

# LOCAL TRADERS' LOOSELY LOOK

Financial Conditions Possibly Better in Utah Than Elsewhere in the Union.

## NO SCARE ON PROHIBITION.

Really Man Receives Wires Requesting Business Locations When the Saloons are Vacated.

The financial local outlook continues to be good, although somewhat dull, and there is nothing to cause any uneasiness in the popular mind. It is perhaps true that conditions here are as good, if not better than those in any other state in the Union. J. C. Cutler, Jr.'s weekly local letter says: Business conditions here are better than they are in the east, and this year should see much improvement in nearly all lines of trade. The institutions that have been built up by the people of Utah are like the "house that was built upon the rock"—solid, as a rule, and have good reserves, so that when the "storms" of depression come the business houses are able to weather them. The good people of the east are beginning to find this out and are sending money here for investment, and many people will come here as time goes on and bring their means and live in fair Utah, "The Queen of the West."

On the commercial stock and bond market the main feature of the week was the interest manifested at the meeting of the Consolidated Wagon & Machine Co., when after considerable discussion, it was unanimously decided to help enlarge the company's operations by increasing the capital stock from \$1,500,000 to \$2,500,000. The new stock of \$1,000,000 will only be issued gradually. It was also decided to retire the common stock for preferred, by common stock paying \$5.00 per share. The report of the directors showed the company to be in excellent condition. Dividends of 8 per cent payable 2 per cent quarterly, for the coming year have been declared.

The splendid run that the Utah-Tahoe Sugar Co. has had and the heavy production of sugar caused the price of the preferred stock to advance in price and sales were made at \$4.80 and \$5.00 per share. The Amalgamated Sugar Co. also had a good season and both common and preferred stocks show advances. The common advance is paying 8 per cent and the preferred 10 per cent. All the \$100,000 worth of 6 per cent bonds of the Utah County Light & Power Co. have been sold and this institution is prospering and paying 8 per cent on its preferred stock. The last report of the Home Fire Insurance Co. shows a large reserve.

The banks of our city are doing well and there was not one failure during the week. The banks and other institutions scattered throughout the state show good reports.

**BETTER CONDITIONS.**  
In outside matters, things are moving conservatively, yet surely toward better conditions. Mr. Gompers claims there are 2,000,000 men out of work in the United States, and other authorities place the figure even higher. Doubt is expressed in the Salt Lake banks of the accuracy of this statement, although there is no doubt that there are many unemployed. One of the most interesting events of the week is a statement giving the detailed account of the operations of the City National Bank of New York in its new quarters. It is claimed that this is now the largest bank in the world, distancing even "The Old Lady of Threadneedle Street," viceroy of the Bank of England, as well as even the Bank of France. Salt Lake banking men say there can be no doubt that taking into account the enormous national wealth of the United States, in banking as well as in industrial matters, America easily leads the world. One noteworthy feature is the rapidity with which Chicago is coming to the front as a financial center. Situated in the center of the richest section of the country, it is only a question of time before the city will rank equal with New York in financial and commercial importance. The demand for loans locally is good with rates unchanged. There seems to be enough money to carry the situation conservatively.

**VIEWPOINT OF AUTHORITY.**  
Henry Clews in his last circular has this paragraph: "It is very apparent that we are feeling the reactionary effects of the panic more plainly than at any time since it occurred. There is more hesi-

## Walk To Your Meals Like A Man

Eat What You Will and Learn to Enjoy Food and to Digest It.

### HERE'S THE SECRET, FREE.

Make up your mind after reading this that you will let the next meal hold no terrors for you. You can enjoy it. You can digest it. All that is needed is to give nature the juice she lacks, to give the stomach a chance to remove the terrible irritating acids, and to give the system food and nourishment into gas and decomposition.

