## VETERANS AT THE LION HOUSE

Interesting Rally of the Remnants Of the Old Guard Last Evening.

ZION'S CAMP SOLE SURVIVOR.

Nathan Tanner the Remaining Representative of Historic Company at Reception by First Presidency.

The organization known in Church history as Zion's Camp numbered in membership 205 persons, of which there is today but one man living. His name is Nathan Tanner, and his home is at Granger, Salt Lake county. He was the sole representative of the historic company at the reception tendered by the First Presidency yesterday at the Lion House, and although 92 years of Lion House, and although ?? years of age, he is as hale and hearty as most men a score of years younger, and he delivered a brief, clearcut address that showed his mind to he wonderfully clear. It is ?? years since he with his fellows made the long journey from Kirtland, Ohio, to western Missouri, to render assistance to their persecuted and driven brethren. Some who enlisted in Zion's Camp never reached their destination on the frontier, as death pald many a visit during the six weeks' journey and materially decimated the roster of the company. One by one the remainder were called into the great beyond, until but one remains to tell the story. to tell the story.

"THE LAST LEAF."

Mr. Tanner may well be called "The Last Leaf" of Zion's Camp, and how, in one respect, like the character of Oliver Wendell Holmes' beautiful lines of that title he must have felt as he sat yesterday thinking of the stirring events of the last 73 years. One verse in particular is appropriate:

The mossy marbles rest On the lips that he has prest

In their bloom; And the names he loved to hear Have been carved for many a year On the tomb."

Of the wives of men who were enlisted in Zion's Camp, there were present, Mrs. Bathsheba W. Smith, widow of George A. Smith, Mrs. Nickerson, widow of Levi S. Nickerson, Sarah W. Curtis, widow of Lyman Curtis, Mrs. Jane Young, widow of Joseph Young, Emma F. and Mary W. Gates, widow of Jaseb Gates. of Jacob Gates.

THIRTEEN VETERANS.

When the survivors of the Mormor Bat alion were called for, 18 white haired veterans arose. More there are haired veterans arose. More there are yet living, but distance and conditions prevented many of them from accepting the invitation to meet in reunion. Perhaps not more than two of three women who went with the battalion are now in mortality, and of these not one was present at yesterday's gathering. The men responding were, John R. Murdock, Beaver; Samuel Lewis, St. George; Daniel Henrie, Manti; William H. Walker, Lewisville, Idaho; William W. Casper, Winder, Salt Lake county, Azariah Smith, Manti; William J. Johnson, Manti; Ruffus C. Allen, St. George; James Oakey, Springville; Sanford Porter, Logan; Ruel Barrus, Tooele; James V. Williams, Monroe, and Jacob Earl, Logan. and Jacob Earl, Logan.
Widows of members of the Mormon

battalion were present as follows: Lydia A. Mead, Amy Hancock, Maria Mitchell Brown, Isabella Workman, Temperance Hinckley, Huida T. Smith, Maria T. Hatch, Adeline Buchanan, Sarah Buchanan, Elizabeth Miller, Sarah Egbert and Eliza L. Brown.

ARRIVED EARLY.

The veterans began arriving at the Lion House as early at 1:30 o'clock, thought the program proper did not commence until 4 p. m. In the meantline the guests who dropped in from time to time were entertained with music and recitations, those taking part being Miss Margaret Caldwell, Miss Mercy R. Baker, Mrs. Beatrice Thomas, Mrs. Kent, the Misses Pearl Bouton and Rita Hageman and Heber J. Grant. The latter sang "The Flag Without a Stain," with very pleasing effect.

POSED. THEN BANQUETED.

POSED, THEN BANQUETED.

At 4 o'clock pictures were taken by Charlie Johnson, first of the Zion's Camp and Battalion survivors and then of the entire assembly, after which the company repaired to the dining room upstairs, where a banquet had been prepared by the domestic science department of the L. D. S. university. About 100 persons sat down to the repast, which was not only a triumph in the art of cockery, but was served by a bevy of young ladles in artistic manner. During the hour spent at the tables, music was centributed by Prof. W. C. Clive, Hon, Orson F. Whitney, Mrs. Mary Romney and others.

