

SEVENTY-THREE  
PERISHED AT SEA

That Number of Walla Walla Passengers Not Accounted For.

## REVISED LIST OF THE DEAD.

Two Rafts Still on the Ocean—French Bark Unidentified and May Have Gone Down.

San Francisco, Jan. 4.—It is not yet known how many persons perished in the wreck of the steamer Walla Walla, which was run into and sunk by the unknown French bark off Cape Mendocino. The most conservative statement places the number of dead at 73 and includes 25 in the list of missing. Another estimate is that no less than 75 persons are yet unaccounted for. Those believed to be dead are:

Mrs. Herman Kotschmar, wife of Lieut. Kotschmar.  
Mrs. M. Keynolds, stewardess.  
Mrs. H. Erickson and three children.  
Louis H. Drury of San Francisco.  
E. J. Nutman, purser.  
William Hertel, fireman.  
John Wilson, also known as Hans P. Anderson, quartermaster.  
The list of missing, whose fate is still in doubt, includes the following:  
H. Erickson, laborer.  
Dr. B. F. Allen and wife.  
J. L. Field.  
J. A. Gray.  
Chas. Neff of Seattle.  
W. D. Jones.  
D. Jones.  
J. Brown.  
F. Demar.  
C. Gleason.  
M. C. Marsh.  
G. Nicholson.  
M. Handman.  
Chief Officer Peter Nilson.  
Second Mate Frederick Lupp.  
Third Mate John Hughes.  
Fourth Mate Cecil Brown.  
Chief Engineer Geo. H. Crosby.  
Second Assistant Engineer B. F. Potter.  
Steward John Connell.  
Boatswain A. Holmes.  
E. Nelson.  
M. Haare.  
J. Rooney.  
M. Callaghan.  
Santiago Mariello, pantryman.  
Frank Brandon, porter.  
John Snel.  
F. Sauter.  
Frank Rhode, waiter.  
Edgar Ross, waiter.  
J. Holway.  
J. O. Johnson.  
Geo. Morrison.

There are still on the ocean, so far as known, two rafts. If either of these has been picked up, the number of supposed victims will be materially decreased. Sixty-two of the passengers and crew were picked up and landed at Eureka by the steamer schooner Dispatch; twenty-three survivors drifted ashore near Trinidad and seventeen others were rescued by the tug Ranger, Capt. Hall, who went down with the vessel, but came to the surface and was saved, thinks that some of the missing may be heard from. The fact that the bark which caused the disaster did not stand by to aid the Walla Walla indicates to seafaring men that she must have been seriously disabled. If indeed she remains afloat, her identity is not known, nor is it likely to be determined for some time as there are several French vessels answering her description now off the Pacific coast. Shipping men figure out that most likely the bark was the Ernest Legouve, 55 days on from Hobart, Tasmania, for Portland.

The bark Les Adelphes, 81 days from Madagascar today and the Duquesne, 125 days on from Nantes; the Europe, bound for England with a cargo of wheat and the Francois Coppee which left Astoria on December 25, for Cork, are also mentioned by mariners in the connection. The revenue cutter McCulloch has been dispatched to the scene of the wreck and is expected besides searching for and aiding the missing survivors, to ascertain all possible facts concerning the vessel which caused the wreck.

Of the six life rafts launched by the Walla Walla after the boats had been filled, three and a portion of another were found and their occupants rescued by the schooner Dispatch.

By one little raft of life craft, hard battles for life were fought. One was, half the time, two feet under water. On another a man went mad. His mania took the form of attempt of self-destruction. His companions kept him from drowning himself. They cannot tell now, in such a set on such a raft, they saved their own lives. Yet they saved them at the life of the mad man too. Another raft had ten and

## Dyspepsia

What's the use of a good cook if there's a bad stomach, —a stomach too weak properly to digest what is taken into it?

The owner of such a stomach experiences distress after eating, nausea between meals, and is troubled with belching and fits of nervous headache —he's dyspeptic and miserable.

