MINING, BUSINESS AND STOCKS

BOATS WILL PLY ON GREEN RIVER

The Utah-Nevada Copper Company Has Launched Two for Movement of Ores.

MINES BELOW GREEN RIVER.

A Station on the Rio Grande— Distance About Fifty Miles—Region of Vast Possibilities.

William M. Ingersoll of Denver is in the city on a brief business trip, and during the day related some interesting things about the mineral possibilities of the mining regions of Grand county.

Mr. Ingersoll is secretary of the Utah-Nevada Copper company, which has acquired a vast estate located about 50 miles south of Green River station on the main line of the Rio Grande railroad.

"Our company," said Mr. Ingersoll, today, "will start shipping ore within the next few weeks, and the product will be sent out by means of flat-bottomed boats. The company has just launched two river crafts to be used in freight traffic and will shortly put on a smaller one for passenger traffic, which will be capable of covering the distance between the mine and Green River in about three hours, and make the down trip in two hours."

Mr. Ingersoll says mining men do not begin to realize the possibilities of the mining districts in eastern Utah, although, in his opinion, the advantages for making money there and the opening of good mines is every bit as good there as can be found in Nevada. "Of course, the country has been handicapped for the lack of transportation facilities, yet, after all they are no worse than they have been in some portions of Nevada. But some of these days people will wake up to what we have down there.

The Utah-Nevada company, Mr. Ingersoll states, has spent a great deal of money in the development of its mines and providing facilities for the economic movement of ores to market.

Outside of the operations of the Utah-Nevada company there is little activity in evidence in the district at the present time.

The town of Green River has been enjoying quite a lively boom of late. Several new irrigation enterprises have been launched there, and the place promises to become one of the principal fruit, as well as ore shipping points on the Rio Grande road.

WEEK ON EXCHANGE.

Big Increase in Volume of Business As Compared to a Year Ago.

The week's sales on the mining exchange for the week aggregated a total of 177,080 shares of the value of $190,007.85, as against 235,258 shares for $43,523.93 a year ago.

There has been considerable demand for the higher priced stocks this week, with Daly Judge, Little Bell and Columbus Consolidated as the favorites. The former closes weak, selling down to $11.62½. Thompson was sought and was a seller around 35 cents. Ohio Copper has stiffened some, while Nevada Hills found a few takers around $2. Of the Tintic stocks, Beck Tunnel, Mammoth, Lower Mammoth and Carisa were active.

Today's closing quotations and sales were:

IN FROM GOLD SPRINGS.

New Southern Utah Camp Begins to Show Much Activity.

Among the arrivals from the south this morning was Charles A. Short, manager of the Jenny and Uvada properties in the new camp of Goldsprings, which is located in the western part of Iron county, in this state.

Goldsprings, Mr. Short says, is improving every day, seven new dwellings were started this week, and H. W. Davis of Salt Lake has arranged to put in a general store. That Goldsprings will have a postoffice is a foregone conclusion, as a petition, signed by 56 residents of the district, will be forwarded immediately to Utah's representatives in Washington. The new camp was started about May 1.

Mr. Short placed an order this morning for a whim to be used in the development of the Jenny group. The Jenny and Uvada companies have a force of 17 men employed.

Over at Fay, Mr. Short says, there is considerable activity in evidence, and the Stokes brothers of Pasadena, who recently purchased the Horseshoe mine and mill for $30,000, are preparing to start the mill going at full capacity again, which is 100 tons per day. In the mine, a vigorous campaign of development is in progress and only a few days ago the company was rewarded by a strike in the east crosscut, which makes of the Horseshoe practically a new mine. The mine is in charge of J. P. Minor of Los Angeles.

Goldsprings is located about four miles east of Fay, Nevada, just over the line dividing the two states.

SMELTING IN ALBERTA.

The Plant at Frank Will Work on British Columbia Ore.

Special Correspondence.

Nelson, B. C., May 30.—It was semi-officially announced just at the close of the week that the Canadian Metal company's reduction plant at Frank, Alberta, which is to be supplied with British Columbia ores, and which for practical mining purposes is in the East Kootenay district, had been blown in, but beyond this statement details of the starting up of these important works could not be obtained.

It was announced early in the week that there had been a change in the managements of the Canadian Metal company and that the company's smelter of Pilot Bay, one stack of which was blown in some time ago, had been closed down, pending an examination by S. S. Fowler, M. E., of Nelson. It is understood that Mr. Fowler's examination will be closed this coming week.

Mining has been very fairly active during the past week throughout south during the past week throughout southeastern British Columbia, several deals of importance having been reported in the Boundary country. Over in Rossland some interesting experiments are being made on the Jumbo with diamond drills, the results of which are awaited with interest. Work on the Velvet-Portland has been energetically resumed.

