#### TURNING THE COLORADO.

Effort to Put it Back in Old Channel Meeting With Success.

San Diego, Cal., Sept. 26.-Word which comes from Calexico tells of the partial success of the Southern Pacific company, the California Development company and the people of the Imprial valley in their efforts to turn the Colo-rado river back into its old channel and out of the new river which has been carrying the most of it into the Saton sink. The companies have nearly 1.000 men at work with three big steam shovels and big steel dump cars. The water has been raised three feet the work, and the stream is lessened to about 500 feet in width. Rock is being dumped in that space and has found bottom to such an extent that it is claimed that the river will be turned back in 10 days from now.

### ANALYSIS OF MILK.

State Chemist Finds It is Up to a High Standard.

The state chemist has made seven analyses of local milk this month, and has just completed the seventh. He has found the milk generally up to a high standard, and only once in a while, as in the last analysis, has he discovered a falling away. This time two samples were found to have been through a separator, and were therefore considerably short of the standard in butter fat. A complaint has been sworn to against the offender, and it was expected that he would be arrested some time today.

Sait Lake dairymen are reported in low spirits over the "pernicious ac-tivity" of the city inspector, and whenever he starts out on a raid, the fact is telephoned to all of the dealers and dairymen, so that they may be predairymen, so that they may be pre-pared. The dairymen complain that with milk at its present price, there is no money in it, if such a high stand-ard is to be maintained, and half a dozen dairies are anxious to sell out. They are reported as having fondly hoped that the inspector would let up, and then they would "have a show to make an honest livin". But the in-spector keeps on the war path, and the dairymen are said to be in dewere and forged notes which were and a raise in the price of milk may be

### CANNOT AGREE.

Tintic Ore Producers Turn Down Rate Propositions From Railroads.

The Tintic ore producers and the railroads are unable to agree on a basis of freight rates on ore shipped to the Sait Lake valley smelters. Three propositions were received from the representatives of the latter at the meeting held today by the producers and all were turned down through a resolution adopted by a unanimous vote of those present. The producers contended that none of them were fair to them and that the railroads were clined to discriminate in favor of other camps of the state.

Motion to Dismiss the Case Against Christensen Was Granted by Judge Armstrong-Would Have Been Illegal to Issue Warrant on Owen's Vest Pocket Complaint-May Try Another "Tack."

The motion to dismiss the complaint will be granted." Such was the decision of Judge Armstrong this morning at the conclusion of the argument in the complaint filed by Owen against County Attorney Parley P. Christensen to compel him to issue a warrant for the arrest of President Joseph F. Smith upon a statutory charge and also to compel the attorney to show cause why he should not be removed from office for failing to perform his duty in relation to the complaint of Owen. Judge Armstrong's decision was foreseen by Owen and his attorney, Edgar A. Rogers, and they attempted to get from under by asking for two days within which to amend their complaint. This request was denied and the motion to dismiss was granted. Former Senator Arthur Brown appeared as counsel for the county attorney, and in his argument he gave Charles Mostyn, Justice of the Peace Dana T. Smith and the Tribune something to think about,

When the case was called Attorney Brown moved the court to dismiss the complaint against the county attorney for the reason that it did not show that the proper steps had ever been taken by Owen to make a complaint against President Smith or to bring it regularly or legally before the county attorney for his consideration and for the further reason that the complaint asks

company for the rehabilitation and ex-

rension of its Pacific coast lines will be spent in building a system from San Francisco to Sait Lake City to connect

with the eastern lines at that point.
When shown the above dispatch

General Manager Murray of the Bell company in this city, said it was blind

and misleading. It really meant that

tion of its destroyed San Francisco connections, and for such other repairs

and reconstruction as might be neces-sary elsewhere on the system; and the action of the directors of the local

company never had any bearing on the

matter of extension beyond the juris-diction lines of the Pacific company.

