NEW SCHOOL HOUSE AGITATED. The other evening a parents' meeting was held at the L. D. S. meeting house, at which class work was presented.

Wednesday evening last the day schools closed with a very creditable

concert at the opera house. A mass meeting will be held next week to ascertain the feelings of the people regarding the building of a new school house in lieu of the miserable shacks that we now have that retard refinement, proper discipline and order, and invite serious criticism by people of neighboring school districts. The Christmas holidays are being

pleasantly enjoyed by all, the health of the community is excellent and a spirit of peace pervades all circles.

One of the most attractive features of the application of the system is that of independence, the supply of water being practically unlimited and there being no dispute as to priority. The pumping plants consist of an engine of from 16 to 22 horsepower and a pump which is capable of irrigation from a depth of 20 feet for say an average of 150 acres. The horsepower var-les, a number of 16-horsepower plants being located near Brighton and Lup-ton, near Denver. of gasoline to run a pump to raise water 20 feet to flood an acre two feet depth. This cost is in some districts considerably lessened by the mixture of crude oil with the gasoline. Some experiments and demonstrations with the mixture give satisfactory results with a reduction of cost amounting to 50 per cent or more.

 A comparison of the cost of this method with that under the other systems of irrigation gives an ordinary ditch promoter in some irrigation dis-tricts a body blow. Stock in an ordinary ditch company is worth generally per shares per acre for two feet water. The interest on this is say \$4 per year, and the assessment of the stock will probably amount to \$1. The cost of the pumping plant is \$10 per 1902, so many shares of each parcel of stock as may be necessary will be sold acre, the interest being 80 cents. The advantage of the pumping plant is therefore quite patent. The plants are being introduced in

California and Colorado, and in con-nection with the raising of sugar beets are making that class of farming very profitable. On stock ranges their use in pumping water from stock holes is coming general. THE CHILDREN ENJOY Life out of doors and out of the games which they play and the enjoyment which they receive and the efforts which they make, comes the greater part of that healthful development which is so essential to their happiness when grown. When a laxative is needed the remedy which is given to them to cleanse and sweeten and strengthen the internal organs on which it acts, should be such as physicians would sanction, because its AS-53 component parts are known to be wholesome and the remedy itself free from every objectionable quality. The one remedy which physicians and parents, well-informed, approve and recommend and which the little ones enjoy, because of its pleasant flavor, its gentle action and its beneficial effects, is-P Syrup of Figs-and for the same reason it is the only laxative which should Site used by fathers and mothers. Syrup of Figs is the only remedy which acts gently, pleasantly and naturally without griping, irritating, or nauseating and which cleanses the system effectually, without producing that constipated habit which results · (95) from the use of the old-time cathartics and modern imitations, and against - ST which the children should be so carefully guarded. If you would have them marsh grow to manhood and womanhood, strong, healthy and happy, do not give them medicines, when medicines are not needed, and when nature needs Ch assistance in the way of a laxative, give them only the simple, pleasant and gentle-Syrup of Figs. Its quality is due not only to the excellence of the combination of the laxative principles of plants with pleasant aromatic syrups and juices, but also to our original method of manufacture and as you value the health of 100 the little ones, do not accept any of the substitutes which unscrupulous dealers sometimes offer to increase their profits. The genuine article may be 10 bought anywhere of all reliable druggists at fifty cents per bottle. Please to remember, the full name of the Company-CALIFORNIA FIG SYRUP CO.- is printed on the front of every package. In order to get its beneficial effects it is always necessary to buy the genuine only.