The new concentrator at the La Plata mine, better known as the Molly Gibson, near Kokanee creek, was successfully started for the first time on Thursday last.

The ore shipments from the Boundary district for the year to date are now well over the half million ton mark.

TINTIC ORE SHIPMENTS.

Special Correspondence.

Eureka, Utah, June 1.—The following is the list of ore shipments made from the Tintic properties:

Gemini 17, Centennial Eureka 35, Eureka Hill (lease) 21, Uncle Sam Cons. 10, Yankee Cons. 4, Beck Tunnel 8, Eagle & Blue Bell 8, May Day 5, Bullion Beck 11, Black Jack 4, Victor 4, Carisa 6, Grand Central 4, Mammoth 7, Ajax 2, Dragon Iron 11, Swansea 4, Scranton 2, Joe Bowers 1; total 163.

Two car loads of concentrates were shipped during the week from the Godiva mill.

PRODUCT OF THE NEW GODIVA MILL

Two Car Loads Left the Tintic Mining District Yesterday Consigned to Smelters.

EUREKA HILL ORE SHIPMENTS

Improvements at the Star Consolidated —Developments in North and West Sections of Camp.

Special Correspondence.

Eureka, June 2.—From the Godiva mill Friday, two car loads of concentrates were sent to Salt Lake. The mill is doing most excellent work, and Supt. Jackson McChrystal intends to increase the table capacity at once.

The force at the Bullion-Beck mine was laid off Wednesday to allow repairs to be made on the boilers.

Three car loads of ore are being shipped daily from the Eureka Hill mine by the leasers, who are all doing well, making far above the wages of the average miner.

The ore from the Victoria mine is now finding an outlet through the 800 and 900-foot levels of the Grand Central mine. From the latter level the ore is taken out through the Grand Central shaft. The output of the Victoria will be very materially increased in the near future.

The concrete foundations for the engine and gallows frame at the tar Consilidated mine are about completed and the new machinery, which will soon reach here from Oregon, will be installed upon its arrival. Supt. J. P. Turner expects to have the plant in complete running order by June 15, when development work on the underground workings will be pushed with vigor. A fine lot of copper ore is now being taken from the mine.

Sinking of the shaft on the American property in the East End is still being continued. The owners have decided to incorporate the property and float the treasury stock. The ground adjoins the Bullion Beck Tunnel property.

A tunnel is being driven on the mountain at the Prarie Bell property in West Tintic. Several Eureka parties are interested in the property.

The White Cloud company, which owns valuable claims near Silver City, and which has been idle for the past two years, began active operations Thursday.

The two shifts at the McKinley property are still drifting in hard quartz. The tunnel is being run to the south and is in a distance of over 1,000 feet with a depth of 400 feet. Samples taken from the face of the drift look very encouraging.

Development work is progressing on the New Bullion property in North Tintic. The body of ore on the tunnel level is holding out first-class and from the showing on the dump, valuable shipments will soon be made. The property is well known to the mining men of Utah, being the old Balhinch group of claims.

A new whim has been installed on the Farragut property in North Tintic. The shaft will be sunk to the 300-level and may be continued to the 500-foot level before drifting is commenced. Supt. D. C. Harrington is working two shifts at present.

The New Utah mine in West Tintic is rapidly forging to the front. A new 80-horse power boiler has been put in place, and the company will furnish power for its neighbor, the Copper Jack. Both properties are looking excellent and samples of ore taken from them and brought to Eureka delight the hearts of old time prospectors, who believe the west end is rich in valuable mineral deposits, especially copper.

UTAH CON. ORE BODY.

Shoot Opened in Northern Part of Mine the Best One Yet.

According to authoritative information from Bingham, there is on longer any room for doubt about the ore body found not long ago in the northeastern part of the domains of the Utah Consolidated being the most important strike ever made in that great bonanza.

The extent of the body has not yet been determined, but development has progressed far enough to indicate that the shoot is not only the largest one opened in the mine in many a day, but that the values average higher than they do in any other ore body in the mine.

In fact, the recent development makes a new mine of the Utah Con. and adds many years to its productiveness.

DEEP MINING IN BUTTE.

Montana Camp Has Never Displayed So Much Activity as Now.

The statement made by President Ryan as to improvements and exploration work being made by the Anaconda company the announcement that the Parrot is to sink its shaft 400 or 600 feet deeper, the work being done in the same line by the Boston & Montana, Pittsburg, Original and other operating companies, all combine to give a slight idea of the extensive work that is being done toward deep mining in the Butte district and toward developing better mines, says a correspondent, writing from that camp.