PRESIDENT JOSEPH F. SMITH.

PRESIDENT JOSEPH F. SMITH.

PRESIDENT JOSEPH F. SMITH.

President Joseph F. Smith was master of ceremonies and he was exceedingly happy in his remarks to the veterans present, and his allusions to the dead and absent members of the two notable organizations. Short and appropriate addresses were made by Presidents John R. Winder, Anthon H. Lund, and Francis M. Lyman and by Elders John Henry Smith, Orson F. Whitney, Nathan Tanuer, James V. Williams and Hyrum M. Smith.

The young ladies who had served as waitresses pinned bouquets of red and white carnations upon the veteran soldiers, and some of the older ladies present were also thus honored.

After a resolution offered by President Francis M. International President Francis M. Interna

After a resolution offered by President Francis M. Lyman, providing for an annual reunion of the Zion's Camp and Mormon Battalion members, had been unanimously carried, the gathering was dismissed, all joining in singing "Come, Come Ye Saints, No Toll Nor Labor Fear," the benediction being offered by Elder George F. Richards,

OFF FOR THE SOUTH.

Nephi U. S. C. Jensen to Edit Southern Elders' Journal.

On Friday, Mr. Nephi U. S. C. Jensen of Forest Dale will leave for Chattanooga, Tennessee, wher he will assume editorial charge of the Elders'

sume editorial charge of the Eiders' Journal, the organ of the Southern Stats mission. A farewell party in his honor will be given at Forest Dale on Thursday evening.

Mr. Jensen goes to his new field with considerable experience of a valuable character back of him. In 1898 he filled a mission to the Southern States, spending most of 27 months in the Florida conference. After returning home he taught school for five years, one in Arlzona and four in the schools of Salt Lake county. Mr. Jensen read law in the meanwhile, and was admitted to the bar a year ago. Last fall he was elected to the state legislature from Salt Lake county, and while a member of the law-making body made an enviable record for honesty and square dealing in securing legislation for the benefit of the state. Elder Jensen goes to his new field of labor with the best wishes of a

UTAH POULTRY.

Judge of Recent Show Writes Article Praising Birds Exhibited.

An outside view of the recent poultry show held under the auspices of the Utah State Poultry association is given in a signed article by Judge D. T. Heimilch, who came out from the east to score the local birds. The article is published in the Western Poul-try World, and gives high praise to the quality of Utah Barred Plymouth Rocks, Wyandottes and Rhode Island

Judge Heimlich's comment on the show is as follows: The Utah State Poultry association held its nineteenth annual exhibit Jan. 21 to 25, 1907. This association like nearly all other associations, which make a success of their annual exhibit, make a success of their annual exhibit, is controlled and managed by a few active workers who each does his part, and thus make things move. I got in at neon Sunday, and found the show room, a large, well-lighted room, that had sufficient floor room and good light to make it attractive for the public. There were nearly 200 fowis on exhibition, the greater part of which were of a first-class ouality.

exhibition, the greater part of which were of a first-class quality.

I found here the three highest scoring Barred Plymouth Rock pullets that it has been my pleasure to score this winter, 93%. This certainly is quality of highest order. First cockerel was a fine typical bird, good shape and a very good all-around bird. Second cockerel was rather rangy, but very clear and bright in barring with but little metallic.

very clear and bright in barring with but little metallic.

White Wyandottes made a grand showing, especially in females. The winners, with the exception of first prize pullet, were all large and correct form and pure white plumage.

Buff Orpingtons were a large and very good class, lacking in conditioning, but everaged well in size and other quality points.

ing, but averaged well in size and other quality points.
Single and Rose Comb Rhode Island Reds were out in large numbers, and in quality as good as met with anywhere in the eight states where I judged this winter.
The winners in single and rose comb Brown and White Leghons were all superior birds. Other varieties were small classes, but all had metitarious specimens among them.

were small classes, but all had meritorious specimens-among them.

My three days stay among these western fanciers was all pleasure and sunshine, and I shall remember it and hope for an equally pleasant meeting when I return there in January, 1908.

### CLEAR-HEADED.

Head Bookkeeper Must be Reliable.

