It is ex-pected that the nomination of neither president nor vice president will be reached before Thursday; that day the head of the ticket will probably be nominated and the selection of the vice presidential candidate is expected to be deferred until Friday, after which the convention will adjourn. There is no reason apparently at present to ex-pect the convention to extend beyond that day. Yesterday's late hours brought forth

pect the convention to extend beyond that day. Yesterday's late hours brought forth some interesting developments in the matter of the presidential nominations and was marked by increasing urgency of effort on the part of the element opposed to William J. Bryan to prevent his nomination. There were several conferences in this behalf and the op-position showed its purpose to leave no smallest stone unturned in the search for delegatese who might be prevailed upon to vote against the Nebraskan. Those who are leading this effort admit that it is in the nature of a forlorn hope, "but," they say, "forlorn hopes have been known to turn the tide of great battles. We have still two days in which to continue this fight and we purpose to continue this fight and we purpose to continue it until there is not a shot left to be fired."

ELECTION OF SENATORS.

So long as we maintain the present method of electing United States sen-ators we cannot hope that the upper chamber of Congress will reflect the popular will. The Democratic party will continue to labor for the direct election of Unit-ed States senators and it appeals to the voters of America to elect members of the different state legislatures who will pledge themselves to vote for no con-

IN THE PACIFIC.

On the bosm of the Pacific will be enacted the great commercial struggles of the future, and the interests of American commerce in connection with the exposure of our western shores to any hostile attack will demand the greater parties of the American spreater portion of the American navy shall be retained in the waters of the Pacific to preserve the peace of the world.

A WHITE MAN'S COUNTRY

Some protection has been afforded by the exclusion of Chinese labor but the evil is but half met if the immigration of Asiatic people be not also excluded from our shores. Not only the white toilers of America, but all our people, without restruct to dues a word. without respect to class or residence, are vitally interested in this menace to our social and industrial life from Asiatic quarters, and if this is to remain white man's country immediate steps should be taken to prevent Asiatic im-migration of whatsoever character.

AMERICA'S DUTY.

The Democratic party realizes the part that America must inevitably play in the affairs of the world, and that we cannot escape participation in the settlement of every world problem that arises; but America's weight and influ-ence must ever be on the side of peace nce must ever be on the side of peace on the side of justice, on the side of the oppressed; and if the will of the people shall commit to our hands the sceptur of power, it will be used for the realization of the high American Ideals that raise our own people to loftier and bet-ier things and through our precepts and examples contribute to the wellbeing and happiness of all mankind.

INTEREST IN NEW YORK

As has been the case so often before, ew York state, with its handsome total New York state, with its handsome total of 78 delegates, bound under its unit rule to vote as one, is the center of in-terest. It is recognized by both sides as a fact that if New York could be swung into the fight against Bryan it would have immense and perhaps de-cisive weight against him, attracting as it almost certainly would, the dele-gations of other states who will vote for him unless they see definite pros-pect of success on the other side. The New York people held their caucus and made their selections for the commit-tees, also electing Leader Charles Mur-phy of Tammany Hall, as chairman of rule to vote as one, is the center of intees, also electing Leader Charles Mur-phy of Tammany Hall, as chairman of the delegation. They took no action upon the question of candidates, and none upon that of member of the na-tional committee, the place now held by Norman E. Mack of Buffalo. It was announced last pight by feinder of announced last night by friends of Charles A. Towne of New York that in the matter of the vice presidential nom-ination, the event would find New York ination, the event would find New York a free lance on this subject, and that State Senator Thomas F. Grady of Tammany Hall would place Towne's name before the convention as a can-didate for vice president. Most inter-est was displayed at the caucus in the matter of the so-called injunction plank in the paltform, and a sub-committee was appointed to consider the matter. The caucus adjourned until 10 a, m. today.

The cancus adjourned until 10 a.m. today. The friends of Mr. Bryan attach much importance to the fact that Lewis Nix-on was made chairman of the sub-com-mittee on the injunction plank, while ex-Judge Alton B. Parker, who will be the state's representative on the committee on resolutions, was given second place on the sub-committee. Mr. Nixon is known as a warm friend of Mr. Bryan and his prominence in the Tammany activities is interpreted by the Bryan people as indicating that the Bryan people as indicating tha New York in the final "show down," will support Bryan.

ANTI-BRYAN PEOPLE.

ANTI-BRYAN PEOPLE. ANTI-BRYAN PEOPLE. The importance of the leadership of New York is apparent in a review of figures given out last night for the first time by the anti-Bryan people a setting forth the theory on which they have been working. They claim that a timely utterance of New York against Bryan would have rallied a total of 349 votes.-50 more than enough to prevent his having the two-thirds vote neces-sary for nomination. This is the strength they were counting on: Ala-bama 1, Florida 7, Georgia 26, Louisiana 18, West Virginia 14, North Carolina 24, Connecticut 12, Delaware 6, Maine 11, Massachusetts 12, New Hampshire 4, New Jersey 24, New York 75; Pennsyl-vania 48; Rhode Island 4, Vermont 8, Minnesota 22, Ohio 12, Wisconsin 6, Alaska 6, Porto Rico 6-Total 349. New York's fallure to lead the stam-pede against Bryan was generally ac-cepted last night as fatal to the hopes of his opponents, even some of the most sanguine admitted privately that it is now too late to rally an effective com-bination.
