The Secretary of the Interior has rendered a decision in which he approves the map of definite location of the Northern Pacific Railway through the Rocky Mountain divis-ion, filed July 6th, 1882. The line so approved departs from the line of the general route at Galla in City, and unites with it again at Little Blackfoot. One effect of the change between this point is to shorten the

line some forty three miles. It will also have the effect to release from the land grant and restore to the public domain more than 1,000,000

acres of land.

It is estimated that the decrease of the public debt for the month of April amounts to about \$3,500,000. The smallness of the amount is accounted for by the fact that \$10,000,000 has been paid out during the month on account of pensions.

The Comptroller of the Currency has authorized the following banks to begin business: Los Angeles National Bank, Los Angeles, Cal., capital, \$100,000; Ennis National Bank, Ennis, Texas, capital, \$100,000; First National Bank of Decatur, Texas, capital, \$50,000. During the month of April, thirty-nine National banks were organized.

An advertisement of the Navy Department for proposals to build the new steam crokers will appear in the New York, Boston, Phisadelphia and Baltimore papers next Tuesday, Proposals will be received either from American ship builders whose ship yards are already continued for building or remaining ers whose ship yards are already equipped for building or repairing iron or steel ships, or from construc-tors of marine engines, machinery and bollers. Satisfactory evidence that bidders are such builders or

constructors must accompany the proposals or be submitted to the Dopartment in advance. The act of August 2nd, 1882, making appropriations for the construction, repair and preservation of certain works on rivers and harbors, tain works on rivers and harbore, and for other purposes, known as the river and harbor bill, provided for the expenditure of \$7,888,750 upon 432 separate works of improvement. The plans of the angineers have been approved by Secretary Lincoln, and the works ordered in all but nine cases, in which the appropriations aggregate \$319,000. The principal items of this are \$210,000 for the improvement and protection of the navigable channels of the Sacramento and Feather Rivers.

Sacramento and Feather Rivers. Secretary Lincoln declines to authorize the expenditure of the \$210,-000 included in the first item, be-cause the improvement and protec-tion of the channels of these rivers, tion of the channels of these rivers, by erection of restraining barriers upon the Yuba, American and Bear Rivers, tributaries of the Sacramento and Feather, to hold back the flow of detritus caused by hydraulic mining would involve the expenditure within the next eight years of a million and a half of dollars, with doubtful results, and would at best prove but a partial remedy if hydraulic mining should continue.

made at present. Deputy Commissioner Rogers is acting as Commissioner to-day, and will continue inthat capacity until an appointment is made.

The Secretary of War said to-night that the orders sent General Crook on Saturday directing him to

Crook on Saturday directing him to be careful to observe the convention with Mexico in relation to crossing the border by United States troops, were issued because of reports of General Crook's intention to make a raid across the Mexican line for the purpose of dislodging the band of hostile Apaches from Arizma. An agreement with the Mexican government, made in August last, while it permitted troops of either country to cross the border in pursuit of a flying band of marauding Indians, flying band of marauding Indians, did not, he said, admit of their remaining for the purpose of beginning raids on resident Indians, or their crossing for that purpose, as newspaper reports said Gen. Crook contemplated doing. Consent under such circumstances could only be granted by the Mexican Senate.

under such circumstances could only be granted by the Mexican Senate, and pending negotiations to obtain such consent, he deemed it prudent to suggest to Gen. Crook to keep within the limits of the present agreement. He said the War Department was notified to day that the telegram sent on Saturday had been forwarded to Gen. Crook in the field.

Proceedings are to be commenced at once by the District authorities against the Washington Gas Company for not lighting the city according to contract. The act of 1874, under which the company supplies gas to the city, provides that the gas shall be of 16-candle power, and shall not contain more than 20 grains of sulphur or more than 5 grains of ammonis in any form in 100 cubic feet. The penalty for violation of any one of these provisions is \$100 fine for every day of violation. The inspector of gas and meters having reported that on several occasions the law had been violated, a suit to recover the penalty has been begun in court.

in view of the fact that yourspret tracted absence from Washington to engineer the nomination and badly wounded, the former fatally. Houses, fences and everything mov-able in the track of the storm were

tracted absence from Washington to engineer the nomination and election of a gutternatorial candidate resulted in the repudiation of your nomines and the election of a democratic governor for the first time in the political history of the State.

The excuse you gave for dragging your official robes through the seed your official robes through the seed of the administration, and yet the administration was in nowise in guestion. The harvest of your campaign in Colorado in a so-called degree of the administration, yielded a democratic governor, a democratic Senator from your own county, and the United States. I am reminded at last after the meeting of the republican State convention in September last, it was patent in Desprey for the guternatorial nomination in favor of your friend Campbell, in consilieration of pledges that he ahoufd reviews an important Federal position. Halyou candidly stated this fact to the President, explaining that the removal of Johnson and the appointment of Mesedum were consequent upon a political bargain, it woulf have been at least truthru and manly.

Pending the first session of the Forty-seventh Congress, who say the first session of the Forty-seventh Congress, who say the first session of the Forty-seventh Congress, who say the first session of the Forty-seventh Congress, who say the first session of the Forty-seventh Congress, who say the first session of the Forty-seventh Congress, who say the first session of the Forty-seventh Congress, who say the first session of the Forty-seventh Congress, who say the first session of the Forty-seventh Congress, who say the first the first session of the Forty-seventh Congress, who say the first the first session of the Forty-seventh Congress, who say the first the first session of the Forty-seventh Congress, who say the first the first session of the Forty-seventh Congress, who say the first the first session of the fi WASHINGTON, 30. — Depositions will be lodged in the cases of five more alleged murderers. Secret negotiations are now pending between the British and American Govern-

and manly the first session of the Forty-seventh Congress, when 800 or more clerical positions in the Pension Office were to be filled, you not relative among the coal miners, tifled republican Senators and Representatives that two places each miners claim the strike will be genwere at their command. After eral and that about 6,000 men will

were at their command. After these appointments had been disposed of, you awarded a large proportion of several hundred remaining clerkships to the opposing political party. Of five timber agents appointed by you from Colorado, one is a defaulter at the Post Office Department, against whom the government has obtained an uncollectable judgment of \$5,400, and yet he is permitted to draw his salary in violation of the express statute to the contrary. Another of these appointees had been previously removed from the railway mail service for gross neg. railway mail service for gross negwere fully advised. The activity of Mrs. Etta G. Cariton, was burned; some of these persons during the late incendiary. campaign strongly suggests that

they are more earnestly at work in furthering your political schemes than in suppressing timber depiedations.

N. II. Eddy, of Summit County, Colorado, appointed special Assistant U. S. Attorney for New Mexico, and the appointment of Peck as traveling examiner or agent for the pension office, are cited as cases in point. Of like purport was your action in the case of Wilcox whom you sought to inflict on the people of Colorado as United States Marshall, notwithstanding there were arrested here to day for violating the excise law.
