Filipino Leaders Have Conference with Aguinaldo.

THEY ADVISE MAKING PEACE

Lopez Says There are Other Capable Generals Dewey Says the War night Bave Been Avoided.

Manila, March 29 .- Aguinaldo today enferred in the Tagalog language at the Malacanan palace, with several former members of his cabinet and other prominent Filipinos, whom he had usked to see. They explained to him the hopelessness of the insurgent cause and advised him to use his influence to establish peace and for the recognition of American sovereignty. The result of the conferences is as yet unknown. The first execution in Manila under American rule took place today at Fort Malate, where five natives were hanged for the murder of Archibald Wilson, an Englishman, superintendent of the waterwarks. The motive for the murder

was robbery. Twelve thousand Filipinos have taken the oath of allegiance to the United States at San Vincente, South Ilocos province.

It would be best, as a inster of policy, I should say, for the natter of policy, I should say, for the Inited States government not to deal ercredy with him, Otherwise, it will make the Filipinos even more deter-ained if that were possible. Natural-I think the United States government ought to treat with him and ob ain an authoritative statement of the estres of the Filipinos. But it is not at probable that the government will

AGUINALDO'S STATUS UNDE-FINED.

Washington, March 28 .- The war deartment has not had time as yet to ensider the exact status of Aguinaldo, ther he is to be tried, and what **Proud of Her Hair** Street, New York City. She is justly proud of her magnificent head of hair, which is shown to advantage in the accompanying photograph.

My scalp became dry and my hair grew thin so rapidly that I had to change the style of wearing it. I then tried various hair tonics, the effect of which was to other aw dath accordingly tonder, and the make my scalp exceedingly tender, and the hair stiff and brittle when dry. I resolved

The comfort I experienced before I had given it a long trial was so great that I determined to continue it. I would shampoo my head with a strong lather of CUTICURA SOAP, letting it remain for some time. I would then wash it off with warm water, and dry thoroughly. After a short time my hair ceased coming out, growing soft and silky to the touch."

Assisted by CUTTCURA OINTMENT, the great skin cure, for preserving, purifying, and beautifying the skin, for cleanaing the scalp of crusts, scales, and dandruff, and the stopping of failing hair, for softening, whitening, and healing red, rough, and sore hands, for baby rashes, itchings, and chafings, and for all the purposes of the toilet, bath, and nursery. Millions of Women use CUTTCURA Soar assisted by Cutterar Olimenti, in the form of baths for anoying irritations, inflammations, and excertations, for too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many antiseptic purposes which readily suggest themselves to women and mothers. No amount of persuasion can induce these who have once used these great skin purifiers and beautifiers, to use any others. No other medicated scap is to be compared with CUTTCURA SOAP for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. DEPENDS ON HIS COURSE.

"Much will depend upon the future course taken by Aguinaldo in deter-mining what his punishment shall be. If, as indicated by Gen. MacArthur, he issues an address to the Filipinos advising a general surrender and the advising a general surrender and the acceptance of American supremacy in the Philippines, he may be of considerable service to the government in bringing about normal conditions.

MAY BE BANISHED.

The administration will be disposed to take advantage of any practical service the chieftain may give, provid-ing his acts show him to be sincere. Or, it is suggested, it may be determined to send him away from Manila, probably to the Island of Guam. The suggestion that Aguinaldo be banished seems popular with some government officials, and in this con-nection they instance the act of Great Eritain in sending Gen. Cronje, the Boer leader to the island of St. Helena. PETTIGREW ON AGUINALDO'S CAPTURE.

New York, March 29.-Ex-Senator R. F. Pettigrew of South Dakota said in an interview respecting Aguinaldo's capture "I don't know that the capture of

Aguinaldo will terminate the war in the Philippines. I am not sufficiently ac-quainted with the Malay race to speak of their tenacity. COUNTESS RUSSELL DIVORCED.

Earl at One Time Lived in Reno, Nev., where He Married.

London, March 28 .- The Countess Russell was granted a divorce today upon the ground of the alleged bigamy and adultery of the Barl of Russell and Mrs. Somerville. The suit was not de-fended.

John Francis Stanley, Earl Russell, was married to Mollie Somerville, daughter of the late George Cooke, of Combernald, Scothaud, on April 11, 1900, in Neno, Nev. They had been living for several months previous in Nevada where both had obtained decrees of di-vorce. Earl Russell obtained a divorce from Countees Russell of the ground of from Countess Russell on the ground of desertion. He alleged that she had left him nearly ten years ago. She was Miss Mabel Edith Scott, youngest daughter of the late Sir Claud Edward Scott. The domestic troubles of the earl and wife first came to public notice in t, when Countess Russell brought 1891. suit for a divorce, based on cruelty and other charges. Countess Russell's suit failed, and the judge took the unusual course of regulring her to pay its cost, course of requiring her to pay its cost, amounting to more than \$25,000. As a result of that suit the earl obtained a ludicial separation. Countess Russell in April, 1895, successfully sued for a restoration of her conjugal rights, withlrawing the charges which she had made in her suit for divorce.

