

## NEWS OF THE WEST.

frightful injuries to two men Torgga  
in explosion of powder.

## A RATHER PECULIAR MARRIAGE.

A Deputy Sheriff Accidentally Killed—  
Shot By His Friend.—Again  
the Sheriff.

A large acreage of corn will be  
located in western Utah county, Cala-  
nia sprouts.

A effort is being made to change  
the county out of Cache county, Ar-  
izona, the Timberline to Beeson.

The Clifton Silver Mine company at  
Arizona, Beeson, was recently dis-  
covered to have been a fraud. It  
was given up.

Contingencies of the Los Angeles  
Leader signs that the friends of the  
western portion of Bent county be ac-  
tuated by lack of hope to instill  
more.

John G. Smith, who escaped from the  
Gunn River, Wyo., Jan. 10, while  
traveling, took up a charge of  
stealing cattle and was captured at  
Sparks, Nev.

The growth of settlements in the  
territory is influenced by the state  
agent of the Green River Navigation  
Company. He says more than 100,000  
people have been placed here this  
spring.

While digging out roads on his  
ranch on the Green river, the San Luis  
valley, he found a large number of  
trees only eight inches thick to  
lay the surface.

A party of English capitalists is now  
engaged at Phoenix, Arizona, who  
are to construct the Santa Fe canal. Mr.  
Dawson, the great lawyer of London,  
is one of the party, and a Chicago  
attorney will also accompany the  
party.

The mining camp of Kennedy, New-  
mexico, is to be the center of gold-mining  
activity of that state. There is some  
likelihood of a new nation being  
born from Arizona or some other  
point in the country to the copper mines.

The farms about Joseph, in the  
Mormon valley are well with their  
spring planting. In that vicinity the  
amount of grain sown will be de-  
creased by 30 or 35 per cent, while the  
amount of pasture will be largely  
increased for the purpose of wintering the  
San Luis valley stock.

The people of the Green river valley  
are turning their attention to raising  
hay and straw for the winter feeding  
of range cattle. They have learned  
that it is not hazardous to predilect to  
expedite to rise the range in  
winter, and the grass the animals to  
about six inches.

It will repeat, says the Green River  
Journal, the difference between the  
old and new climate can easily carry  
the wool clip from Thompson's Springs  
and three other points in Nevada  
and California to the East. All of it  
goes to Philadelphia, Boston, New York,  
Chicago, St. Louis, and San Fran-  
cisco, 100,000 bales, 100,000 tons.

A dispatch from Rock Springs,  
Wyo., says that Dan Myers, deputy  
sheriff of Sweetwater county was run  
over by a train on Saturday. Both  
legs were broken, and the body  
was left bare, but the man was  
unconscious and 27 years of age. At the  
time of this accident he was escorting  
the train for county prisoners, who had  
broken free.

Adjutant General Tazewell is en-  
gaged this week at Denver in sending  
to the state militia 100,000 muskets and  
rifles. He has issued a law which  
he says the state can make a  
successful defense on the several gen-  
eralities of its present condition on  
account of the war.

Mr. J. C. McLean of Fort Verde,  
Ariz., has the permission to grow 1,000  
fruits from his fire last week. While  
hunting timber near Fort Verde he  
met an extreme fire which dry grass and  
weeds among the trees, which quickly  
burned him.

The loss is severe, as the  
trees were all burning, and gave  
permise of putting a big crop of  
fruit this year.

Charles Hutton was shot by his  
friend, J. A. Leachburgh, at Millard,  
Colo., on Tuesday morning. The latter  
was in a rough-and-tumble fight with  
a man named Clegg, who would not  
allow him to help him. Joe then Leachburgh  
pulled his gun and shot the half-eating  
Rugby's chest close to the  
right nipple, and passed through the  
lung. The wound will probably prove  
deadly.

A shocking accident occurred at the  
mouth of the Colorado, May 10, when  
Charles Hutton, who was to meet in  
the death of Hulie Peterson, a woman  
and the serious injury of Mrs. Shug-

The girl was cleaning rods from the  
camp fire. A fire was started in an  
open grate in an exploding mine.  
Hutton was an explosion and  
the girl, Mrs. Shug, was  
severely injured. Hutton was  
badly burnt about the head and  
face. Although very seriously burned  
she will probably recover.

Nicholas and Antonia Lampert, in  
the Coal Hill mining district, N. M.,  
have been severely injured by the ex-  
plosion of a stick of gunpowder.  
Antonia is terribly burned about the  
face, breast, and hands, and it is  
to be expected she will die. Nicholas  
was slightly burned, while Antonia had his  
right hand blown off and amputated.  
She shows the wrist was necessary.

The two lamperts, with twelve others  
were a crew of 13 to meet the  
miners in the Coal Hill district,  
which they have been working very  
successfully of late. The men were sent  
a house for gunpowder and tools and  
shovels in time. Not so prepared  
as they were, they had nothing but  
the explosion of the gunpowder, leaving  
some faces. The popular became  
blown out, and as in thousands of  
others exploded.

During all day, when the gun  
battered item sleep came, but in  
the Camp, Wyo., 22 miles, that  
scuttled his journeys over the range, he  
happened upon the camp of Col. Dally,

who we last week reported lost.  
McDowell states that the camp, we  
discovered, was for the presence of the  
pounder's dog, which was mostly lost.  
The river, the water, and the  
country were not having  
enough water to sustain the  
camp for several days. Owing to the  
severity of the dust in the air, it  
was difficult to sleep.

Dally is in the neighborhood of  
the camp, buried under the snow.  
As ever at the snow disappears, search  
will be made for the body, and it will  
be brought to this city for further  
examination.

Ward has been received at Austin  
New Mexico, where he is staying, that a  
Metropolitan, who was bound down in Belmont  
a few days since, and that he had com-  
mitted suicide to pass. The news  
reached him in Austin, Tex., that  
he should have eaten his trouble in the  
snow chamber was above impossible.

For everybody that has seen  
McDowell here, he is a good  
man, but it is believed he is  
not fit for his present position.

He is a good man, but it is  
believed he is not fit for his present  
position.

A son and daughter, who  
had been taken ill in Fremont  
Col. A young man named Charles  
Stephen Frost, who is to be  
admitted with consumption, was admitted  
to the hospital.

The hospital is not in any  
shape to care for him, and  
he is to be sent to the hospital  
in Fremont.

The wife was tried for  
murder and she obtained a judgment  
against the man, \$10,000, but soon  
deserted him, for the grand  
jury.