Head Bookkeeper Must be Reliable.

The chief book-keeper in a large business house in one of our great Western cities speaks of the harm coffee did for him:

"My wife and I drank our first cup of Postum Coffee a little over two years ago, and we have used it ever since, to the entire exclusion of tea and the old kind of coffee. I happened in this way:

"About three and a half years ago I had an attack of pneumonia, which left me a memento in the shape of dyspensia, or rather, to speak more correctly, neuralgia of the stomach. My 'cup of cheer' had always been coffee or tea, but I became convinced, after a time, that they agkravated my stomach trouble. I happened to mention the matter to my grocer one day and he suggested that I give Postum Food Coffee a trial.

"Next day it came, but the cook made the mistake of not boiling it sufficiently, and we did not like it much. This was, nowever soon remedied, and now we like it so much that we will never change back. Postum, being a food beverage instead of a drug, has been the means of carring my stomach trouble, I verily believe, for I am a well man today and have used no other remedy.

"My work as chief book-keeper in our Co.'s branch house here is of a very confining nature. During my coffee-drinking days I was subject to narrousness and 'the blues' in addition to my sick spells. These have left me since I began using Postum Food Coffee, and I can conscientiously recommend it to those whose work commend it to those whose work commends to long hours of severe mental exertion." "There's a reason." Name silven by Postum Co., Battle Creek, Mich.

## L. A. MERRILL IS PRESIDENT

Selected to Head the Arid Farm Cultivation Organization In Utah.

CONVENTION FOR OCTOBER.

Subject of Transmissouri Congress Treated in Special Resolutions Presented at Last Night's Session.

Next October there will be held in this city a large convention of arid land far-ners, and scientific people interested in the subject. To prepare for this conference, a committee was appointed by the Utah Arid Land Farming association in its first state convention last night. The state association perfected its organization with L. A. Merrill as president. Mr. Merrill is manager of one of the largest dry farms in the state, is editor of the Destret Farmer, and was formerly connected with the Agricultural college at Logan. The other officers selected were as

follows:
First Vice President—J. W. Paxman, Nephl.
Second Vice President—George L. Farrell, Smithfield.
Third Vice President—W. C. Lyman, San Juan county.
An executive board, consisting of one member from each county was left for designation today, by a committee on permanent organization left for designation today, by a committee on permanent organization
composed of J. B. Christenson, Sanpete county; C. D. White, Beaver;
Henry Leigh, Iron; Dan Hanson, Sevier; T. F. Coombs, Boxelder; Dr. J.
A. Widtsoe, Utah; Leslie George, Millard; Prof. L. A. Merrill, Salt Lake;
Peter S. Parson, Cache; Israel Benmion, Tooele.

The committee on exhibits for the
October dry farming congress is com-

SPECIAL RESOLUTIONS.

SPECIAL RESOLUTIONS.

The subject of the Trans-Missouri dry farming congress is treated in special resolutions, presented at the evening session. They follow:

Whereas, The work of the recent Transmissouri Dry Farming congress has already had a marked beneficial effect on the arid farming industry in this state, and

Whereas, The next convention is to be held in Salt Lake City, therefore be it resolved that the members of this association express their appreciation of the labors of that congress for the work done, and for the honor conferred upon the state by making this its next meeting place, and we hereby pledge ourselves to devote our energies toward making it a worthy successor to that splendid gathering. Whereas, There are still millions of acres of land in Utah that can be profitably cultivated by scientific methods of arid farming, that cannot be conveniently obtained under the existing provision of the law; therefore, be it

the existing provision of the law; therefore, be it Resolved. By this convention, that the attention of our congressional delegation be respectfully directed toward securing national legislation by means of which these lands may be more readily acquired. Whereas, The interests of arid farming will be promoted very greatly by a proper exhibit of crops raised without irrelation; he it, therefore.

proper exhibit of crops raised whilped irrigation; be it, therefore.

Resolved, That all the members of this association make a special effort to save specimens from their crops, and urge all others who are engaged in arid farming to do the same, in order that an exhibit impressive in quantity and quality may be made at the time of the

quality may be made at the time of the meeting of the Transmissouri Dry Farming congress to be held in October, Be it further Resolved, That the gathering and preservation of such specimens from each county be the special duty of the member of the executive committee from that county.

