OGDEN, UTAH, - JAN. 4, 1902.

WOMEN'S CLUBS MEETING.

Judge Rolapp Decides Against Plaintiffs in Diamondville Damage Suit.

Defendant Demurs to Paying Damages to Non-Resident Aliens—Other Court Cases.

A meeting of all the women's clubs of Ogden was held yesterday afternoon at the residence of Mrs. William Driver, under the auspices of the Child's Culture Club. There was a very large attendance of the members of the various city clubs. The Agila, La Coterie, Historical, Home Culture and Child's Culture clubs were all represented. Mrs. Elmer B. Jones of Salt Lake, president of the Reviewers' Club, was in attendance by invitation, and read a most interesting paper entitled, "The Consumers' League."

These present declare that the meeting was one of the most interesting ever held by the clubs, and will prove a great incentive to earnest club work during the year that has just dawned upon us.

Mrs. Driver is a hostess of no little ability and did herself great honor yesterday in the entertaining of her guests.

DISTRICT COURT.

In the case of Hemming Lahti and Joel Lahti against the Diamondville Coal and Coke company, the plaintiffs asked permission to amend their complaint. The request was granted and the amended complaint was filed, to which the defendant entered a demurrer, alleging that the complaint did not state facts enough, and that the plaintiffs were not entitled to prosecute the action, it being expressly for the benefit of non-resident aliens. The court sustained the demurrer, and no doubt the plaintiffs will make an appeal to the supreme court of the state.

There are several more of these cases to be brought before the court, as a sequel to the Diamondville disaster in February of last year, and no doubt they will all be decided the same as the two suits already heard, against the plaintiffs.

The hearing on the final account and distribution of the estate of R. J. Hill, deceased, was set for Monday, January 6, 1902.

In the case of Betz vs the People's Building and Loan association, hearing on the motion of the plaintiff to set aside certain disposition of property was set for Monday, January 6.

In the case of Burt vs the Utah Light and Power company, the plaintiff was granted until January 15 to file briefs in motion for a new trial.

In the matter of the estate of Lars H. Nelson, deceased, the court signed the order granting sale of real estate.

BRIEFS AND PERSONALS.

The city and county schools will open again Monday for the holiday vacation.

Mrs. A. R. C. Smith of North Ogden is visiting with relatives in Brigham City.

Mrs. Emma Lindsay is spending a few days in Brigham City with her brother.

Mrs. D. W. Ellis, wife of county recorder Ellis, has returned home from an extended eastern trip.

Miss Ida Haskins of Hatley, Idaho, is visiting with friends in Ogden.

Miss Sadie Fowler, who has been spending the holidays with her parents in Ogden, has returned to Montpelier, Idaho, to resume her position in the public school there.

The many friends of Cyrus Corey will be pleased to learn that his condition is somewhat improved.

Counselman R. B. Whittemore of Salt

Lake was in Ogden yesterday on business.

A masquerade ball will be given in the Union Opera House Wednesday evening next.

A benefit ball will be given in the Fifth ward amusement hall Thursday evening, January 16, in honor of Bernice Delkner, who departs January 21 on a mission to Holland.

Died—Myrtle Dalton, the 6-year-old daughter of Mr. and Mrs. James N. Dalton, of Wallard City, died last night at the family residence, of heart failure. The funeral will take place today at Wallard City.

THE BOOK SALE.

Mr. S. A. Thomas, representing the National Publishers' Association, who has been conducting a book sale in Salt Lake, for the past four weeks, has closed his sale in Salt Lake and gone to the neighboring city of Ogden, where he will open an equally magnificent line of books from eighty-three of the larger publishing houses of America. Truly Salt Lake has been favored as never before in being able to purchase standard books at such ridiculously low prices, and we congratulate our neighboring city in securing this most wonderful opportunity to replenish their libraries or lay the foundation for new ones at prices heretofore unheard of in the western country. Mr. Thomas informs the "News" that he will open in Ogden on Thursday, Jan. 9th, in the room formerly occupied by the Western Moline Plow Co.

PROVO.

MEETING OF BEET GROWERS.