Mr. Murray said the matter of exten-

sions from the territory of one Bell company into that of another was for

the American Telephone & Telegraph company to handle, and that company

to close up the gap between the Rocky

Mountain system and the system of the

Pacific Coast States company. The Ne-

In support of his motion the attorney polated out wherein the complainant against President Smith had failed to emply with the law in regard to presenting the matter to a magisrate whose duty it was to examine the witnesses and ascerain the facts. He contended that the complaint should have been submitted to the magistrate and then to the county attorney who, afer looking ino the evidence in the case, could approve or disapprove of the issuance of the warrant. In regard to the authority of the county attorney to issue a warrant the attorney said in

They ask that the county attorney issue a warrant against Presiden Smith, Such authority is not vested in the county attorney and it is far beyoud his power to issue one and if he did he would be liable for false imprisnment very quick. He can only approve or disapprove of the issuance of the warrant.

The complaint in the Smith case was never in any manner presented to a magistrate and he never even saw it. It was sworn to before a notary public and carried around in the pocket of this plaintiff for some ulterior motive and not because he wanted to invoke the aid of the law. None of the steps required by statue have been taken in the alleged action upon which this complaint is based. The evidence must first be taken to the magistrate and them to the county attorney and the that the county attorney be compelled latter must then examine the evidence

It was fired by guns from cars but one were turned over and the Twelfth artillery, U. S. A., and burned. Three are known to have been was in honor of Gen. Zebulon Montgomery Pike, who died April 27, 1813, after a victorious attack on York, now Toronto, Canada, and who seven years previously, while a lieutenant and head of the southwest expedition, sent out by the war department, made the first record of the existence and location of the mountain that now bears his name and is the scene of the ceremonies in his honor today.

Seldom has a military salute been more impressive than that of this morning, the sharp reports echoing and re-echolog from crag after crag of the rugged mountain top, finally dying away in space that was infinite

in every direction save below. Incident to the formal dedication and christening of Pike's Peak, of which the salute was a feature, there were addresses by President W. F. Slocum of Colorado college, Colorado Springs; Gen. Irving Hale of 'Philippine campaign fame, and by Mayor E. E. Nichols of Manitou, the celebrated resort which nestles among the foothills at the base of the mountain. The unveiling of a handsome bronze tablet, appropriately inscribed, was by Nicholas Caldwell, a nephew

of Mayor Nichols.
While the chief interest of the third day of Pike centennial week centered around this morning's ceremonies on the summit of the peak, there was no lack of entertainment for the vast majority of those participating in the celebration, who could not go to the summit. Cavalry maneuvers at Camp Pike in the early afternoon afforded an interesting spectacle for a throng that more than taxed the transportation facilities and a dress parade of the Twenty-ninth infantry was held on the Cheyenne Mountain Country club polo grounds at 5 o'clock. This evening there will be a re-union of pairiotcollege, at which the speakers will be Edward B. Morgan, president of the Colorado Horticultural society: Hon, I. ### AN EXCITING RUNAWAY.

Milk Wagon Crashed Into and Made To Suffer.

There was a runaway and two smashups at 10:30 this morning, on State street north of the Knutsford hotel. A double team belonging to Miner Bros. of 70 Market street, took fright, while as it was thought, it was securely anchored at the curb, and pulled around by the weight, made a dash down and across the street in a bee line for the barber shop in the hotel. On crossng the tracks, the runaways collided with the Empire Dairy team, driven by Leonard Wheeler. Wheeler saw what was coming, and being unable to jump into the street, jumped back into the rear of his cart, saving himself from injury. His cart was smashed into a melancholy wreck, with empty milk bottles strewn over the street in fragmentary confusion.

The Miner team then dashed over towards the hotel, and would have crashed into Hackman's Schaefer's team standing at the curb, had not that Jehu been alive to the situation and waved the frightened animals off with his hat accompanied by violent gesticulations. The wagon collided with a tree, and the horses shot over the sidewalk in a heap, where they were secured, leaving the wagon top a relic of the past. M. O. Miner, the driver of the team, was immediately on the scene and drove off with the frightened animals. The driver of the dairy wagon took copious notes with reference to future claims for damages.