"I have been troubled with dyspepsia and have suffered almost everything. I have tried many different remedies, but could get no relief until I began taking Hood's Sarsaparilla. After the use of this medicine I could eat without distress, and today I am as well as ever, but I always keep Hood's Sarsaparilla on hand." Mrs. J. A. CROWLEY, Canajoharie, N. Y.

"My stomach was weak. Reading how much good Hood's Sarsaparilla had done other people, I was encouraged to try it. My stomach soon grew stronger and now I can eat almost anything. My husband and I take Hood's for our blood in spring with good results." Mrs. A. J. GREELEY, East North Yarmouth, Me.

**Hood's Sarsaparilla and Pills**  
Curedyspepsia, strengthen and tone all the digestive organs, and build up the whole system.

## Hard Colds

Hard colds nearly always lead to something serious. They run into chronic bronchitis, pneumonia, consumption. Doctors know this. That's why they so generally approve of Ayer's Cherry Pectoral. They tell us they cannot prescribe anything that cures coughs so quickly.

"Ayer's Cherry Pectoral cured my daughter of a very bad cough after we had tried about everything else without relief."—E. B. Davis, Providence, R. I. 25c, 50c, \$1.00. J. C. AYER & CO., Lowell, Mass.

every one was saved. The man who was driven temporarily insane was Freeman Andrew Addigo, who attempted to end his life by jumping into the sea, but was restrained by his companions in misery.

The following named persons reached Trinidad in safety, after a most perilous trip in one of the boats:  
M. C. Moorehouse, stationary engineer, of Seattle.  
H. S. Marshall, chief clerk of Walla Walla.  
W. T. Smith, passenger of Los Angeles.

William Sheehan, fireman, of San Francisco.  
J. McCullum, ship hand, of San Francisco.  
William O'Leary, sailor, of San Francisco.

Chas. Brown, third assistant engineer of San Francisco.  
A. Spear.  
R. McKee.  
Fred McClement.  
H. Katschmar, Jr.  
O. Swanson.  
Dan Larson.  
Chas. Dawson, passenger.  
E. Alexander, coal hand.  
A. Johnson, messman.

H. H. Weaver, a passenger was badly hurt and is not expected to live. The people of Trinidad had not learned of the calamity and the appearance of the haggard and worn-out survivors, as well as their tales of perils and sufferings came as a shock to the people of that section and they received them with open hands.

One of the survivors, William O'Leary says that the boat saw the unknown French bark and came within 300 yards of it, but could not attract the attention of any one on board.

**Causes of Crisis in China.**  
New York, Jan. 4.—Rev. Poon Chew, editor of a San Francisco newspaper, in a lecture at the Fifth Avenue Presbyterian church spoke as follows in regard to the causes leading up to the recent crisis in China.

"Among the causes may be mentioned the traffic in opium. The Chinese will not forget how opium came to them, nor the opium war of 1839. Another thing is the method of the treatment of the Chinese by foreigners. They teach us that right is right. What right has England or Russia, or France or Germany to take portions of China? They would not treat America so. If Russia should demand the territorial city of New York because a Russian got killed by a train in America, you wouldn't like it. However, the Chinese feel that America is a friend to China, notwithstanding the exclusion laws. When President McKinley was shot it sent a thrill through all China. The people of Shanghai are collecting money and will raise the first memorial to President McKinley."

**Interests to be Incorporated.**  
Seattle, Wash., Jan. 4.—The Lindberg-Lindholm interests at Now, which are many of the richest claims, will be incorporated in a company with a capital of five million dollars. The concern is backed by Swedish capital. Both principals are now in Seattle and today received a cable request from a stockholder asking for permission to place one million dollars of stock.

**Oil in Southern Montana.**  
Dillon, Mont., Jan. 4.—The Montana Oil & Fuel company yesterday encountered oil-bearing stratum at the two hundred foot depth. Heavy lubricant oil was being struck.

This is the first discovery of oil to be made in southern Montana.