The published reports of bonanza ore found at a depth of 2,400 feet in the Anaconda, and of the vast ore bodies opened at depth in half a dozen other mines, read strangly in parallel with the stories circulated several years ago by Heinze and his friends and newspapers that the Anaconda and other Butte mines of the Amalgamated company were worked out and worthless. The report of Mr. Ryan about the wonderful work in economical ore treatment by the new Washoe smelter also sounds strange to ears that used to hear stories from Heinze sources in Butte and Boston that the smelter was a failure.

Never in the history of Butte has there been so much mining activity as at present, and never was the fact more apparent that the Butte district has not yet fairly begun producing copper.

Since the vein of the Anaconda was cut at a depth of 2,400 feet very little work has been done on that level, and the extent of the ore body has not been fully ascertained. From 2,200 to the 2,400 the shaft was sunk for a single compartment, and since the ore was found to exist at that depth the shaft is now being enlarged to a three compartment. It is being raised from the 2,400 to the 2,200, and no mining or further exploration will be done until the shaft is completed. It is likely that it will then be sunk deeper still.

The Boston & Montana company intends to equip the Pennsylvania mine with a new hoisting engine. The one now in use at the mine has done duty for 20 years, and at present raises 1,000 tons of ore daily.

The shaft on the Greenleaf chain has reached a depth of 200 feet, and will be sent much deeper. The shaft is going down a wall of the vein and there will be no cross cutting until a depth of 500 feet or more is attained.

Mr. Thayer of the Amalgamated company is deeply interested in the Greenleaf section of the Butte district, and he predicts that it will develop into a good copper section. The Greenleaf adjoins the ground of the Butte Exploration company.

CONCENTRATES.

O. H. Fairchild, a well known metallurgist of Denver is in the city.

Secretary Lambourne of the Daly Judge Mining company is in Park City today.

Charles Read has returned from Eureka, Nevada, where he has been on mining business.

William Hatfield and family will leave Salt Lake for Provo next Monday to reside permanently.

Another assessment has been levied on the stock of the Wabash Mining company of 10 cents a share.

P. H. Cannon, the well known Cherry Creek, Nevada, operator, came in from the west this forenoon.

Lorin Morrison, manager of the Indian Queen properties in Beaver county, departed for camp last night.

Col. John Weir, president of the Nevada Utah Mines & Smelter corporation will leave for California today.

It is expected that the reconstruction of the line of railroad to Alta will begin within a few weeks at the latest.

The annual meeting of the shareholders of the Uncle Sam Con. Mining company is scheduled for next Monday.

Manager J. W. Royer of the Lucky Dutchman mine in the Crescent, Nevada district, has gone to camp again.

H. L. J. Warren, who has been in the city from Boston for a week past, will leave in a few hours for California, on mining business.

The Pioneer sampler reported the receipt of 2 cars of ore each from the camps of Stockton, Tintic and Bingham; also 3 from Alta, today.

The ore and bullion settlements reported late yesterday by McCornick & Co., were: Crude ore and concentrates, $36,250; base bullion, $52,000.

M. H. Lesher, a well known Denver mining engineer, was in the city yesterday and last night departed for White Pine county, Nevada, to conduct some examinations.

J. T. Hawkins, engineer for James F. Burns of Colorado, departed for Beaver county last night to start work on the Blue Bird group of claims recently taken over by Mr. Burns.

LANGUOR MARKED MARKET OPENING

Few Stocks Traded in, Movements Being Narrow and Irregular.

LARGE ORDERS FOR ST. PAUL.

This Had Stimulating Effect, Prices Generally Rising in Sympathy.

New York, June 2.—Extreme languor marked the opening dealings in the stock market today. Less than a score of issues were traded in during the first five minutes. Movements were narrow and irregular. Anaconda rose 1¼, L. & N. ⅝, and St. Paul and U. S. Steel preferred ½. Otherwise the tendency amongst prominent market leaders was to a lower level.

What promised to be an apathetic market was turned into a fairly lively one by the appearance of large orders for St. Paul, Reading, Metal and Railroad Equipment stocks. Stocks that had shown some seaviness at the opening made up their losses and a slight margin besides. St. Paul rose 3½, Sault Ste Marie 2, St. Paul preferred 1½, Colorado Fuel 1⅝, Wabash preferred 1¼ and Reading, Northern Pacific, Chicago Terminal preferred and Locomotive 1. Illinois Central fell 1, General Electric 1¼, Northwestern 1½ and Wells-Fargo Expres 5 points.