"Farmers' Protective Association" Formed—Litigation Over Water.

Provo, Utah, Jan. 4.—There was a large attendance at the farmer's meeting held last evening, in the court house, for the purpose of adopting the constitution and by-laws drafted by the committee appointed for that purpose. The name adopted by the association is the Farmers' Protective Association, and its object is stated to be the advancement of the interests of all farm products.

In addition to the officers elected at the last meeting the following members of a board of directors (President Knudsen and Vice-president Scott) were elected. The board is composed of: Win. H. Brereton, Alma Brown, C. H. Turner, E. V. Vincent, and L. E. Bunnell.

Resolutions were adopted which will be presented to the Utah Sugar company, asking for an increase in price of beets of 25 cents per ton, making the price \$5 per ton, and that beet growers be permitted to buy pulp at 25 cents per ton, also that the company will receive all beets ordered as soon after October 15th, as the farmers can deliver them.

Messrs. James Spratley and W. A. Moffat, of American Fork, and Frederick Thorne of Pleasant Grove, advised the meeting regarding the necessity for the changes suggested in the resolutions, and urging that the movement be made general through the county. This idea was accepted and acted on and representatives from the best growers of Lehi, American Fork, Pleasant Grove, Springville and Spanish Fork, (Mapleton and Springville to meet together and Lake Shore, Benning and other southern Utah growers with Spanish Fork) on Monday the 6th, for the purpose of laying before the beet growers of those districts the action of the meeting last evening and inviting co-operation.

The best growers, these representatives will report at a meeting of the association to be held at the court house Tuesday evening, when arrangements will be made for a committee to present the requests of the beet growers to the sugar company. The request for a raise in price is based on the increased value of other farm products and the increased cost of labor, the improved condition of the best lands and consequent superior quality of the beets raised.

The request that the farmers may deliver as fast as possible after October 15th—the time was November 1st, last year—is for the purpose of enabling the farmers to get the beets out of the ground before early frosts, which in some years injure the crops.

FOURTH DISTRICT COURT.

The following business was transacted before Judge Booth in the Fourth district court yesterday:

Francis Taylor entered a plea of guilty to an amended information charging fornication, and was sentenced to pay a fine of \$75 or to be committed to the county jail for 75 days.

Estate of Don C. Snow, deceased; petition for allowance for minors partially heard and further hearing continued till Jan. 11.

Barnes & McElroy vs Western Moline Plow company; appeal by defendants from Justice Anderson's court was heard and taken under advisement.

Niels L. Monson, of Pleasant Grove, a native of Sweden, was admitted to citizenship.

The case of Reed Smoot vs James

Abenethy was heard by Judge Morse in the Fourth district court yesterday, and decree quieting title to real estate in plaintiff granted.

Provo City et al vs West Union Canal company et al, also came up before Judge Morse. This case is brought for the purpose of securing a decree establishing the rights of Utah county people (the various canal companies and other water users) to the waters of Provo river, in conformity with the findings of a commission of arbitration, consisting of Roger Farrer, P. M. Wentz and Charles De Moisy, who, in 1898, heard evidence and made an apportionment of the water between the interested parties. The apportionments were not satisfactory to all the parties, but some modifications have been made and a satisfactory basis for a decree was arrived at when M. C. Newell appeared yesterday and obtained permission to file a bill in intervention. He claimed an interest of about one hundred and sixtieth of the river, which he claimed had been transferred from the Lake Bottom canal to be taken out from the river to be used on Provo Bench. This claim was contested for the reason that the water in the Lake Bottom canal is, according to the other parties in interest, all sewage water, and is not taken from the river direct.

The case will probably be concluded today.

SHOPLIFTER FINED.

Mrs. Matilda S. Houtz and her daughter Mary, came over from Springville yesterday, and went into Irvine & Son's store to do some shopping. After they had left a lace collar was missed and suspicion was directed against Mrs. and Miss Houtz. They were arrested and taken to the marshal's office. There, while the officers and the prisoners were talking about the case, May Houtz was seen to take something from her clothing and throw it into the waste basket. The article was found to be the missing collar. After this the case was closed. The girls were fined \$5, or in default of paying the fine to be imprisoned in the county jail for five days. Miss Houtz chose the latter method of satisfying the demands of the law.