**Ex Premier Parker Married.**  
San Francisco, Cal., Jan. 4.—Samuel Parker, formerly premier and minister of foreign affairs of Hawaii, has been married to Mrs. Abigail Campbell of San Jose, widow of the millionaire planter, James Campbell, the engagement of whose daughter, Abbie, to Prince Kawananakoa, was recently announced. The wedding was private, the ceremony being performed at the Occident hotel by Superior Judge Hubbard. The marriage followed by a dinner.

**Fritz Lintzenger Withdraws.**  
New York, Jan. 4.—Fritz Lintzenger, Independent Democratic candidate for representative of the seventh district, has withdrawn from the contest and he has issued a statement asking his followers to vote for Perry Belmont, who has been declared by Judge Scott of the supreme court the regular Democratic nominee.

**Chas. T. Crocker in New York.**  
New York, Jan. 4.—Charles Templeton Crocker, of San Francisco, who has been under treatment for fracture of both legs, since Sept. 14 last, the result of a runaway accident in California, has been here to be placed under the care of Dr. Charles F. McBurney. He made the journey in a special car in company with his physician, Dr. Keverley McGonigal, and several nurses and attendants. At the home of his sister, Mrs. Francis Burton Harris, it is said that he had sustained no ill effects from his long trip. Charles Templeton Crocker, who is 15 years of age, is the son of the late Charles F. Crocker, the California millionaire.

**N. J. Sons of the Revolution.**  
New York, Jan. 4.—At the thirteenth annual meeting of the New Jersey Society of the Sons of the American Revolution, held at Newark, N. J., on the 125th anniversary of the battle of Princeton, President John Whitehead in his annual address suggested that a memorial be erected in Morristown, to mark the place where Gen. Washington stopped with his army and a monument at the grave of Gen. Mercer at Trenton. Gen. James P. Rutledge of Trenton, a member of the Princeton monument committee, said Franklin Murphy had promised him that if elected governor of New Jersey he would see that the monument was built. Resolutions were adopted congratulating Mr. Murphy, who is a member of the organization upon his election. A resolution was also adopted requesting the senators and representatives in Washington to "pass some law to prevent the desecration of the flag by its use for advertising and similar purposes."

**Labor Dispute Decision to be Given.**  
New York, Jan. 4.—After a hearing in this city before Bernard Stark, a member of the state board of arbitration in the matter of the labor dispute between the matter of Gardiner, shoe manufacturers of Brooklyn and the employees of the firm, it was announced that a decision would be given out next Monday or Tuesday.

The disagreement between employers and employees grew out of an adjustment of wages consequent upon the introduction of the new machinery. Both sides a year ago gave bonds to submit to the results of arbitration in case of a failure to agree and at the hearing it was stated that they had signed a supplementary agreement to abide by Mr. Stark's decision no matter what it might be. This is said to be the first instance in this section where employers and employees have voluntarily bound themselves to abide by the decision of an arbitrator or forfeit a sum of money.

**Arrested for Having a Pet Fawn.**  
Chicago, Jan. 4.—Because Mrs. H. F. Good possesses a pet fawn, which was given to her last June as a wedding present, she was arrested on complaint of game warden Geo. Birmingham and charged with violating the state game laws.

Mrs. Good had a hearing before Justice Quinn and was given the alternative of either killing the animal or securing permission from the proper authorities to ship it out of the state. She probably will be sent to Pennsylvania to the farm of Mrs. Good's father.

Mrs. Good is the daughter of the late Col. John R. Hoxie, former president of the Union Stock Yards and Transit Co.

**Atlantic Rubber Shoe Co. Election.**  
New York, Jan. 4.—The Atlantic Rubber Shoe Co., which was recently incorporated under the laws of New Jersey, with a capital of \$10,000,000, has elected the following officers: Joseph Oliver Stokes, president; W. J. B. Stokes, treasurer; E. N. White, vice president; Francis C. Lowther, secretary; Henry C. Dowdy, manager.

The following directors were elected with the officers named: Henry Rogers of Boston and William Hotchkiss of East Orange, N. J. It was decided at the meeting that the plant for the manufacture of rubber shoes should be located in Trenton, N. J.

