# MINING, BUSINESS AND STOCKS

# ABATEMENT OF SMOKE NUISANCE

The Four Smelting Companies Operating in This Valley Report Progress.

## THE BINCHAM CONSOLIDATED.

Will Experiment With Plan of Cooling The Gases Before Escaping from Stacks --- At Other Plants.

A visit to the smelters south of the city will convince those in doubt that the several companies are making visible efforts towards the solution of the "smoke" problem. While there is nothing sure at the present time that the abatement of the nuisance is going to prove effectual, it can be said to the credit of the smelter owners, that they are at least putting forth a great effort to achieve results,

At the Bingham Consolidated, it was learned today, the management has decided on a device for the cooling of the gases before they reach the top of the high stacks. This plan was decided upon after a good many conferences be tween Manager McVichie and Supi. Nutting of the smelter. What Dr. Franz Meyer, the expert employed by all the local plants, reports later will have nothing to do with the plan about to be experimented with

to be experimented with.

To a "News" representative today,
Manager McVichie stated that the in-Manager MoVichie stated that the introduction of the gas cooling device was being worked out on the scientific theory that the gases, when cool, will settle. "One thing we all know," said he, "and that is this: While the gases are not they will not settle at all. We believe by cooling them before escaping from the stacks will result in at least remedying the evil to some extent, if

from the stacks will result in at least remedying the evil to some extent, if not entirely."

Capt. McVichle explained that the flue would be greatly enlarged, and in it will be placed some small wire baffles, which the captain believes will have the effect of aiding in the cooling process. The material for the new plant is being delivered, and the contract entered into with the builders provides that it must be completed not later than April 2.

ater than April 2.

At the Utah Consolidated, the construction of the \$150,000 plant, in which the spraying process is to be brought into play, is progressing rapidly. At the American Smeiting & Refining company's works progress is also being made, and the same can be said with reference to the United States smelter at Bingham, Junction.

# ON MINING EXCHANGE.

Butler-Liberal Moved Upward During The Forencon Calls. Only three stocks participated in the

forenoon sales of the Mining Exchange today, and the entire transfers only aggregated \$720.37. Butler-Liberal was the chief seller

and the stock sold up to 16 cents a share. The Daly stocks of Park City remained firm, but were in no demand. There was some call for Grand Central and \$3.05, the closing bid, was met with an offer of stock at \$3.15. Tetro weakened slightly, while Century moved forward a few points. May Day also closed stronger. The quotations and sales posted were as follows:

GREAT SIMMERONE.

Streak of Conglomerate Porphyry With Values Up to \$25,000 to the Ton. The Simmerone continues to be productive of sensational developments. The latest strike on this remarkably rich piece of territory was made a few days ago and eclipses previous exceptional finds, says the Goldfield News. In the bottom of the incline shaft, which has attained an approximate depth of 40 feet, there has come in a streak of conglomerate porphyric quartz that averages in value above \$25,000 per ton. Samples from the

Development work at present is di-Development work at present is directed to driving a crosscut from the bottom of the vertical shaft to open up the high-grade ore shoot disclosed in the incline. This will require a considerable amount of dead work, but upon its completion the mine will be in shape for regular shipments. News of the latest strike did not become public until vesterday. When it got upon lie until yesterday. When it got upon the streets it caused quite a flurry of excitement, as the remarkably rich ore shoot equis if it does not surpass any-thing disclosed in any of the bonanzas of the district.

## THE LIDA DISTRICT.

Mountains Are Covered With Prospectors at Present.

T. J. Costello, the mining contractor, according to the Goldfield News, who has been down in the Lida district during the last few days, says the out-look is most favorable for that section as, owing to the great crowd of pros-pectors now in the mountains, good finds are being made almost every day. Several men have uncovered a very Several men have uncovered a very promising copper deposit three miles south of town and, as the vein is large, it gives indications of being a good property with slight development. Large chunks of galena ore which were brought in from the Lida Belle mountain, show gold in quantities, but as the parties would not tell from what part of the mountain the remarkable ore came from, it remains for future investigation to disclose its location.