When a system is run down and depleted it needs building up. Asches would resemble a fire, and wrong digestive fluids will not take proper juices from food, no matter how good the food is. Is this common sense? Men spend years and even life experimenting on the human system, what it lacks in disease and what it needs in health. This knowledge is known to every physician, or should be. Stuart's Dyspepsia Tablets are compressed natural vegetable and fruit essences which when mixed with the saliva of the mouth go into the stomach capable of digesting a full meal and they digest it to the uttermost shred. Then such a meal does a man good and it gives him the means to overcome stomach troubles. Forty thousand physicians use these tablets and charge you for writing a testimonial of their merit when they call a prescription. Any drug store, or mail order, will sell you a box for 50 cents. Think of it. Every druggist carries them. Here's common sense again. Don't this tell you there is merit? Go to your druggist today, buy a package and walk up to your meals like a man. You will not cause you pain. Send us your name and address and we will send you a trial package by mail free. Address: F. A. Stuart & Co., 149 Stuart Bldg., Marshall, Mich.

## WOMEN SUFFER WITH DYSPEPSIA

Also Tells of the Most Certain Home Cure for All Stomach Trouble and Indigestion.

### TAKE SOME DIAEPSIN.

Gives to Most Chronic Case Relief in Five Minutes and Thoroughly Regulates Your Stomach Before You Realize It—Harmless and Tastes Like Candy.

Does it ever occur to you how busy that little stomach of yours is? It actually only holds three pints, though in one year you force it to take in 2,500 pounds of material, digest it and prepare it for assimilation to the blood. Do you wonder at the number of cases of Indigestion and Stomach trouble? You crowd it with steaks and puddings, and expect this little four-ounce mill to do its work. Is there any wonder that your food passes undigested, or lays like a lump of lead in the stomach? That everything you eat turns to acid, Stomach gas and Stomach poison, putrefying the intestines and digestive canals, causing Bloating, Headaches, Dizziness, Indigestion, Heartburn, Nauseous Breath, constipation and other more dangerous symptoms?

Call your disease what you will—Indigestion, Gastritis, Nervousness, Dyspepsia, Catarrh of Stomach, etc.—you know the real name, the real disease is fermentation of the food you eat—a sour Stomach, which belches gas and eructs undigested food or causes a felling of nausea and miserableness.

All these miseries vanish promptly when you stop this food fermentation. Take fifty cents for your Pharmacium for a case of Pape's Diaepsin. Eat a triangle, and five minutes later your Stomach will do what a healthy Stomach should—that is, turn your food into healthy nourishment and without you realizing that you have a Stomach. One triangle will digest all the food you eat without the aid of the stomach, because it contains just the elements found in a good, strong, healthy stomach.

Indigestion in spirit than has been experienced in many months. By general consent, the tariff is blamed for this state of affairs. It is a weak element of delay and uncertainty, it cannot be held responsible for many of the signs of depression which are daily coming under observation. Iron and steel products are not dropping in price, but an impending change of the tariff, especially in that direction, iron and steel prices are declining simply because of lack of demand. Iron and steel are small purchasers, notwithstanding the ease with which they can raise money, and our finished steel plants are running at about only 60 per cent of their capacity. Builders have been discouraged by large supplies, by the falling off in new building enterprises and by the general feeling that the country, whether in war or not, must endure a period of further quiet and readjustment.

**NOT A BIT SCARED.**  
The real estate situation continues hopeful notwithstanding the "rumor" that the world's largest bank, the City National Bank of New York, is claiming that this is now the largest bank in the world, distancing even "The Old Lady of Threadneedle Street," viceroy of the Bank of England, as well as even the Bank of France. Salt Lake banking men say there can be no doubt that taking into account the enormous national wealth of the United States, in banking as well as in industrial matters, America easily leads the world. One noteworthy feature is the rapidity with which Chicago is coming to the front as a financial center. Situated in the center of the richest section of the country, it is only a question of time before the city will rank equal with New York in financial and commercial importance. The demand for loans locally is good with rates unchanged. There seems to be enough money to carry the situation conservatively.

## CAPITAL STOCK IS INCREASED.

Local Firm Prepares to Extend Its Field of Operation.

At a meeting of the stockholders of the Consolidated Wagon & Machine Co., held on Monday, Feb. 8, the capital stock of the company was increased from one and one-half million to two and one-half million dollars. The increase was the result of the growth of agricultural sections in three months; thousands upon thousands of acres having been added during the past few years. Recently all the territory from St. Anthony to the north of the St. Anthony branch in northeastern Utah, to Ruhl, the terminus of the Minutka & Southwestern, covering something over 300 miles, has been surveyed and a portion of it sold to the public. Some 2,000 acres are under irrigation from the waters of the Snake river, and within the past four years small towns have sprung up here, now contain a population of 5,000 and more. The business streets of these towns is selling as high as \$400 per front foot. Manager Odell, as well as other gentlemen who are acquainted with this section, confidently predict that within 10 years the population in this section will be close to half a million.