**Pope Makes Anne Leary a Countess.**  
New York, Jan. 4.—Miss Anne Leary of this city has just received word from Rome that the pope has conferred upon her the title of countess. Miss Leary built the chapel at Bellevue hospital and established the Arthur Leary chair of English literature in the Loyola school.

**No International Bank.**  
New York, Jan. 4.—Private dispatches from Chicago, saying that Secy. Gage will now organize an international bank in this city upon his retirement from the cabinet, are denied by Frank A. Vanderbilt, whose name had been mentioned in connection with the alleged project, says the Tribune.

## ALICE ROOSEVELT'S DEBUT

The President's Eldest Daughter Presented to the Washington Society.

Ball in Her Honor Given at the White House—Five Hundred Guests Were Present.

Washington, Jan. 3.—Miss Alice Roosevelt, eldest daughter of President and Mrs. Roosevelt, was formally presented to Washington society tonight at a ball given in her honor at the White House. About 500 guests in all were present, many of whom were either connections of the Roosevelt family or well known society people living outside of Washington. Miss Roosevelt is the first White House debutante since 1875, when Miss Nellie Grant, the daughter of President and Mrs. Grant, was presented to society at a ball, which was the gayest social event of the decade.

Tonight's entertainment was given a personal rather than an informal character by Mrs. Roosevelt, whose wish was that Miss Roosevelt should make her debut much as though it had taken place in her own private house, rather than in the White House. There was no cotillion, and consequently no favors.

When the ball was opened tonight the interior of the White House was most attractive. Never before have the formal decorations been more beautiful. The massive mirrors, chandeliers, columns and ceiling of the east room where the dancing occurred, were festooned and garlanded with smiles, maidenhair fern and asparagus trimmed with bouquets of carnations. More than a mile of green festooning was used in this way. The window recesses were filled with mistle rising out of banks of variegated foliage. The mantels were banked with roses and azaleas set in tropical cretons, and crowned above with screw pines. English holly was used in special places in the decorations. The red, green and blue parkers were adorned in the same lavish style.

When the guests arrived at the White House they were conducted to the blue parlor, where the presentation were made. Mrs. Roosevelt introducing her daughter. The latter presented a charming appearance in a dress of white chiffon with white roses, and wearing the jewels which her father gave her at Christmas. Mrs. Roosevelt gave her pure white, with white lace and trimmed with lilac orchids. Miss Helen Roosevelt, a cousin of the President, and who also was of the immediate party of the hostess were with Miss Roosevelt, and Miss Cutler.

A buffet luncheon was served in the banquet room, where the decorations were very much the same as at the cabinet dinner last night. The large east room, the scene of so many brilliant functions of the past. The golden carpet on the floor of that room was removed yesterday, and a handsome figured gray linen crash put down. The room was brightly lighted, and the number of dances kept the company until midnight.

The marine band, under the leadership of Lieut. Santelmann, and the artillery corps band from Washington barracks, alternated in furnishing the music.

A buffet luncheon was served in the banquet room, where the decorations were very much the same as at the cabinet dinner last night. The large east room, the scene of so many brilliant functions of the past. The golden carpet on the floor of that room was removed yesterday, and a handsome figured gray linen crash put down. The room was brightly lighted, and the number of dances kept the company until midnight.

The marine band, under the leadership of Lieut. Santelmann, and the artillery corps band from Washington barracks, alternated in furnishing the music.

**Iowans to Colonize Isle of Pines.**  
New Orleans, La., Jan. 4.—T. J. James of Fairfield, Iowa, passed through here enroute to the Isle of Pines, just south of Cuba, which has been reserved by the United States.

James goes there to make arrangements for the extensive colonization of the island by the farmers from Iowa, Illinois and other western states. A large body of land has been acquired in the island by a company incorporated under the laws of Iowa. Thirteen families from the town of Spirit Lake, Iowa, are already settled there and are well pleased with the country. Their letters home have been so satisfactory as to prompt a large emigration there.