SALEM FOND COMPANY.

Articles of incorporation of the Salem Fond company has been filed with the county clerk. The incorporators are the owners of the water rights connected with the use of the waters of Salem Upper Pond, Salem, Utah, and the object of the corporation is to control and distribute the waters to the stockholders. The capital stock is divided into 437 shares of the par value of \$20 each. The following are the officers and directors: S. T. Curtis, president; Herman Snow, D. R. Taylor, N. C. Christensen, directors; Andreas Engburg, secretary and treasurer; Soren P. Christensen, superintendent.

ALPINE CATTLE COMPANY.

The Alpine Cattle Range company has filed articles of incorporation with the county clerk. The object of the corporation is to combine the interests of the stockholders in maintaining a pasture for cattle and horses and no stockholder or other person shall be permitted to graze sheep or goats in the lands of the company. The principal place of business is Alpine City, Utah. The capital stock of the company is 2,000 shares of the par value of \$10 each, and is based on lands owned in sections 11, 12, 13, 14, 15, 23 and 24, in township 4 south, range 1 east, Salt Lake meridian. The directors are: Ephraim Healey, Robert W. Jones and J. J. Beck.

GARDEN CITY NOTES.

The ice harvest on Utah lake has commenced.

Col. Shaughnessy and Attorney Rivers were in Provo yesterday on business connected with mining property in American Fork canyon.

J. S. Kelly of Tucker was tried yesterday before the justice of his precinct on the charge of selling liquor without a license. The jury disagreed, three were for acquittal and one for conviction. The case was then dismissed.

Birthday parties were held Thursday evening at the home of Bishop Eggertsen of the Second ward in honor of his mother, widow of the late S. P. Eggertsen, and Friday evening at the home of Samuel H. Jensen in honor of Mrs. Ann Jones. Each party was well attended by relatives and friends of the venerable ladies.

WOODRUFF.

DELIGHTFUL WARD REUNION.

Oil Excitement—Irrigation Reservoir—Flourishing School.

Special Correspondence.

Woodruff, Rich Co., Jan. 2.—A reunion of the people of this ward was held on New Year's day. At 10 o'clock in the forenoon, services were held in the new building house at which many of the brethren and sisters expressed joy and gratitude to the

CATARRH

Catarrh has become such a common disease that a person entirely free from this disgusting complaint is seldom met with. It is customary to speak of Catarrh as nothing more serious than a bad cold, a simple inflammation of the nose and throat. It is, in fact, a complicated and very dangerous disease; if not at first, it very soon becomes so.

The blood is quickly contaminated by the foul secretions, and the poison through the general circulation is carried to all parts of the system.

Salves, washes and sprays are unsatisfactory and disappointing, because they do not reach the seat of the trouble. S. S. S. does. It cleanses the blood of the poison and eliminates from the system all catarrhal secretions, and thus cures thoroughly and permanently the worst cases.

Mr. F. A. Williams, a leading dry-goods merchant of Spartanburg, S. C., writes: "For years I had a severe case of nasal Catarrh, with all the disagreeable effects which belong to that disease, and which I could not get rid of by any of the usual remedies suggested by numbers of friends, but without getting any better. I then began to take S. S. S. It had the desired effect, I cured myself, and I am now a healthy man. In my opinion S. S. S. is the only medicine now in use that will effect a permanent cure of Catarrh."

Mr. F. A. Williams.

It is the only purely vegetable blood purifier known, and the greatest of all blood medicines and tonics.

If you have Catarrh don't wait until it becomes deep-seated and chronic, but begin at once the use of S. S. S., and send for our book on Blood and Skin Diseases and write our physicians about your case.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

er of all good for the many blessings received from His bountiful hand during the past year. These short speeches were interspersed with songs, recitations, etc. At two o'clock in the afternoon the people reassembled in the amusement hall, and the program continued, as in the forenoon, for a short time. At the conclusion of the afternoon exercises a session of the "Kansaroori court" was held with Judge W. K. Walton on the bench. The day's exercises concluded with a grand ball in the evening. During the afternoon and evening the hall was filled to its utmost capacity, forcibly reminding us that we must build a larger hall to accommodate the increasing population.