KAISER'S SPEECH.

May be Necessary to Call on Troops to Baynot the Populace.

New York, March 29 .- A dispatch to the Herald from Berlin says: In Berlin the extraordinary speech of Emperor William upon the occasion of the opening of the new barracks at Kup-fergraben is attributed to the feelings of the kaiser in regard to the Bremen of the kaiser in regard to the Bremen outrage. One account says that the emperor referred to the proximity of the new barracks to the royal castle and the fact that the regiment would serve as a royal body guard. The big bar-racks building would, he said, form a sort of tower in the middle of the town of Berlin and would also serve to de-fend the city in case of need. "But," added his majesty, "if ever the city of Berlin should again rise against

The question is soon likely to be tak-en up whether the control of business

American occupation continues. There are several very important sub. jects in relation to the Philippines which have been held in abeyance pending the restoration of orderly gov. ernment, Some of them almost require

specific legislation in Congress in order be settled in a permanent and sat isfactory manner, but it is the intention of the administration to take the best action possible under the blanket auconferred by the Spooner thority mendment to the army appropriation bill. One of these matters is the reform of the coinage which is causing no end of disturbance at Manila. The supply of silver in the country began to dis appear when large amounts of money were required for the operations of the united forces of the powers in China. The result was to raise the Mexican silver dollars forming the bulk of the currency, to a higher value than that assigned them in American gold and to cause their free exportation, against the protests of the army officers and

some of the members of the Taft commission. The grant of franchises for the de velopment of the resources of the islands and the construction of rallways

are also important subjects which will soon be taken up. Action on these mat ters has been greatly fettered by the amendment which Senator Hoar offered to the army bill nullifying such franchises after a year, but the authority given to grant them where the interests of the islands will suffer if they are not granted, may justify action by the administration and by the new civil government to put the Philippines upon the basis of other civilized countries.

The administration will endeavor to collect data before the opening of another session of Congress which explain all the legislation required, Ex. pert advice is likely to be sought, which will enable Congress to act promptly and efficiently when such matters are

It was a eautiful summer morning, and when the sultan had not put in an appear-ance upon the arrival of the last launch a cutter was sent with the sec-retary of the commission to invite the sultan to visit the ship. They brought back his marcety, clothed in gold and purple, and decorated with jewels. H presented a comic opera aspect as he came on board, followed by his ministers and a score of relatives in motlet court array. They were greeted with a salute of seventeen guns. Commission Taf, explained to his majesty that there was no disposition on the part of the members of the commission to interfere with the administration of the suitan's affairs or the habits, customs and religion of the people. He said that the only motive governing the commisalon was the prospective prosperity and happiness of the people of the Sulu isl-ands, and that the peole of the United States expected the treaty to be strictly observed. His theme was "irrigation." He spoke first of the legal side of the problem, affirming that Utah was ten years behind Wyoming in fts laws regarding irrigation. In Wyoming all water belongs to the State and never passes from under the jurisdiction of the State. The land owners can use the water for all time as long as they do not abuse their privilege. All disputes over it are settled by the State. In extent and value of irrigated lands, Utah stands second only to California among the western States. If her water were properly proportioned and util-ized it could irrigate an area twice as large as the present irrigated area. The future of Utah, said the speaker, de-

STICK RIGHT TO IT

And Coffee Will "Do You" Good and Brown, if You are Highly Organized,

It is remarkable how persistently men or women will stick to a drug through thick and thin, even after they become convinced that the drug is slow.

This is illustrated thousands of times every day. A sample case is that of F. L. Wolford, of Columbus, O., who says that all his life, since a boy when he began drinking coffee, he has been any thing but robust, or even in what might be termed good health. He has tried all sorts of drugs and tonics, and consulted many doctors. He quit tobacco, avoided all intoxicating drinks, stopped eating pastry, and took life easy as far as work was concerned, but the same old trouble continued and he could not get well.

He stuck to the coffee because he said, "I could not do without it. The climax came just about a year ago. I

chinal came just about a year ago. I went all to pieces with nervous pros-tration, neurasthenia and insomnia. The physician absolutely demanded that I cease drinking coffee, and put me on Postum Food Coffee. I very much disliked to think that I

fot on with it very well. After a few days I began to notice that I craved Postum as much as I had

as the 'real thing' and the ordinary coffee as the 'substitute.' I would not give one cup of Postum for all the coffee that grows in Central America, not only as a drink, but for what it has done for my health. I have built up again until I am in better health than I ever was, and owe the entire praise to Postum. It is simply a case of leaving off a poison and using a healthful food drink, ca powerful elements of nutrition. containing