Mr. James goes to the island to put the lands in condition to receive the emigrants.

**Chief Clerk Freeman Missing.**  
New York, Jan. 4.—Charles Freeman, chief clerk of the postoffice at New Rochelle, N. Y., in missing and his friends fear that something has happened to him to prevent his return. There is a slight discrepancy in his accounts, but his father-in-law, Postmaster Abram Montfort of Larchmont, N. Y., has promised to make good any short-comings which may develop during the absence of the missing man.

**NORTHWESTERN UNIVERSITY.**  
**Women's Medical College Buildings Are to be Sold.**  
Chicago, Jan. 4.—The business agent of the Northwestern university is negotiating for the sale of the building and grounds of the woman's college of medicine with a view to abandoning that institution.

Trustee James H. Raymond said of the abandonment of the college: "It is impossible to make a doctor of a woman. Women cannot grasp the chemical and pharmaceutical laboratory work, the intricacies of surgery, or the minute details of the most important medical department we do not get a high class of scholarship as is set by the other colleges of the Northwestern university."

Dr. Frances Dickinson, Dr. Julia Holmes, Dr. Sarah Hackett Stevenson and others were astonished at the attitude of Trustee Raymond and expressed themselves in vigorous terms.

Dr. Smith said: "I should like to make names for the women who have made names for themselves as women physicians. For instance, there was Marie Josepha Meigier, lately deceased who was at the head of that institution. She was a brilliant woman and far beyond the profession in her day. I will deny that there is Dr. Sarah Hackett Stevenson here in Chicago and many others in the public eye whom I need not mention."

"The trouble with that school was that it did not have enough application from women. Women who are seriously considering entering the profession most often prefer to enter a co-educational school that gives them the same opportunities for gains as well as knowledge and skill as the men have. Women like to go to schools where they are respected as entities—not as a rare 'half' or as a sex. I think that out to the west side women's colleges enough recognition was not given to them. I mean that they were not placed on the faculty when there were both reason and opportunity."

Dr. Smith also said she thought the training of students for "missionary doctors" did affect the institutions property.

**A LITTLE THING**  
Changes the Home Feeling.  
Coffee blots out the sunshine from many a home by making the mother, or some other member of the household, dyspeptic, nervous, irritable. There are thousands of cases where the proof is absolutely undeniable. Here is one.

"Mrs. C. K. Langelier, Antigo, Wis., says: 'I was taught to drink coffee at an early age, and also at an early age I became a victim to headaches, and as I grew to womanhood these headaches became a part of me, as I was scarcely ever free from one.'

About five years ago a friend urged me to try Postum Coffee. I made the trial and the result was so satisfactory that we have used it ever since. My husband and little daughter were subject to bilious attacks, but they have both been entirely free from them since we began using Postum instead of coffee. I no longer have any headaches and my health is perfect."

If some of these nervous, tired, irritable women would only leave off coffee absolutely and try Postum Coffee, they would find a wonderful change in their life. It would then be filled with sunshine and happiness rather than weariness and discontent. And think what an effect it would have on the family, for the mother is the mother is largely responsible for the temper of the children."

**EMPEROR WILLIAMS' YACHT.**  
Interesting Facts About the One Building in America.  
New York, Jan. 4.—The Tribune publishes the following facts concerning the German Emperor's yacht which is expected Miss Alice Roosevelt will christen at the request of the Kaiser:

"The yacht is being built by the Townsend & Downey Ship Building Co. from designs by Cary Smith & Barney. It is almost plated, and it is hoped that she will be launched the early part of February. She will be the largest schooner yacht afloat, the architects say, displacing 100 tons, 160 feet over all with a beam of 27 feet. With awnings set and curtains at the side, there

will be ample room on deck to give a ball.

