Emma Mine Investigation, Rich Development Likely—The Rocky Mountain Insect Investigating Commission.

It is understood that Minister Schenck will sail for America next Saturday, and will appear before the Emma mine investigating committee in person. The friends of Schenck now in this city say that they are in possession of a letter written by Lyon, making a demand on ex-Senator Stewart for $200,000, under a threat of publishing his (Lyon's) story; they also say that this story is impeached in every material assertion by every witness and document in the litigation now pending in England.

The bill for the protection of agriculture against injurious insects, as amended and reported by Frelinghuysen from the committee on agriculture to-day, provides for the appointment of one commissioner instead of three, who shall investigate and gather information relating to the Rocky Mountain locust, army worm, chinch bugs, Hessian fly, potatoe bug, and other destructive insects, in order to devise successful methods for their destruction; the results are to be reported to the commissioner of agriculture, and transmitted by him to Congress. The commission is to be appointed by the Secretary of the Interior.

The Alaska Investigation, &c.

The Senate, to-day, confirmed the following—Charles Hudson, agent for the Pima and Maricopa Indians, Arizona; Wm. H. Small, register of the Land Office at Vancouver, W. T.

Senator Boutwell was examined to-day by the House committee investigating the affairs of the Alaska Commercial Company; he was called to testify as to the manner in which the lease of the Seal Island was awarded to that company and to explain the reasons therefor. He testified that he, while Secretary of the Treasury, had ordered an award to be made to the Alaska Commercial Company, as in his opinion their bid was the best one for the interests of the government. He was supported in his views by an opinion of the Attorney General; he also stated that the government receives from this company annually about $325,000, which is more than would have been received under the propositions of any other bidder.

Ex-assistant Secretary Richardson will be called as the next witness.

Stewart Wants to Testify.

The following telegram, dated San Francisco, early yesterday morning, was received by the Hon. George C. Gorham, secretary of the U. S. Senate yesterday afternoon—

"I desire to testify before the House committee on foreign relation in the Emma mine investigation. See the chairman of the committee and ascertain when it will be necessary for me to start. Would like a few days here before leaving.

(Signed)
"WILLIAM M. STEWART."

Gorham submitted this telegram to the foreign affairs committee today, and asked permission for C. J. Hillyer to cross-examine Lyon in Stewart's behalf. The committee, in response, proposed that they should cite Lyon to appear, and confront Stewart when the latter arrives. Gorham assented to this proposition as being still more satisfactory, and it was accordingly agreed upon.

More Emma Mine Testimony.

The witness referred to a telegram sent to London in 1871, that Senator Blair had introduced a resolution calling for the investigation of General Schenck's connection with the Emma mine. In conversation with Park the latter said he had fixed the matter with the General, whom he had induced to give him (Park) his note for the stock, and then write him a letter, saying that if his note for the stock was not sufficient security he would give a mortgage on his house and lot in Washington. Park said he had certified this statement to Stewart, and if Stewart could do the same thing it would dry up the resolution.

The committee caused to be read the correspondence between S. T. Pafford and General Schenck. In a letter dated July 9, 1873, Pafford wished General Schenck to give him certain information about the Emma mine, and he repeated the rumor that General Schenck did not, *bona fide*, pay for his shares. Whether this was true or not, a countryman of Schenck's then in London said that 5,000 shares of Emma stock had been given to Schenck, and that Senator Stewart received 2,000 shares to become a director of the Emma Mine Co. Pafford wanted to know whether these things were true, and in conclusion he charged Park and Stewart, who were friends of Schenck, with having, with nefarious intent and fraudulent statements, obtained from him and other confiding shareholders large sums of money. He asked whether Schenck endorsed the acts of these men, and said that if an answer should not be given he would furnish a full statement to be published in the New York papers, and would also call the attention of President Grant and of Lord Granville to the question. To this letter General Schenck replied, July 10th, 1873, saying that he had responded to the previous letter because it was respectful in character, but when Pafford subsequently attacked him in the public prints, the publication being accompanied by inuendoes, he could take no notice of his strictures. He had no objection to give Pafford all the information in his possession if he would call upon him at 10 o'clock on the next Sunday, his engagements being such that he could state no other time for the interview. The witness Lyon then stated that Pafford then had the interview with Schenck, who told Pafford that he did not know much of the witness except that he was an adventurer, and he asked Pafford whether his name and Stewart's were not better than that of Lyon's, as they occupied high and responsible positions. Pafford said to Schenck that there were many concurrent circumstances to induce persons to believe that money was given him to float the stock, and that a countryman of Schenck's had said that the latter's means were too inconsiderable to pay for the shares. Schenck informed Pafford that he had a patrimony from his father's estate, in the shape of a coal mine in Wisconsin, and on this he borrowed $25,000 to pay for his stock, and the other $25,000 he borrowed from Park, and had not yet paid him all back. Witness said to Pafford there were no coal mines in Wisconsin. Subsequently witness called on McCullough, of the banking house of Jay Cook, McCullough & Co., when McCullough asked him to let up on Schenck and not be too severe on him; he said the general was very indignant when ever the name of the Emma mine was mentioned. Witness said in reply that he was not surprised at that, he could not forgive Schenck for calling him an adventurer. McCullough informed him that Schenck had denied calling him an adventurer.

The committee authorizing Col. Gorham to inform Senator Stewart that they would hear him whenever he would report himself, about two weeks hence; and the committee further said that Lyon would be recalled at that time, so that Stewart could interrogate him. Lyon said this would be very agreeable to himself. He then resumed his testimony, repeating that Stewart had often informed him that General Schenck's name had sold the Emma mine. This, the witness believed, from concurrent circumstances.

