#### ANNUAL CONFERENCE.

To the Presidents, Councils and Sounts in the various Stakes of Zion:

It is thought advisable to hold our next Annual Conference in the city of Logan, Cache County.

Meetings will commence on Saturday April 4th, 1885, at 10 o'clock a. m. Very respectfully,

> Your Brethren, JOHN TAYLOR,

GEORGE Q. CANNON,

Of the First Presidency of the Church of Jesus Christ of Latter-day Saints.

----A TIME FOR SELF-CONTROL

THERE is apparently no intention on the part of the present Federal officials to ease up in the work of the anti-" Mormon" crusade. On the contrary, they evidently propose to pursue their inexcusable and gruel course more rigorously and remorselessly than ever, if that be possible. The fact that but tew if any changes of officials of Utah are likely to be made before the adjournment of the Senate, which has the confirming power, leads many to suppose that no removals will occur for at least many months. This, however, is a matter of uncertainty, as changes are liable to be made by the Executive when the Senate is not in session. Rethat from the present oppressive regime would probably result from the supplantiug of the present officials by a new set, for it would be unreasonable to expect that a more unscrupulous lot could be got together, either by chance or dealers. Of course we refer to those who are actively engaged in the onesided prosecutions that are being conducted against members of the Church. beeing that there is no immediate prospectof a change for the better, the victims have no alternative but to roun Lup their shoulders and bear the attlictions heaped upon them as best they can, taking, in the meantime, every precaution for their protection that wisdom and discretion may sug-207423

These are mat-

ters of fact and figure, of which any person can satisfy himself by inquiry. They are learned by us from Gen. Eldredge, the superintendent.

The real object of the publication of the Tribune's phantasmal reason for the holding of the General Conference in Logan was evidently to work an inury to one of the soundest and most reliable business houses on the Ameri-

can Continent. It was a cowardly and clumsy assault, and will have no effect of the kind desired.

The rebellion in British America, though at first supposed to be an insignificant affair, seems to be assuming considerable proportions. The pillag-ing and burning of the town of Battle-ford, show that the Indians are terribly in earnest in the threatening attitude which they have bate batelet the threatening attitude which they have batelet the threatening attitude which they have lately assumed. It is station, 68; Trans-continental, 12%; asserted that the Indians have been Louis and San Francisco, 18%; encouraged in their present uprising by the offer which the Canadian government recently made to faraish volunteers to join the British forces in the Soudan. For the Indians and half breeds to imagine that this fact would prevent the government from copiug with them is, of course, sheer folly, as

eneral Grant is dying from the dread committing some overtact that would bring them into violent contact with the representatives or agents of the government, and in that way practically with the government itself. Those who are wronged should, under the circumstances, for the good of the community, hold all feelings of resentment in check, and do nothing that would in any way jeopardize the interests of the people.

It is needful always that the people should be prudent, forbearing and circonspect, suffering wrong rather than to do it, but no time has demanded a greater exercise of self-control than the present. Circumstances may become still more unendurable than they are now, but still the oppression must be borne without a murmur against the Providence of a just and wise God. No means must be resorted to for the purpose of throwing off the yoke, however galling it may become, except measures that are strictly pacific The element of violence must not be introduced. This is not a policy dictated by cowardice, but of prodence. It requires more bravery under some circumstances to refrain from resorting to violence than to use it. The bravest people on earth are t mose who are under the greatest degree of self-control.

If there are Saints who cannot se the brilliant outcome of the present addetions that are heaped upon an upright and houest people, let them seek to behand it by the power of faith. -----A CONTEMPTIBLE SUBTER-

FUGE Tay decision of the Church Authorities to hold the General Conference at Lo an uplace of in this city has been the subject of much comment. The organ of stander held up the awful tureat a short time since that certain dusiness men purposed calling a Conleven e of the Church to convene here unvouv. The ridiculous character of th# proposal was self-evident. The isten of the locality of a Conference beme determined by business considerations was abound to begin with, but the suggestion of a gathering of that character being convened by unauthorized persons reached the sublime point of nonsense, if there be such a pinnacle. The same sordid sheet shifts from one subterfuce to another on this subjeet, over which it is sorely worried. its latest explanation, given this moruing, of the reason for holding the Conference at Logan, is, if possible more gauzy than any of its former fine spun theories on the matter. The latest mare's nest is to the effect that Z. C. M. 1 has a large number of bills due and unpaid, and some scheme had to be