To carry out the emperor's commands her finish throughout will be plain, yet substantial. All her deck work, such as the deck house, skylights and rail, will be of selected teak wood and all capstans, winches, etc., of bronze. Aft is a deck house of steel casued with teak. This is a bathroom on the starboard side, opening directly from the ladies' cabin. Opening from the passage leading from the vestibule to the saloon are three state rooms and a bath room for gentlemen in waiting. The owner's room is on the starboard side, just aft of the saloon. It is a large one, being about 13 feet long. It contains a brass bedstead, several wardrobes, dressing table and writing desk. The room has a large skylight, in fact, it is a feature of the yacht that every room is ventilated not only by daylight through the side in the usual manner, but also by means of skylights. The state rooms are few in number, but of large size. The main saloon extends the whole width of the boat and is 18 feet long. There is a transom on each side, a piano at the after end, while there is an open fireplace at the forward end. The large dining table in the center will seat 24 persons.

Throughout the owner's quarters the woodwork will be mahogany embellished with ivory, touched up with gold, with only a small amount of the trim showing the natural wood, thus carrying out the emperor's idea of simplicity. Forward of the saloon are a large owner's gallery and an entirely separate galley for the officers and crew.

The emperor is taking an extreme interest in his yacht, and has given detailed orders as to how she is to be fitted below. All questions relating to the design, rig and outfit have, however, been left entirely to Messrs. Cary, Smith & Barney.

**A New Light Invented.**  
New York, Jan. 4.—It is announced, according to the Herald, that Peter Cooper Hewitt, the grandson of the philanthropist and millionaire, has invented a new light which in some ways revolutionizes illumination methods. Briefly stated, the illuminant is the perfection of the high power electrical gas or vapor lamp, which until now has existed more in theory than in practice.

**PANAMA CANAL CO.**  
Will Make Offer of Their Property to the United States.  
New York, Jan. 4.—Information from a trustworthy financial source has reached the Paris correspondent of the Tribune to the effect that the board of directors of the Panama company, yesterday definitely adopted one of the alternative solutions submitted by M. Baunau Verillia—namely, to offer for sale the property and franchises of the Panama company at the price named by the Isthmian commission, \$10,000,000.

Today (Saturday) a special meeting of the board will be held to draw up cable instructions embodying the above offer, which will be immediately transmitted to the representative of the company in Washington. This form of offer will be officially communicated to the United States government Saturday evening or Monday morning.

CATARRH ABSOLUTELY  
—AND—  
PERMANENTLY CURED

POSITIVE EVIDENCE FROM THE LIPS OF A WELL KNOWN GENTLEMAN THAT DR. SHORES' CURED PATIENTS STAY CURED.

MR. J. H. HERR, WEST JORDAN, UTAH.

A YOUNG MAN WELL KNOWN ALL OVER THE SALT LAKE VALLEY—WHO HAS SERVED TWENTY-TWO MONTHS IN THE MISSIONARY FIELD, WAS CURED BY DR. SHORES' SHORES' OF A TERRIBLE CASE OF CATARRH IN AUGUST, 1900—OVER 15 MONTHS AGO—AND HAS NOT HAD A SIGN OR SYMPTOM OF THE DISEASE SINCE.

READ HIS WONDERFUL TESTIMONY, WHICH PROVES BEYOND THE QUESTION OF A DOUBT THAT DR. SHORES' SHORES, CAN AND DO CURE CATARRH AND CHRONIC DISEASES ABSOLUTELY AND PERMANENTLY.

J. H. HERR, West Jordan, Utah.

Mr. Herr, says: "When I returned from my mission, about 18 months ago, I suffered from what I considered the worst case of Catarrh a man could possibly have. I have seen many other cases but none that compared with mine. I could hardly smell kerosene, I could not tell one food from another by smell, I blew scabs out of my nose two inches long. I could hardly speak at times, had constant colds, with head stopped up and generally felt sick and run down. I had about given up hope of a cure until I went to our Home Doctors, Drs. Shores & Shores.