# HODSON IN GOLDFIELD.

Tells of the Work Going on at Black Butte Extension.

Butte Extension.

John T. Hodson, secretary of the Black Butte Extension Mining company, is in camp from his home in Salt Lake City, says the Goldfield News. Until identifying himself with the Goldfield district, Mr. Hodson was an extensive mine operator in Utah and Idaho. His latest and most successful enterprise having been the Lincoln mine at Pearl, Idaho, which he developed from a rather unpromising prospect to a mine that has for two years produced from \$20,000 to \$40,000 per month. Mr. Hodson recently sold his interests in the Lincoln and expects to operate extensively in properties of this district and the surrounding camps that are learning into premipence.

and the surrounding looming into prominence.
With reference to the Black Butte Extension, Mr. Hodson reports that the Extension work of the past two months has been more than encouragmonths has been more than encouraging. The company is sinking a working shaft that is opening up a strong lead of quartz. Occasionally bunches of high grade ore have been encountered but sufficient depths has not been atained to prove uniform values. However, a big body of milling ore is being exposed that will give importance to the property first as soon as mills ing exposed that will give importance to the property just as soon as mills are treating this class of product. A complete hoisting plant has been purchased and shipped and is expected in a wek or ten days. Upon its arrival it will be immediately installed and the shaft continued to every considerable depth. The property, Mr. Hodson states, is looking even better than he had been led to believe from the superintendent's reports, and has undoubtedly a promising future.

# THE MAJESTIC MINES.

No Word Has Come from Mr. Newhouse

Regarding Resumption of Work. Inquiry made at the offices of the Newhouse mines during the day elicited the information that no word has yet come from Managing Director Newhouse in regard to the resumption of operations at the Majestic mines in Beaver county. From another source it was learned that it will probably be some little time before operations be-gin again; but in the meantime the work of preparation will go forward.

# THE UTAH CONSOLIDATED.

Mine Can Earn S4 Per Share Annually On Working 2 Per Cent Copper.

Copies of the Boston financial paper containing the article which created a bear movement in the stock of the Utah Consolidated in Boston last week, reached the city in today's mails. The article in question says;
"It is said the Utah Con, smelter is

#### PRODUCE. CHICAGO.

CHICAGO.

Chicago, March 8.—General liquidation of May wheat caused a break of 2½ in the price of that delivery here teday. On active covering by shorts, however, the market railied as quickly as it had declined, but all of the early loss was not regained. The July option also was weak, owing largely to the favorable weather for the growing crop. At the opening May was unchanged to ½ lower, at 1.1½ to 1.14%, After founding 1.14%, the price suddenly dropped to 1.12% on heavy profit taking. A rally to 1.13% followed. July opened ½ lower to 1.18 higher at \$6% to 95%, sold off to \$5%, and then railied to \$64.

Cash: Wheat—No. 2, red, 1.14@1.16; No. 3, red, 1.68@1.14; No. 2, hard, 1.12@1.14; No. 2, hard, 1.12@1.13.

Corn—No. 2, 464@47; No. 3, 464@464.
Onts—No. 2, 31½; No. 3, 31½.

The market closed exceedingly weak with July at the lowest point of the day, final quotations being at 93%, a net decline of 3%. May closed with a loss of 1½ at 1.13%.

Wheat-May, 1.13@1.13; July, 93%;

Sept., 87. Corn-March, 46; May, 48; July, 48%@ 48%; Sept., 48%, Oats-May, 31%@31%; July, 33%; Sept.,

Herk-May, 12.67½; July, 12.82½. Lard-March, 6.97½; April, 6.92½; May, 2014; July, 7.174. Ribs-May, 6.95; July, 7.00@7.0214; Sept.,

Ribs—May, 6.85; July, Lwell, 1.384,
7.1714.
Rye—March, 78.
Flax—Cash, northwest, 1.384,
Timothy—March, 3.95.
Clover—March, 12.36,
Barley—Cash, 402.49.
A break of an even 3 cents in the price of wheat for July delivery occurred here today. Other options suffered almost as sharply. Excellent growing weather throughout the winter wheat section of the United States was the cause of general selling that resulted in the severe setback to prices. The close for July was at the lowest point of the day, 92%.