One of the main features of the day's exercises was the famous Walton Bros. band and orchestra, consisting of Prof. Wesley K. Walton and his seven sons. This family of talented young musicians is becoming far famed for the efficiency to which they have attained in the division.

OIL EXCITEMENT.

OIL OIL OIL is the principal topic of conversation hereabouts. Our immediate vicinity promises to develop into very rich oil fields. The Utah & Wyoming Development company has purchased the Lee ranch just east of town and is preparing to put in a large body of land. It is expected that an oil engineer will be on the ground in a few days and will lay out a township upon which will be built, in the near future, a thriving town. Experts have inspected this section of country and pronounced it to possess indications for oil, equal to any in the United States. Vacant lands between Evanson up, and the Lee ranch, and still further north, have recently been taken as oil lands.

IRRIGATING RESERVOIR.

The people of our city have been quite busily engaged the past two weeks in building a large reservoir situated nine miles west, on Woodruff creek. This site was inspected in September by State Engineer A. T. Doremus. A survey and plans and specifications were subsequently made by Chief Engineer F. C. Keyser of Salt Lake. It is expected that work on this dam will be pushed during the winter, in order that water may be stored for irrigation during the low water season, next summer. The building of this reservoir will solve the water question here; and hundreds of acres of good sage brush lands heretofore untouched will be brought under cultivation, and made to yield bounteous crops.

FLOURISHING SCHOOL.

The district school is in a flourishing condition. This institution during the past two years under the management of Prof. C. F. Hickman, of Payson, Utah, has turned out 22 graduates, most of whom are now attending the Church schools at Provo, Salt Lake

City and Logan, Utah. Prof. Brigham Perkins, formerly a professor in the Latter-day Saints' college, Salt Lake City, is the present principal of the institution, with Miss Miller and Miss Mason as assistants. With these teachers, even greater success is expected than has heretofore been attained. It has been the aim of the trustees to employ only the best teachers to be obtained, and the citizens have been willing to be taxed a little heavier in order to maintain the present standard of the institution. The trustees are Wesley K. Walton, Wm. Longhurst and Sarah Cornia.

OPENING FOR CREAMERY.

There is a splendid opening for a good creamery here, there being plenty of cows and plenty of good grass, and the markets for the creamery products are simply unlimited. Our town is within a day's drive of Diamondville, Kemmerer, Cumberland, and Spring Valley, all large coal mining camps. Good creamery butter in these camps would find ready sale the year round at 25c to 30c per pound. Evanson, Wyo., 22 miles south of here, which has always been such a good market for the products of this valley, has greatly improved. That city alone would consume almost the entire product of one creamery.

The weather is exceptionally fine here for this time of the year; the snow has nearly all gone.

The health of the people is good, being no sickness of any kind at the present writing. By the way, our climate is one of the most healthful in the state.

TROPIC.

A HAPPY RETROSPECT.

Year of Prosperity—Good Place for Industrious Home-seekers.

Special Correspondence.

Tropic, Garfield County, Dec. 31.—The citizens of Tropic in taking a retrospective view of the first year of the new century, can well find room for congratulation upon the showing they have been able to make. Advancement and material progress in the building up of this favored locality, is in evidence on every hand. United efforts, untiring industry and thrift combined, are turning the arid wastes into places of fruitfulness and beauty. Our homes and public buildings are up to date, nesting and productive orchards, which this season were lavish in their supply of luscious fruits. Our streets are beautifully shaded; tree planting has been carried out with no untended hand; our water system is being augmented by the building of a large reservoir, under state supervision, which will secure ample water for all purposes, and will bring under cultivation a large tract of rich and fertile land. Building materials, wood, coal and minerals of all kinds are in close proximity and abundance. We need more help to develop the resources which await the hand of industry to utilize.

The past year has been a record maker in the production of Utah's best crop, and we are glad to state that the "grim reaper" has left us unvisited for over fifteen months, at the same time, our people have been busy uniting hearts and hands.

The splendid effort of the "News" in placing before us at so small a cost, its artistic and instructive "Christmas number" is duly appreciated.

Food Changed to Poison.

Putting food in the intestines produces effects like those of arsenic, but Dr. King's New Life Pills expel the poisons from clogged bowels, gently, easily but surely, curing Constipation, Biliousness, Sick Headache, Fevers, all Liver, Kidney and Blood troubles. Only 25c at Z. C. M. L. Drug Dept.

Great Clearing Sale

In Ladies' Muslin Underwear, at Z. C. M. L. week of Jan. 6.

We have a fine assortment of well cooked breakfast foods.

ST. HELENA SANITARIUM FOOD CO.

Our entire stock of Fine Embroideries goes in the Great Clearing Sale of Z. C. M. L. week of Jan. 6.

'THE GREAT SALT LAKE

PRESENT AND PAST.'

By James E. Talmage, PH. D. F. R. S. E. F. G. S., professor of geology, University of Utah, a book of 118 pages, beautifully illustrated. The first complete and authentic work on the renowned saline sea. Price 25c, postage prepaid. For sale by the Deseret News and all news dealers.

Autographs of Capt. James S. Brown, 82c, bound in cloth. Price \$2.00; for sale at the Deseret News. Special terms to agents.

"77" FOR GRIP

GRIP is the concentration of Colds, Catarrh, Influenza, Cough, Sore Throat, all rolled into one. Congestion of the head, running at the nose and eyes; dry, hot, swollen, sore throat; it next creeps down on the chest—cough, hoarseness, difficult breathing, and pain often down to the stomach and bowels; chills up and down, the back, with languor and soreness. The prostration caps the climax, and you feel too sick for anything.

If you have all, or any one of these symptoms, take "77." It restores the circulation, purges the blood coursing through the veins, and "breaks up" the Cold.

At all Drugists 25c each, or mailed on receipt of price. Doctor's Book Mailed Free.

Humphreys' Homeopathic Medicine Co., corner William and John streets, New York.

NOTICE.

State of Utah, Department of Board of Pardons, Salt Lake City, Utah, January 4, 1902.

To Whom It May Concern:—Notice is hereby given that the State Board of Pardons will hold a regular session on Saturday, January 13, 1902, at 10 o'clock a. m. at the Supreme Court Room, City and County Building, Salt Lake City, Utah. That at said meeting said board will hear applications for pardon in the following cases, to-wit:

Christopher Hillberg, convicted of felony.

George M. Bates, convicted of voluntary manslaughter.

Also the application for pardon or commutation of sentence of George Dahmer, alias George Willis, convicted of burglary.

All persons having any interest therein desiring to be heard, either for or against the granting of said applications respectively, are hereby notified to be present at said meeting.

By order of the board.

M. A. BREEDEN, Secretary.

SPECIAL STOCKHOLDERS' MEETING.

Notice is hereby given that there will be a special meeting of the stockholders of the Salt Lake Baseball Association, held at the office of J. H. Cline, Room 22, D. F. Walker Bldg., Salt Lake City, Utah, Wednesday, Jan. 15th, 1902, at 8 p. m., for the purpose of voting on the proposition to increase the capital stock of said association, listening to the annual report of the Secretary, and for the election of a Board of Directors for the ensuing year, and to transact such other business as may legally come before the meeting.

S. A. WHITNEY, Secretary.

NOTICE OF STOCKHOLDERS' MEETING.

THE ANNUAL MEETING OF THE stockholders of the Salt Lake Ice and Cold Storage Company, will be held at the President of the company, No. 69 S. Temple Street, on Thursday, the 6th day of January, A. D. 1902, at 4:30 o'clock p. m. for the purpose of electing directors of said company for the ensuing year, and for the transaction of such other business as may properly come before the meeting.

WM. MC MILLAN, Secretary.

Salt Lake City, Utah, December 19th, 1901.