I want to say right here, that had as my case was, Drs. Shores handled it like Masters, and gave me my first relief in years. In a very few weeks I felt all right, all my old symptoms left me. My head got clear as a bell. My smell came back, I began to pick up weight and to all outward appearances I was cured. I spoke of this splendid work to my friends from time to time, but I WANTED TO SEE IF THE CURE WAS PERMANENT so I have waited now over fifteen months, and FIND NO RETURN OF MY TROUBLE, but on the contrary I never felt better in my life. I have no trace of Catarrh, I weigh more than I ever did, have good appetite, sleep well, and feel like a perfectly sound and healthy man, and I have concluded there is no doubt about my cure being ABSOLUTELY PERMANENT AND COMPLETE, and I want to say to all my friends, and to all sick people that Drs. Shores are EXPERTS, they understand Chronic diseases and cure their patients, and I heartily recommend them and shall personally advise all sufferers who may come under my notice to go to these Wonderful Doctors and be cured. I especially invite any one who is interested in my statement and any who may doubt it in the least to write me or call on me in person and I will prove the truth of my every statement to their satisfaction, for I consider it a Christian duty to tell my experience for the benefit of other despondent sufferers."

"Signed,"

"J. H. HERR."

## ALL DISEASES.

Drs. Shores not only cure Catarrh, but they cure Nervous Diseases, Kidney Diseases, Bladder Troubles, Heart Diseases, Diseases of the Stomach and Bowels, Piles, Flatula, and Rectal Diseases, Female Complaints, Diseases of Women and Children, Rickets, Spinal Trouble, Skin Diseases, Deafness, Asthma, Bronchial and Lung Diseases, Scrofula and all forms of Nervous and Chronic Diseases that are curable.

Drs. Shores & Shores' low fees and easy terms bring their services within the easy reach of all. Call or write.

## HOME TREATMENT.

No one deprived of the benefits of Drs. Shores' skill because of living at distance from the office. The same wonderful and uniform success attending the treatment of Drs. Shores in their office is found in their HOME TREATMENT OF PATIENTS BY MAIL. By the use of a symptom blank they are able to diagnose cases and prescribe for them, and by their reports keep a close watch upon them. Patients living in the country may enjoy the benefits of Drs. Shores' skill as well as those in the city. WRITE FOR SYMPTOM BLANK and have your case diagnosed free.

## Drs. Shores &amp; Shores,

SPECIALISTS.

Lyon Block, 56 West Second South,

Salt Lake City.

OFFICE HOURS—Week days, 9 a. m. to 4 p. m. Evenings, 7 to 8 p. m. Sundays and holidays, 10 a. m. to 12 noon.

The state rooms are few in number, but of large size. The main saloon extends the whole width of the boat and is 18 feet long. There is a transom on each side, a piano at the after end, while there is an open fireplace at the forward end. The large dining table in the center will seat 24 persons.

Throughout the owner's quarters the woodwork will be mahogany embellished with ivory, touched up with gold, with only a small amount of the trim showing the natural wood, thus carrying out the emperor's idea of simplicity. Forward of the saloon are a large owner's gallery and an entirely separate galley for the officers and crew.

The emperor is taking an extreme interest in his yacht, and has given detailed orders as to how she is to be fitted below. All questions relating to the design, rig and outfit have, however, been left entirely to Messrs. Cary, Smith & Barney.

**A New Light Invented.**  
New York, Jan. 4.—It is announced, according to the Herald, that Peter Cooper Hewitt, the grandson of the philanthropist and millionaire, has invented a new light which in some ways revolutionizes illumination methods. Briefly stated, the illuminant is the perfection of the high power electrical gas or vapor lamp, which until now has existed more in theory than in practice.

**PANAMA CANAL CO.**  
Will Make Offer of Their Property to the United States.  
New York, Jan. 4.—Information from a trustworthy financial source has reached the Paris correspondent of the Tribune to the effect that the board of directors of the Panama company, yesterday definitely adopted one of the alternative solutions submitted by M. Baunau Verillia—namely, to offer for sale the property and franchises of the Panama company at the price named by the Isthmian commission, \$10,000,000.

Today (Saturday) a special meeting of the board will be held to draw up cable instructions embodying the above offer, which will be immediately transmitted to the representative of the company in Washington. This form of offer will be officially communicated to the United States government Saturday evening or Monday morning.