LONDON WOOL AUCTION.

London, March 7.—The accord series of the wool auction sales was opened today with a large number of buyers present. The offerings were 11,555 bales—a good representative selectmtion, mainly cross-breds. There was some hesitati n in the bidding, but the oeffrings were well absorbed. Merinos were taken principally by continental buyers and crossbreds by the home trade A few parcels of crossbreds were taken for America. Fine grades of crossbreds were uncha ged to 5 per cent lower and coarse crossbreds decilned 5619 per cent. LONDON WOOL AUCTION.

# MUNICIPAL ELECTION AFFECTS CHICAGO SECURITIES

Chicago, March 8.-The Tribune today says:

For the first time in the history of Chicago the values of a large amount of outstanding stocks and bonds have become dependent on the result of

become dependent on the result of a municipal election.

The question interesting the holders of securities amounting to over \$105,-000,000 is. "What is to be the price paid by the city for the street railway properties in the event of municipal ownership?" John Maynard Harlan, Republican, and Judge Edward F. Dunne, Democrat, the opopsing candidates for mayor have been asked the question.

Judge Dunne said he would pay the value of the tangible property and exvalue of the tangible property and existing franchises on a valuation to be agreed upon by arbitration if possible. If not, then condemnation proceedings would be necessary.

Mr. Harlan replied that if the exist-

Mr. Harlan replied that if the existing interests would not settle with the city on the city's terms then it would be war, with the city buying nothing from the companies, but proceeding independently of them.

The value of the \$105,000,000 and over outstanding traction stocks and bonds depends, in the event of municipal ownership on the price to be paid by the city. Neither candidate for mayor has announced what he thought ought to be the consideration over and above the tangible assets, which are, according to an expert, only \$27,000,000,

## INSURANCE CO'- MUST REFORM Must Adopt New Method of Noti-

fying Policy Holders.

Chicago, March S.—Insurance companies accustomed to using the mails, to notify their policy holders of the cancellation of policies must reform, according to a decision just rendered in the branch apellate court. The decision was in the case wherein the Potomac Insurance company sought to evade paying W. B. Atwood of De Kalf, Iil., a fire loss.

The Potomac company gave Atwood a policy covering a stock of merchandise at DeKalb. Then the company decided not to carry the risk, it being agreed five days' notice was sufficient to void the policy, and a registered letter was fying Policy Holders.

the policy, and a registered letter was sent Atwood.

The postmaster at DeKalb failed to The postmaster at DeKalb failed to deliver the letter at Atwood until the five days had expired. The next day, and before Atwood could transfer the insurance to another company, his property was destroyed. He sued the company, whose officers took the position that Atwood had been negligent in not going to the postmaster for their letter.

## UNION IRON WORKS.

First Annual Meeting of Stockholders Since Reorganization.

San Francisco, Cal., March 8.—The first annual meeting of the stockholders of the Union Iron Works since the reorganization and the final disappearance of the connection with the United States Shipbuilding company, took place today in the offices of the works in this city. The election of officers took place city. The election of officers took place

city. The election of officers took place as follows:

Robert Forsyth, representing the Schwab interest, president; George Fredericks, vice president; E. M. Mc-Ilvain, secretary and assistant treasurer, and Henry S. Snyder, treasurer and assistant secretary. These are all members of the board of directors. The other elected members of the board are bers of the board of directors. The other elected members of the board are Charles N. Champion, Hugh Blackmann and A. E. Foster. The directors are all San Francisco men with the exception of Messrs. McIlvain and Snyder, who are from Bethlehem, Pa., the headquarters of the steel plant controlled by Schwab.

# FOUR MINERS KILLED.

By Breaking of a Cable in a W.

Va. Coal Mine. Wheeling, W. Va., March 8.—By the breaking of a cable in the Shrewsburg coal mine near Charleston today four miners were killed and 10 others seriously hurt. Four of the injured will die. The men were precipitated to the base of the mountain, 1,600 feet, with lightning rapidity, frightfully crushed. Several were
