ASSOCIATION OF UTAH CANNERS.

Formed for Mutual Benefit-All Factories Will Sell Under One Management.

CHANGES IN STAKE S. S. BOARD

U. C. Travelers Convention Committees-County School Examinations -Cement Co. Lets Big Contract.

ogden, May 14 .- At a meeting attend.

ed by representatives of 22 of the canning factories of the entire State of Utah, held Saturday afternoon at the Weber club, an organization to be known as the Utah Canners' association was organized. The organization is made for the bringing of the canners of the state into closer association with each other and for mutual benefit. It is believed that by having the canning industry of the state under practically one head better results can be obtained. as the various canning factories will report to the general association their output and they will then know just how much canned stuff can be sold from this state and by selling in large quantities and having the mar-kets carefully watched, it is believed ch better prices can be obtained, and other ways mutual benefit will e realized through the new associa-ion. It is estimated that these 22 can-ing factories have an annual output of over a half million dollars annually. The officers elected for the ensuing year are: President, D. C. Adams; vice year are; President, D. C. Adams, vice president, William Van Allen; secre-tary, Richard Stringham; treasurer, George Watson; executive committee, Alex Brewer, William Craig and J. W.

The canning industry last year was practically a failure so far as canning tomatoes is concerned, but the indica-tions are that this year will be very successful for tomato growing as well as fruits and vegetables, hence the outok for the canning industry is very encouraging.