Whereas, The industry of arid farming has reached its present sigge of

ing has reached its present stage of development through the scientific ex-periments conducted by the Agricultur-al college of Utah in its various depart-

ments; and,
Whereas, It is absolutely necessary
for the development of this industry
that such efforts be continued be it,

therefore, Resolved. That this convention ex-Resolved. That this convention express its gratitude to those associated with the college and others who have applied scientific methods of arid farming, and that we respectfully ask that even greater attention be given than has been given in the past, on account of the larger number employed in this industry, and that the principles of arid farming be made a prominent part of the extension work of the college.

Whereas, it has been demonstrated that there is greater profit in all crops, when there are large quantities raised of the same variety; therefore, be it.

Resolved, That this association seek to promote a uniformity in the varie-

to promote a uniformity in the varie-ties of the various crops grown; and be

Resolved, That the management of the state experimental arid farms be requested to make a special effort during the coming year to ascertain the most desirable varieties of the various crops that can be grown on the arid lands of the state, for the adoption by

this association. Whereas, The Deseret Farmer has continuously and persistently advocated the most advanced scientific methods

continuously and persistently advocated the most advanced scientific methods of arid farming; be it Resolved, That the same be adopted as the official organ of this association. Resolved, That the thanks of this association be tendered the president and faculty of the Latter-day Saints university for the use of Barratt hall for the holding of this convention.

Resolved, That this association express its gratitude to the governor and legislature of the State of Utah for their wise and timely appropriation for continuing the investigation on the various state experimental farms, and for the investigations pertaining to the existence of artesian water for culturary use.

Resolved, That we acknowledge the courtesy of the press throughout the state for publishing the call and program for this convention and the resports of its proceedings.

LUCERN PROBLEM.

LUCERN PROBLEM.

In the afternoon, C. W. Richards led the discussion with a review of lucern growing on dry land, as he has encountered the problem. He said that in Boxeider county he had found arid farms produced good lucern crops. The seed should be laid under the surface with a drill instead of being spread broadcast, he declared, and should not be sown too freely, two and a half bushels to the acre being the best limit, the drill being placed to seed at an inch below the surface.

PRINCIPLES OF DRY FARMING. Prof. L. A. Merrili discussed the principles of arid land farming. He declared that the subject is one of great value to the entire west, but that it is not dry farming, but rather arid farming 'hrough the conservation of the rain supply in regions where it is scant. In places where there is precipitation of from 10 to 13 inches a crop

## Baking Powder FOREMOST IN QUALITY

a year is possible under the methods of soil culture used in arid farming. "The kind of soil," he said, "is not so important as the depth of the soil. Soil important as the depth of the soil. Soil on which 12 inches of rainfall per year can be conserved will produce 25 busheds of wheat to the acre. Plowing must be done in the fall, for this opens the land to receive the winter rainfall, and gives much better results than spring planting.

J. W. Paxmon of Nephi spoke of the small farm declaring that under med.

J. W. Paxman of Nephi spoke of the small farm, declaring that under modern methods one farmer could handle 400 acres with two teams and have six menths of leisure time, and that after the land has been thoroughly subdued the leisure would increase or the acreage could be increased to \$00 if a helper was added during certain seasons.

George Whitehead of St. George brought in accounts of dry farms in that section. Other speakers were Prof. J. A. Widtsoc, on the relationship of irrigation to arid farming, N. Rich Porter, on smut and rust, and Dan Hanson on the feeding values of arid farm products. Mr. Hanson's talk was followed by a general liscussion which closed the evening session.

#### EXCURSIONS TO MILNER, IDAHO

City Ticket Office 201 Main Street. Via Oregon Short Line for opening 30,000 acres of Carey land under Twin Falls North Side Canal and sale of lots in new Milner Townsite. Round trip from Salt Lake \$10.55. Proportionately low rates from other points. Tickets limited to fifteen days, City Ticket Office 201 Main Street.

ALLOTMENT GARDENS.

Encouragement to English City Residents to Grow Crops.

