Gov. Ford's Testimony Relating to the Carthage Tragedy—Anarchistic Conditions Prevailing—Sheriffs, Justices of the Peace and Constables Elected by Horsethieves and Counterfeitsers.

EDITOR DESERET NEWS—I have read, with more than ordinary interest, a controversy between your paper and the Salt Lake Tribune about the "Moral character of the martyred founders of the Church."

One of the peculiar features of the controversy is that the Tribune seems to be trying hard to establish as a fact that the Prophet Joseph, prior to May 4, 1844, did receive the revelation in regard to plural marriage, as printed in the Doctrine and Covenants today.

After describing in detail the terrible conditions suggested above, the formation of the "garrison" which also "set all law at defiance," is related several stories of mob work, including the destruction of an abolition press at Alton, Illinois, belonging to the Rev. Clifford P. Lovejoy, who had been "expelled from St. Louis," his press destroyed at that city, and twice later at Alton.

The leaders, including the prophet, being arrested, were tried before a court for treason. But Gen. Doniphan, being a sound lawyer and a man of sense, knowing that such a proceeding was utterly unconstitutional and wholly unwarranted, and being remonstrating against this arbitrary mode of trial and punishment, saved the lives of the prisoners.

USED THEIR RIGHTS. The governor of Missouri was making almost constant demands for the delivery of the prophet and other leaders.

THE SITUATION OF NAUVOO HAS ITS counterpart in the attitude of the Church leaders and the condition of their followers today. Crime, debauchery, and black treason are rampant within the polygamist cult, and it is time to demand reformation.

John" so I shall refer to these noble patriots just quoted as "Expatriated Americans." They were driven away and returned, found that the mob had ransacked their homes and had even stolen the cash and deeds from some houses.
