Children.

Men's Congress Shoes, because in two styles only, some with very broad toes and others medium plain toes, reduced from \$3.00 a pair to—\$2.15.

Men's Enamel shoes, with heavy extension soles—right for wet weather, need no polishing and are positively water proof; two days instead of \$5.50—\$4.75.

A bargain table heaped up with women's shoes, all good kinds, button and lace styles, kid or cloth tops, and sold at regular for \$3.00 up to \$5.00 a pair, because they are not exact styles of the season and in short lines of many kinds, clearance price is—\$1.95.

Women's house slippers, with broad, plain toes, made for comfort, \$1.75 kind, two days—\$1.35.

Misses' velveteen kid shoes, serviceable and dainty, right for school or other occasions, sizes 11½ to 2, instead of \$1.75—\$1.45; and children's sizes, 8½ to 11, reduced from \$1.50 to—\$1.25.

McGhee Petticoats Reduced.

The McGhee petticoats give greatest satisfaction because of the adjustable yoke that can be made to fit any figure smoothly; impossible in those with draw-strings or lace. These for Friday and Saturday are made of excellent black mercerized cotton with deep ruffles, finished by a narrow ruffling, seams all strapped, hems perfectly turned. Sold at \$5.50, two days—\$3.75; the \$3.50 for—\$2.50.

Two Last Days of Hair Switches.

The demonstrator leaves for other western points early Sunday morning, so Friday and Saturday will be the last opportunity for a year at least to obtain these very superior Switches at almost half the price asked elsewhere. Men's 25c and 35c Ties and Half Hose—18c.

This is a timely offering of half hose. They are just the right sort for the nipping weather soon to be here. Made of rather heavy cotton with a warm, cosy, softness that never feels unlike cashmere. The heels and toes are woven of mercerized cotton decidedly silk like in appearance and in bright colors—red, blue, pink, etc., a pretty contrast to the all black. A warning to those who may have delayed. Today and tomorrow, only orders will be taken; making, though can be done at your convenience. Reduced prices are:

The ties came with the half hose, at the same time and in the same way. Each one is made of a splendid quality silk in faultless patterns of the present season and every pretty color. Nearly all are four-in-hand styles, and the equal of any you pay 25c and 35c for, two days, won't last longer—18c.

Two Last Days of Women's Suits to Order.

This was news of utmost importance to women very particular as to fit and style, and desirous of the smartest master tailor alone can give to distinguish the made-to-measure dress from the ready-to-wear. They came promptly when announcement was first printed, and this serves merely as a warning to those who may have delayed. Today and tomorrow, only orders will be taken; making, though can be done at your convenience. Reduced prices are:
