Advance in Lead-Cyanide Receipts Ontario Earnings-Park City Items.

The most important strike ever made In the Tesora was made on Friday evening, if the animples sent up by the superintendent are any criterion on which to base a judgment. Nothing is yet known at the office of the size of the ore body, but samples of the ore are easily seen to be very rich in all yer.

The gold production of the United States was in 1886, according to the estimate of the director of the mint, 172, 580,000, while no prior year had shown so

and Refining company. The setting price for the present week will be it flat. Some advance was expected because of the advance in New York quostations last week. It is thought that a further advance will be made within the next week or two, though the rise will not, it is believed, run very much above present prices.

I the following table, compiled from the estimates of Dr. Adolph Southeer and the director of the United Status mint, shows the gold production of the world by half-century periods from the world by half-century periods from the setting the isometric prices.

Changes in All Cases Less Than One Half, but were Mostly Gains.

Buying Novement in Pacifics—Indication of the complete prices. above present prices.

CYANIDE RECEIPTS. Four Consignments Arrived from Different Points Today.

Four consumments of gold cyanides were received today at the local sam-pling rooms of the American Smelting company. The aggregate gross weight of the shirments was 750 pounds. The Geyser-Marion reported with 275 pounds and was followed by the Lucky floy of Custer, Idaho, with 150 pounds, The Sacramento of Mercur also reached the sampling rooms with 25 pounds and the Montana, and Denver Reduction company of Bearmouth, Monta, came in With 50 pounds by Total ... \$247,414,000 with a 50 pound lot.

BLACKBIRD PURCHASE. The Company Buys the Uncle Sam

Group from Salt Lake Men. A deal was closed up late on Saturday afternoon by which the Black-bird Mining company, with offices in this city, paid to Messrs, J. O. Swift and W. S. McCornick \$60,000 for the Uncle Sam group in the Blackbird district, Lembi county, Idaho. In addition to the payment of the above sum the company also paid \$10,000 for other claims, making \$70,000 in all that was paid out by the company on Saturday. The company has spent about \$250,000 n the acquirement of several groups of claims in the above district. The Brown Bear group was recently pur-chased from Dr. F. S. Wright and associates, of Salmon City, Idaho, and the Ella, Klondike and Buckeye groups purchased from Dennis Coughlan and Charles Schulty. The company has spent over \$65,000 in development

work during the past year.
The company also owns a group of claims in Copper Guich, Beaver county, on which development work is being nushed. The company has plenty of noney behind it. Dr. P. A. H. Frankin by president of the company, John E. Du Rois of Du Bois, Pennsylvania is vice-president, Charles J. North of Buffalo, is treasurer and M. P. Gibert s secretary and general manager. The York lawyer, comprise the directorate.

PARK CITY ITEMS.

Strike in the California - At the Steamboat-Ore Shipments.

In its weekly review of the camp the Park City Record says: W. I. Snyder erty in Thayne's canyon yesterday, and while there was very agreeably surrised at the disclosures made by a couple of shots. These shots were put to the roof to make headroom, and then the fallen rock was examined, it owed that a body of very rich steel leng had been uncovered. The body ies just above a thin layer of clay date which was supposed to be the angling wall. The extent of the new crike is yet unknown, but it has every ppearance of a big body. A specimen as brought down by Mr. Snyder which Reports are still conflicting relative

o the operation of the Daly. One is not Superintendent Chambers and rof. Palmer have decided to make a eport, since their recent investigations hat work be resumed at once. Another is that no such report has been beterndied on. However, in the opinion those best informed on the property of first mentioned rumer is given the est support, and it is generally beved that this old property is soon to

the scene of busy operations. Manager Kearns of the Silver King storday informed the writer that the we given some time ugo by the Rec-Alliance tunnel was correct. A e in cleaning and repairing the tun-crosscuts and drifts. Crosscutting I be commenced in a few days. The arount of ground, and is a very import-int undertaking. Government bonds, weak:

"I looked over the country at Sump er, Ore., pretty thoroughly myself, sale Robert S. Strahorn to a Spokane Re lew reporter, and was constantly im-pressed with the fact that it is much inderrated on the outside. Things do not move in Oregon as they do in our state or northern idaho, and if they were to discover a traction of Sumpter's walth in outside the product of the courts. alth in quartz in any corner of Ale or several years more at a stretch. Two for ratios, and at least half a dezer mills are demonstrating that they have unusually wide and continuous shoots Some of the ores are fabulusly rich but these need not be taken into ac-count. It is enough to know that sevto 12 feet wide to a depth of from 500 to 800 feet. Three new mills from 100 to 20 stamps each, are being installed, and much beavy machinery is going in for deep sinking. This is on the promi-nent properties of proved value. "There is also great activity in open-ing nower mines, some of which make

ery handsome showings. Some very the copper ores are being found, said

o run up to 10 per cent copper and a title silver and gold. "Placer mining is yielding about the usual returns, and there is plenty of good ground there to turn out fortunes every year for a dozen years. A \$1.50 nugget was found in one of the claims during our visit. This would create a stir in the Klondike, but not in Oregon, where mining is conducted in comfort the year round in sight of schools, churches, railronds and all the conventions of the ences that close contact with civiliza tion bring.

De Lamar Activity.

There is considerable mining activity t De Lamar, Nev., just now, says the urte Miner. A prominent mining man Platte received a letter from there s week asking him to make it known good reliable miners could find a there. There is no labor trouble a there, and this demand for minis not occasioned as far as this pa-has been able to learn, through to owners wanting to displace mer enything of that kind. The comp owever, has had several large compan-es recently take hold of properties here which it is desired to work to the mit right away.

MINING NOTES.

The Mammoth of Tintic marketed 10 cars of ore teday.

Eight cars of ore from the Bullion Book were on the market today. Seven cars of ore were on the market today from the Swansea of Tintic.

The Taylor-Brunton sempler reported 17 cores of ore from Tintic today.

The Grand Central of Tintle reached the market jodny with 18 cars of ore. King new tram and sampler. He ex- The Conklin sampler reported 18 cars | yorkers, 5.2005.25; pigs, 4.9005.15.