It appeared from replies to the questioning of the witness by members of the committee, that he compromised his interest in the mine for $150,000, the original stipulated sum being $500,000. There was great inducement to withhold from the public, for about a month, Schenck's resignation as director. Park very much regretted the resignation because the shares fell as low as fourteen pounds sterling. Owing to the Emma mining transaction American securities generally were much depressed. J. H. Puleston, of the banking house of Jay Cooke, McCulloch & Co., bitterly complained that their firm had been badly treated, having received only 25,000 pounds sterling for the use of their name in putting the Emma mine stock on the market.

The chairman laid before the committee the following telegram dated London, to-day, addressed to himself—

"The report of the proceedings as to General Schenck's connection with the Emma mine, published in to-day's London *Times*, says that Jas. E. Lyon testified that I told him I gave Senator Stewart 2,000 shares to become a director and to assist in getting Schenck's name on the board; this statement is absolutely untrue. I have never seen Lyon, nor had any communication with him in my life; I never gave Stewart any shares, either to become a director himself or to get Schenck to be a director, and I give Lyon's testimony the most unqualified contradiction. Albert Grant."

The above telegram having been shown to Lyon, he denied ever having made such a statement.

California wool ranges from 14 @ 23 for fall and 20 @ 33 for spring. There is very little doing in combing and delaine fleeces, but small stocks are held with considerable firmness, as it is believed that everything in the combing line will be wanted later in the season. AGENTS WANTED!

To sell the New Patent Improved EYE CUPS.

Guaranteed to be the best paying business offered to Agents by any House. An easy and pleasant employment.

The value of the celebrated new *Patent Improved Eye Cups* for the restoration of sight breaks out and blazes in the evidences of over 8,000 genuine testimonials of cures, and recommended by more than one thousand of our best physicians in their practice.

The Patent Eye Cups are a scientific and philosophical discovery, and as ALEX. R. WYETH, M. D., and WM. BEATLEY, M. D., write, they are certainly the greatest invention of the age.

Read the following certificates:

FERGUSON STATION, LOGAN CO., KY., June 6th, 1872.

DR. J. BALL & CO., Oculists.

GENTLEMEN: Your *Patent Eye Cups* are, in my judgment, the most splendid triumph which optical science has ever achieved, but, like all great and important truths, in this or in any other branch of science and philosophy, have much to contend with from the ignorance and prejudice of a too sceptical public; but truth is mighty and will prevail, and it is only a question of time as regards their general acceptance and endorsement by all. I have in my hands certificates of persons testifying in unequivocal terms to their merits. The most prominent physicians of my county recommend your *Eye Cups*. I am, respectfully, J. A. L. BOYSIT.

WILLIAM BEATLEY, M. D., Salvisa, Ky., writes: "Thanks to you *for the greatest of all inventions*. My sight is fully restored by the use of your *Patent Eye Cups*, after being almost entirely blind for twenty-six years."

ALEX. R. WYETH, M. D., Atchison, Pa., writes: "After total blindness of my left eye for four years, by paralysis of the optical nerve, to my utter *astonishment* your *Patent Eye Cups* restored my eyesight permanently in three minutes."

Rev. S. S. FALKINSBURG, Minister of M. E. Church, writes: "Your *Patent Eye Cups* have restored my sight, for which I am most thankful to the Father of Mercies. By your advertisement I saw at a glance that your invaluable *Eye Cups* performed their work perfectly in accordance with physiological law; that they literally fed the eyes that were starving for nutrition. May God greatly bless you, and may your name be enshrined in the affectionate memories of multiplied thousands as one of the benefactors of your kind."

HORACE B. LURAN, M. D., says: "I sold, and effected future sales liberally. The *Patent Eye Cups*, they will make money, and make it fast, too; no small catch-penny affair, but a superb, number one, up-top business, promises, as far as I can see, to be life-long."

Mayor E. C. ELLIS wrote us, November 16th, 1869: "I have tested the *Patent Ivory Eye Cups*, and I am satisfied they are good. I am pleased with them. *They are certainly the greatest invention of the age.*"

Hon. HORACE GREELEY, late Editor of the New York *Tribune*, wrote: "Dr. J. BALL, of our city, is a conscientious and responsible man, who is incapable of intentional deception or imposition."

Prof. W. MERRICK writes: "Truly, I am grateful to your noble invention. My sight is restored by your *Patent Eye Cups*. May Heaven bless and preserve you. I have been using spectacles twenty years. I am seventy-one years old. I do all my writing without glasses, and I bless the inventor of the *Patent Eye Cups* every time I take up my old steel pen.

ADOLPH BIORNBERG, M. D., physician to Emperor Napoleon, wrote, after having his sight restored by our *Patent Eye Cups*: "With gratitude to God, and thankfulness to the inventors, Dr. J. BALL & Co., I hereby recommend the trial of the *Eye Cups* (in full faith) to all and every one that has any impaired eyesight, believing, as I do, that since the experiment with this wonderful discovery has proved successful in me, at my advanced period of life—80 years of age—I believe they will restore the vision to any individual if they are properly applied." ADOLPH BIORNBERG, M. D.

Commonwealth of Massachusetts, Essex, ss.

June 5th, '73, personally appeared Adolph Biornberg, made oath to the following certificate, and by him subscribed and sworn before me. WM. STEVENS, J. P.

LAWRENCE CITY, Mass., June 5, 1873.

We, the undersigned, having personally known Dr. Adolph Biornberg for years, believe him to be an honest, moral man, trustworthy, and in truth and veracity unspotted. His character is without reproach.
