

Report of Committee to Board of **Directors Outlines Com**plete Plan.

SEND COMMITTEE EAST.

Members of Society Will Thoroughly Investigate the Workings of the System in Iowa Capital,

The lines along which Salt Lake's civic government will be changed provided the legislature passes the Civic league's bill for a new plan of government, were last night decided upon at a meeting of the league directors. The meeting was held in the Y. M. C. A. building, a report from the committee on municipal laws was read, and this report was endorsed by all of the directors present. In its present form it will be pushed through the legisla-

ture, and made the subject of an active

publicity campaign while it is before

that body. The Civic league once before submitted a plan for commission government, which was agreed upon by the Salt Lake members of the legislature, but was defeated finally in the house, after passing the senate. This second rally to the caus of commission government fixes itself upon the Des Moines plan rather than the Galveston plan, which was at first advocated. This latter plan, it is declared, represents the latest word in the effort to get a better understanding of the needs of civic administration.

"To make good citizenship effective" is the slogan for the coming campaign, and associated with it will be a cry against boss and ring control of polltics.

#### THE PLAN IN BRIEF.

The plan endorsed last night calls for a commission of three members to do the executive work of the city, and to appoint men technically trained to do the city's work in its general depart-ments. As a check on them, an auditor is to be elected in addition, and all other officers are to be appointed.

Besides receiving the report of the committee on legislation, 'the Civic league board last night voted to authorize President W. Mont. Ferry to send a committee to Des Moines and to Galveston to inquire into the workings of the commission plans in those cities, it being understood that he will accompany this committee.

The directors present last night were W. Mont. Ferry, president; O. H. Hewlett, vice president; Robert B. Porrewlett, vice president, robert B. John ter, secretary; F. B. Stephens, Carl A. Badger, Henry W. Lawrence, W. G. Farrell, William B. Wallace, John D. Spencer, Oscar L. Cox, M. H. Walker, Mrs. Georgia Foote, D. H. Livingston and Rev. Elmer I. Goshen.

### REPORT SUBMITTED.

The report of the committee on legisation, which was presented by Henry W. Lawrence, was as follows: "To the Board of Directors of the Salt

Lake City Civic Improvement League: "Your committee on legislation re-

spectfully reports that it has given con-sideration to the matter of the form of, legislation which it would recom-mend for the purpose of adopting a commissioner system of government, and begs to report as follows: "Number of Commissioners—Your

### THE RIGHT OF RECALL.

"Right of Recall—The Des Moines system provides for the right of recall of any elected city officer by the people, and your committee recommends its adoption. If 25 per cent of the legal voters at the preceding city election shall petition that an election be held to determine whether or not an of-ficer or officers shall be recalled and re-quired to resign their offices, then an election shall be held to determine whether or not such officer or officers whether or not such officer or officers shall be recalled, and if the majority vote in favor of so doing, the effect would be to remove such officer or of-

ficers from office. "Publicity of Proceedings—The Des Moines system requires that every ordinance or resolution apprpriating money or ordering any street improvemoney or ordering any street improve-ment or sewers, or making or authoriz-ing the making of any contract, granting any franchise or right \*o oc-cupy or use the streets, highways, bridges or public places in the clty, shall be complete in the form in which it is finally pre-red for public inspec-tion for at least one week before the final passage or adoption thereof. It also provides for complete publicity of city affairs, requiring monthly state-ments of all receipts and expenditures and that the same be given to the Sixteenth Seventeenth Fighteenth Nineteenth The High Priests' Quorum of the and that the same be given to the newspapers. It further provides for the annual examination of the books Salt Lake Stake will meet in the Seventeenth Ward Hall, at 10 a. m. Sunday, Nov. 29, 1908. of the city. Des Moines, five; in the city of Wash-ington, three; and under the county commissioner sytem for county government, the usual number is three. In Des Moines the plan has been adopted of having each commissioner act as the of having each commissioner act as the head of a city department. Your committee will watch the development of this plan with a great deal of in-terest, but the unanimous judgment of this committee is that there are very many objections to it. We believe that it would tend to build up factions in the board of commissioners; that they would not give sufficient consideration to the business of the city as a whole; and that there would be a tendency to and that there would be a tendency to log-rolling and agreeing to keep their log-rolling and agreeing to keep their hands off each other's departments. Your committee is of the opinion that the city should have the advantage of the united judgment of the board upon all important questions; that the board should act as a unit rather thrm as segregated into five committees of one reach. We are of the opinion also each. We are of the option also that it would be necessary to pay as high a salary to each member of a board of five as it would to each mem-ber of a board of three in order to ob-tain the right kind of men, and the recommendation of your committee is that the number of commissioners be limited to three: that they be not required to act as heads of departments, but that the board of three be expect-ed to give their united consideration to the administration of all departments,