All this means more farms and more farmers, and naturally more farm implements and vehicles. In addition to the machinery to be used by the owners of irrigated lands, there are the needs of the dry lands farmer to be taken care of; in satisfying which the Consolidated Wagon & Machine Co. are largely interested. It is well increased capital will permit them to take good care of the growing demand for machinery with which to handle in the enormous crops to be harvested.

By careful and conservative methods this company has built a business of no mean proportions, and today its stock is considered to be among the most attractive on the market. It shows a quantity of a business of steady growth and improvement, with very satisfactory dividends to all its stockholders. In addition to a strong organization and the best representation of the section, the Consolidated Wagon & Machine Co. has secured the good will of the people, which may be proudly reckoned as an asset.

The directors of the company have decided to offer for sale, to the stockholders, 2,000 shares of the increased capital stock, pro rata at par. Already requests are being made for the remaining stock after the present stockholders have been supplied.

## BUILDING BIG PLANT.

Pat Moran Rushing Construction of Barns and Shops.

With a large force of men at work, the plant which is being constructed in the block bounded by Eighth and Ninth South and Second and Third West, by Patrick J. Moran is rapidly nearing completion. The barn, which is 120 feet by 100 feet, will be ready for occupancy in the course of three weeks. It is built of concrete and brick and is two stories in height. This structure will contain the offices of the plant, a room for the storage of wagons, harness and other equipment, a box stall for 150 horses, and 10 box stalls for driving horses. The second story of the building will be reserved for hay and grain.

Construction work has begun on a machine shop which will occupy a position fronting on Second West street south of Eighth South street. It will be one story in height and 150 feet long. Just south of this structure a warehouse will be erected of concrete and brick. The entire southeast corner of the plant will be a stone yard. The south and west sides of the yard will be lined with wagon sheds. The yard will be placed the asphalt plant, the rock crusher and the dump.

## MAN HELD UP CAUGHT

MAN WHO HELD HIM UP

New York, Feb. 13.—An exhibition of revolver shooting which sounds like tales of "Deadwood Dick" and the wild west, were given in Brooklyn yesterday when Gaston Gettill, a saloon-keeper, after having been held up as he stood behind his bar, seized his gun and with a quick motion grabbed his pistol and shot the man who held him up. The shot attracted a policeman and the wounded man and a companion were placed under arrest.

## Good Time?

Last night—eating big dinner is often the maker of a BAD TODAY. Why not? Over-eating means extra work for the stomach and bowels. You've got to suffer if you don't help nature unload with CASCARETS. "They work while you sleep"—you're O. K. in the A.M. Tonight's the night to take care of tomorrow.

CASCARETS—no box—bigger's treatment. All druggists. Biggest sale in the world. Million boxes a month.

**SOLDIER BALKS DEATH PLOT.**  
It seemed to J. A. Stage a civil war veteran of Kemp, Tex. that a plot existed between a desperate lung trouble and the grave to cause his death. "I contracted a stubborn cold," he writes, "that developed a cough that stuck to me, in spite of all remedies, for years. My condition grew desperate. I was in bed for months. I was unable to do anything. Then I began to use Dr. King's New Discovery which restored my health completely. I now weigh 178 pounds." For severe Colds, obstinate Coughs, Hemorrhages, Asthma, and to prevent Pneumonia it's unrivaled, 50c and \$1.00. Trial bottle free. Guaranteed by Z. C. M. I. Drug Dept. 112-114 So. Main St., Salt Lake City.

## PRESIDENT SEEMINGLY

DISTRUSTS THE JAPANESE

Kalamazoo, Mich., Feb. 12.—In his address before the Lincoln club last night, Congressman Duncan E. McKinlay of California, quoted President Roosevelt as being distrustful of the Japanese, Congressman McKinlay said: "The president said to the California congressmen that we must preserve our lands for the white man."
