

the big ore chute nearly 1,500 feet deeper. Two shifts are at present camps in that a dry concentration method is used. In addition to the employed, but Mr. Craig expects to put prospects with the mill the company is another shift at work in the lower tunsaid to be opening up a good grade of ore in the upraise from the 100 level near the Yankee Con, ore body. nel shortly. The new compressor plant is said to be working very smoothly. Speaking of the Tintic properties of the company Mr. Craig said that work is somewhat retarded in the contract recently let for 100 feet of shaft work on the vein from the Sloux-Ajax tunnel because of trouble with air. The company expects its big compressoi plant to arrive about July 1st, when the

shortly begin. Surveys are now being made of the company's possessions and management is busily engaged m planning the season's work when the property shall have passed into the Bingham company's hands. One of the first steps will be to pump out the mine which has several hundred feet of water in the shaft. Before this is started th company will instal a new hoist and pump as it has been decided that the present plant is insufficient to carry out the plans of the new owners. As to whether the big drain tunnel already started will be continued to the ord bodies, Mr. Bayley would not say though he intimated that a drain tunnel would undoubtedly be run from some part of the camp to tap the Daltor & Lark ore bodies. Mr. Bayley antic pates no delay because of the legal as-pect of affairs in the East.

Examines Dalton and Lark. Director William Bayley, of the Bingham Copper and Gold company was very much pleased with his trip to Bingham on Wednesday. In company with Manager McVichle he visited the Dalton & Lark, where Mr. Bayley promises a very energetic campaign will chartle havin. Surgest are now being

Ore Body Growing Larger in the Winze From the 600 Level.

Rumors of a strike in the Utah of Fish Springs wer current in some quarters yesterday afternoon but they are not borne out by a letter received from Superintendent Williams today, which reports no special change in the mine, Mr. Williams says, however, that there is a general improvement in the condition of the mine. This is especially true in the winze from the 600 level where the ore body is growing larger. In a winze from the fifth level some very rich ore is also being extracted which shows 65 per cent lead and 286 ounces silver per ton. A shipment of 30 tons is on the way to market which is expected to assay about 55 per cent lead and 117 ounces silver per

A FEE OF \$10,000.

Paid by A. S. & G. Co., for Filing Certificate in Denver.

Denver, Colo., May 17 .-- The American Smelting & Refining company has filed a certificate with the secretary of state, of Colorado, increasing its capital stock from \$65,000,000 to \$100,000,-The fee for filing the papers was

PORTLAND SHUT DOWN. Director of the Big Mine Says the

Difficulty Will be Settled.

A dispatch from Colorado Springs, Colorado, stated that the Portland mine, employing 700 men, was closed down indefinitely at 3 o'clock yesterday afternoon ow-ing to the trouble between the company and six miners' unions of the camp over the employment of nonunion men. A conference between rep-resentatives of the company and the unions was held in Colorado Springs yesterday, but failed to reach an agree-

Colorado Springs, Colo., May 17.the Portland Gold Representatives of Coln, Elkton, Wild Horse and other mines of the Cripple etated today to the As-correspondent here that ear a general strike of the large shipping Creek distric sociated Pr they did not miners of district over the clash rtland company and the between the Western Federation of Labor of Amer-ica. At noon a director of the Portland stated that the matter would in all probability be settled amicably.

MINING EXCHANGES IN PERIL.

Methods of some of the Brokers do

Not Inspire Confidence. Cripple Creek stock brokers seem to be on fue to change the rules and ay trading impossible. In the matter the Denver in article the fact that the Cripple 'ost deplor lorado Springs exchanges Tees and 4 broker's markets. This ight about, the Post says, re now ins been by trading and buying and rough futu no relation to the merit selling on said to bear of the property in many cases, but are "bulled" or "beared" to suit the sweet will of the brokers. At one time the quotations represented very closely

the value of the property, and people were then willing to invest their money. But now the public have been in a large measure scared off by the gam-

Examine an Old Camp.

Fred McGurrin and Pat Ryan of the Golden Star at Gold Mountain, re-turned yesterday from a trip to the Tempiute district, Nevada. The camp was a producer of very high grade silver ore many years ago. At that time a great deal of 900-oz, ore was marketed The property inspected by Messrs. Me-Gurrin and Ryan lies about 80 miles west of De Lamar, Nev., in a forbidding country. It is located about eight miles from water. A great deal of 60-ounce ore is said to be insight in the old mines many of which were worked to a depth of 200 or 300 feet. Assays are being secured on a number of samples, which may lead to a deal in that section.

Petroleum Claims Located.

Provo, May 17 .- The Herbert No. 1 and Herbert No. 2 petroleum mining claims, each consisting of 160 acres, have been located by Herbert S. et al. The claims are located south of Thistle in section 27, township 9 south, range 4 east. MINING NOTES.

The Bullion-Beck of Tintic reached the market today with five cars of ore. The Homestake Mining company of Park City has levied an assessment of I cent per share.

Three cars of ore were on the market today from the Yosemite No. 1 of Bingham. The Rogers mill at Bingham is now

running on a 250,-ton lot of leasers ore from the Columbia of Bingham. A car of ore was on the market to-day from the Carisa of Tintic. Another car was also marketed from the Excel-

sior at Eureka, Nevada. Victor Clement, the widely known expert, left today for Europe in com-pany with Mrs. Clement. Mr. Clement expects to be away about two months. Two cars of ore were reported today from the Phoenix of Bingham. A car of concentrates was also marketed from

he Queen mill of the Butterfield Mining company. A force of twenty men is now said to The drift on the vein from the bottom of the No. 8 incline is in ore of lower grade than was disclosed in the upper workings.

Joe Dederichs, the well known mill builder, returned today with Manager Lathrop from the Ophir company's possessions at Stateline, where a 100-ton lixiviating plant is to be built. Grading has now commenced and within months Mr. Dederichs expects to have the plant completed.