The aggressive advance of nearly 4 points in St. Paul carried prices upwards to a moderate extent in sympathy. The Gould group was strong, Wabash preferred, Texas & Pacific and St. Louis Southwestern preferred rising 1¼@2. Michigan Central sold at an advance of 5, C. C. C. & St. Louis and Peoria & Eastern gained 1⅝, and L. & N., Mexican Central, Northwestern, Erie second preferred, Brooklyn Transit, Smelting, Tennessee Coal and American Ice 1. The bank statement was a disappointment and part of the advance was lost after its appearance. Hocking Valley preferred declined 1. L. & N. reacted to a large fractional loss. St. Paul rallied in the final dealings and the closing was irregular.

LIVESTOCK.

CHICAGO.

Chicago, June 2.—Cattle—Receipts, 200; market steady. Beeves, 4.10@6.00; cows and heifers, 1.70@5.00; calves, 5.00@7.35; stockers and feeders, 2.75@4.75.

Hogs—Receipts, 15,000; market 5@10 cents lower; estimated Monday, 45,000. Mixed and butchers, 6.25@6.45; good heavy, 6.30@6.45; rough heavy, 6.15@6.25; lights, 6.20@6.45; pigs, 5.20@6.20; bulk of sales, 6.37½@6.45.

KANSAS CITY.

Kansas City, June 2.—Cattle—Receipts, 150; market unchanged.

Hogs—Receipts, 5,000; market 5 cents lower. Bulk of sales, 6.27½@6.40; heavy, 6.30@6.37½; packers, 6.20@6.30; pigs and lights, 5.50@6.25.

Sheep—Receipts, 5,000; market nominally steady. Muttons, 5.00@6.25; lambs, 6.00@7.40; range wethers, 5.00@6.00; fed ewes, 4.75@6.25.

OMAHA.

Omaha, June 2.—Cattle—Receipts, 100; market unchanged.

Hogs—Receipts, 11,000; market 5@10 cents lower. Heavy, 6.22½@6.30; mixed, 6.20@6.22½; lights, 6.15@6.22½; pigs, 5.00@6.00; bulk of sales, 6.20@6.22½.

Sheep—Receipts, 500; market steady. Yearlings, 5.50@6.00; wethers, 5.40@6.00; ewes, 4.75@5.75; lambs, 6.00@6.50.

WOOL.

ST. LOUIS.

St. Louis, June 2.—Wool, steady. Territory and western mediums, 25@30; fine medium, 21@25½; fine, 18@20.

PRODUCE.

CHICAGO.

Chicago, June 2.—The local wheat market was a trifle easier at the opening today because of the continued favorable weather for the crop, but soon became firm on reports of damage to the Kansas crop. The July option opened a shade to ¼@¾ lower at 80⅝ to 80¾, advanced to 81⅛, where it closed, a gain of ¼@⅜.

The corn market was firm with trading light. July closed ⅛ higher, at 49⅝@49⅝.

The oats market was quiet and steady. July opened unchanged to ⅛ lower at 33⅜ to 33⅝, and sold up to 33⅝.

The provisions market was weak but trading was of small volume. July pork was down 10 cents at 16.0; lard was 5 cents lower at 8.55; ribs were 10 to 12½ cents lower at 9.02½ to 9.05.

The board of trade will be closed Monday.

Close: Wheat—July, 81¼; Sept., 79⅞.

Corn—July, 49⅝@49¾; Sept., 48⅛.

Oats—July, 33⅝@33¾; Sept., 31⅛@32.

Pork—July, 16.00; Sept., 15.90.

Lard—July, 8.50; Sept., 8.65@8.67½.

Ribs—July, 9.07½; Sept., 9.05.

Rye—Cash, 69@6.

Flax—Cash, northwestern, 11.12½.

Timothy—Sept., 2.67.

Clover—Cash, 11.25.

MANHATTAN Opportunities !

The earthquake has wrecked San Francisco and Californians are in dire distress for ready money. Their stocks are on the market at forced sale. It is a legitimate opportunity for the man with money to pick up bargains, at prices that will double and triple in values with the recovery of the market. Opportunities have been overlooked at Tonopah, Goldfield and Bullfrog. Do not overlook Manhattan, the peer of them all.

Buy now and watch advancing quotations. Development continues undisturbed and Manhattans are the best buys on the market.

We specially recommend—

Manhattan Utah Mining Co. .....15 cents share.
Manhattan Mammoth Mining Co. .....15 cents share.
Manhattan Minerva Mining Co. .....20 cents share.
Manhattan Leroy Mining Co. .....15 cents share.
Manhattan Buffalo Mining Co. .....25 cents share.

Buy through us and we will keep you informed as to development and market conditions.

We handle nothing but the best properties. Wire your orders at our expense and let remittance follow by mail.

Bank references furnished.