Consul F. W. Mahin writes that about 600 acres within the boundaries of Notingham city. England, are devoted to alloiment gardens and the number of

allotment gardens and the number of holders exceeds 4,000. The city owns about a third of these gardens, the rest being controlled by private associations. The city receives a rent averaging 1½ cents a yard per year, the size of the allotments being indicated by the annual rent, which ranges from \$4\$ to \$25\$. Rents charged by the private associations are substantially the same, though some of these allow the holder to buy his allotment. The allotments are rented or bought mainly by wage-earners, though some are held by business and professional men who have no garden space at their residences.

The city offers prizes each year for the best results in its gardens, with the

The city ofters prizes each year for the best results in its gardens, with the consequence that the allotments are kept in most perfect condition, and many are examples of remarkable fertility in fruits, slowers, and vegetables. The effect of the competition prizes is enhanced by the canceling of the lease if an allotment is not kept up to a required standard. While this is maintained the tenant is not disturbed. Some of the allotments have been held by the same families for half a cenby the same families for half a cen-

THE DESERRET NEWS.

ENTHUSIASTIC MUSICIAN.

Conductor Alexander Von Fielitz Deplores Americans Going to Europe.

Conductor Alexander von Fielitz of the Chicago Symphony orchestra entertained a number of local newspapermen at dinner last evening, at the Kenyon hotel. Herr Fielitz, as his name might indicate, proved a very felicitors has, and for a man who has been in this country but one year, he speaks remarkably good English. That he is a most enthusiastic musician goes without saying; that he is as capable a conductor as he is enthusiastic was practically manifest by the character of the performance of his orchestral band. Although Prof. von Fielitz was born and raised in der Faderland he is now an American—that is to say, he has taken out his first naturalization papers, so that in due course of time he will be able to vote and—run for the aldermanship in his ward, if he so desires. hicago Symphony orchestra entertained

of a musical education, he remarked that it was the European stamp that seeme to mark the attraction in the foreign actifuctor. "Why," said he, "when I had a studio in Berlin, American students would come flocking to i.e., and I had all wanted at remunerative prices; but whe I emigrated to the United States and he gan to teach here, why, they din't seek to care much; they all wanted to go to be the commendative prices; but whe I emigrated to the United States and he gan to teach here, why, they din't seek to care much; they all wanted to go to care much; they all wanted to go to be fore giving up his entire time to orches the fargest conservatory in Chicago be fore giving up his entire time to orches the competent instructors in all branches of music in the great American centers to impart all the instruction desired, only foreign travel and study with the note masters as a matter of final poists are of course, very desirable and are to be commended and recommended. Prof. vos. Fielitz was asked what he thought of the probable action of the next annual centering the proposition; he hoped the movement would succeed. He is appreciative of the fact that there is an abundance of vocatalent in this country for all operative of the fact that there is an abundance of vocatalent in this country for all operative of the fact that there is an abundance of vocatalent in this country for all operative of the fact that there is an abundance of vocatalent in this country for all operative of the fact that there is an abundance of vocatalent in this country for all operative of the fact that there is an abundance of vocatalent in this country for all operative of the fact that there is an abundance of vocatalent in this country for all operative of the fact that there is an abundance of vocatalent in this country for all operative of the fact that there is an abundance of vocatalent in this country for all operative of the fact the second annual music festival next April. The addition would be instrings mostly, with a bass cla instrumentation most effective work an be done. The conductor spoke in the high est terms of the festival cherus which he thought would well hold its own, against any similar body of singers in the country. The organ also came in for a share of praise. He considered the instrument one of the very best in the country an impress. In heightened earlier in the day by the playing of the Tranhauser overture by Prof. McCleilan. Prof. von Fielitz said the Boston Symphony was the finest orchestra in the world. After hearing it, he was so overcome by the excellency of its performance. The professor expressed a hope that at next year's festival he would be able to play with the organ Gullmant's great symphonic poem written for organ and orchestra, and which is considered the most impressive work of the kind ever written. The conductor expressed his admiration for the west in general and for Utah is, particular. He said he would be in the state this summer, and would take greapleasure in visiting Salt Lake again.
