America's Supply. Joplin, Mo., Oct. 1.-The Missourf-Kansus zinc district, of which Joplin is the center produces more than three-fourths of the supply of that mineral in America. The demand for zinc ore has increased steadily since zinc min-ing was first started in this district in the sarry eightics. For many years miners of load ore in Joplin threw sinc ore away, not knowing what it was. Since 1888 this district has pro-duced and sold \$155,000,000 worth of ainc ore.

the ore is found at depths ranging to first to 300 freet, and at this rhore than 600 lead and zine mines being operated within a radius of niles from this city. The produc-of lead and zine ore in this dis-ithis year will exceede that of any cloue year, and will have a value lowe to \$20,000,000.

In appearance at a zero, and is almost as brittle. In appearance at a simulation of the series weighing bundreds of pounds. In an exhibit that is being prepared for the American Mining congress, which meets here in November, will be a piece of ainc org weighing two tons.

OSCEOLA WILL CURTAIL.

(Potlock's Special Wire.) (Pollock's Special Wife.) Calumet, Mich., Sept. 30.—It is re-ported here that the Oaceloa will cur-tait production on October first. When asked by a representative of the Bos-ton Financial News as to the truth of the report, General Manager Hair re-fused either to deny or affirm it. It is generally believed that the company will reduce its force with as little pub-licity as possible because of the Cul-met and Hecka littigation.

COMPANY FOR BEAVER.

The Buckeye Consolidated Mining company of this city has filed articles of incorporation with the county cierk. The new company takes over the fol-lowing mining properties: The Buck-eye mining cialm, the Buckeye No. 1 mining cialm and the Lark Spur min-ing cialm.