# CUBA WITHOUT A GOVERNMENT

FIFTY-SIXTH YEAR

Believed Outcome Will be Landing of American Forces to Restore Order.

MODERATES WILL ABDICATE.

Conservative Interests Throughout Island Welcome Idea Of Intervention.

And the Palma People, Too, Prefer It to the Success of the Liberals.

Havana, Sept. 26,-Cuba today 1 practically without a government and the landing of American forces to restore order in the island is believed to be the necessary outcome. The Moderate, or governing party, last night decided to abdicate everything in the nature of national, provincial and municipal government and thus force the hads of the American peace commissioners and compet the United States to intervene for the second time in Cuba. The Liberals, or opposition party, denounce the action of the Palma administration as treason, but the conservative interests throughout the island welcome the idea of American intervention as being the only means of securing an orderly ad. ministration of the island's affairs for any length of time. It is pointed out that even if the American commissioners succeed in establishing the Liberals in power, it would not insure peace in Cuba and, that the condition of unrest would continue indefinitely. The government officials all admit that they prefer American intervention to seeing the Liberal party in power. President Palma, at a special session of Congress, called for Friday, will formally present the resignation of himself and Vice Prestdent Mendez Cappte, but it is not certain that a quorum will be present as the Liberals decided vesterday that they might not have any further relations with the government of Cuba, also alleging unfair treatment at the hands of the American commissioners. The latter have plainly signified their disgust at the conduct of the governabandoned their efforts to restore order in the island except by the use of force. Secy, Taft has pointed out that the Cuban officials instead of co-operating with the American commissioners, have engaged in every kind of obstruction with the object of continuing their control of the government, and have rejected terms of peace proposals by the Americans which were honorable to President Palma and his advisers.

PALMA INCOMMUNICABLE

Hayana, Sept. 26.-President Plama remained in his private apartments all the morning. He permits of no op-portunity to interview him or con-municate with him by messages. His assistants say he is deeply grieved at the outcome of the revolution and there are rumors that he is reconsidering his determination to resign Nothing, however, has developed in substantiation of the report.

PALMA'S SIDE OF CASE.

Hayana, Sept 26.—The following is he text of President Palma's letter of yesterday to the American peace commissioners, Secy. Taft and Assi-secy. of State Bacon, announcing that e intends to resign the presidency and refusing the peace terms offered

'Honorable Sirs-I have the honor acknowledge the receipt of your a express in a general way your pinions and points of view, according a your own personal investigation, of Cuba, its state and the means to finish it, in order to re-establish peace and order and public quiet in the

"I could raise some objections, and prove them, to your estimate of the numbers of the armed insurgents and the sympathy to which you consider them entitled. But it is useless now to enter upon a discussion of this kind, in view of the course you have adopted

all means. It is therefore my only purpose, in courteously replying to your note, to repeat here, in brief, what I expressed me last night, namely, that I consider the conditions you understand to be necessary for the rebels to lay down their arms contrary to my personal dignity and the prestige of the government over which I preside, and that I have ccordingly taken, the irrevocable decision to present to congress my resignation of the office to which I was appointed by the will of the Cuban people at the last presidential elec-

### REBELS ARE JUBILANT.

Havana, Sept. 24.-Despite the constant rain of this week the rebels en-camped in front of Havana are today in extra fine spirits. They all appear exultant over the withdrawal of the Palma government and the possibility of American intervention did not seem tion. No one was found who would say that the rebels intended to resist an American supervision over Cuba. The most important leaders, however, regard American intervention as too delicate a subject to be discussed at presfrom the Liberal revolutionary leaders in Havana,

A correspondent of the Associated Press found Gen. Pine Guerra today at a house on a plantation just east of Arroyo Arenas, south of Havana, Guerthe resignation of President Palms and Vice President Mendez Capote, and said the president should have resigned long But in the opinion of Palma's resignation was not offered in good faith, but was only intended to demoralize the country and cause a chaotic condition in which the United States would be obliged to intervene.

The situation however, is now clearis that Cuba will never have another

It was evident from Guerra's manner
