REWARD OF MERIT.

New Catarrh Cure Secures National Popularity in Less Than One Year. Throughout a great nation of eighty million it is a desperate struggle to so cure even a recognition for a new article, to say nothing of achieving popular favor, and yet within one year Stuart's Catarrh Tablets, the new catarrh cure, has met with such success that today it can be found in every drug store throughout the United States and Can-

The Sunday school board of the Weber Stake are taking up the matter of musical development in the schools with an earnest desire of making it a thorough success. The services of Joseph H, Ballantype have been procured by the board to instruct the children. The class will meet for the first time Saturday, Nov, 10, 1900 in the Ogden Tabernacle. Those desiring to join the class from 7 to 10 years of age will meet at 1 c'dock, and those from 10 to 15 years of sge at 1 o'clock. A term of twenty-five lessons (25 weeks) will be given for \$1, payable in advance at the door. In order to save the children further expense a concert will be given to which each member will be entitled to two tickets valued at 50 cents, which, if sold, will

buy their music books. The work to be taken up will be sight singing and chorus work, with special stention given to the music used in the orimary department and general school,

At the second meeting of the class the foll of wards will be called and to the ity ward having the greatest number present a cash prize of \$10 will be given, providing the number be more than fifty and \$5 to the county ward, providing they have fifteen or over. There are great benefits to be derived

from such an organization. The musi-cal development of children is a very important factor in this enlightened age. During the past few years many talented sons and daughters of Utah have taken up the study of music, so that music today is becoming a prominent branch of education, and in nearly every home some of the family is beginning to take an interest either in vo. r instrumental music.

In the class which is to be organized In the class which is to be organized the study of music used in the Sunday schools is to be taken up and a great improvement can be looked for in the music of the schools. The general public will be stimulated with a musical inter-et by baying their children below to est by having their children belong to such a class, and as the boys and girls of today are the men and women of the future, an impetus will be given to the livine art that will give permanence to

the muscal sentiment in the future. the mutoal sentiment in the future. The organization of these classes is being zealously taken up by the Salt Lake Styke and eventually it will be a Sunday school fixture in all the Stakes and the Weber Stake does not want to be a lagrand in this matter, but rather be a laggard in this matter, but rather a leader, and have other Stakes pattern after it. As there is nothing that has a more refining and happifying influence than music, it is desired that all the Sunday schools in the Weber Stakes take special interest in these classes and make them successful
