New Pleasure Resort.-Mr. P. F. Goss, who has charge of Mr. John Beck's farm sltunted at the point where the Jordan emerges from the had eaten everything and stretched Utah Lake, called in this morning and out for pastures new, the paper never reported some of the steps which are being taken toward the improvement of that property and the fitting of it for the comfort and pleasure of excursiouists. The farm, which consists of some nine hundred acres, was until recently owned by John C. Naile, well known throughout the southern country. It possesses some wonderful natural advantages, having a charming location on the west shore of the most beautiful sheet of water in these valleys, being fertile and well watered; and having a number of highly recommended warm medicinal springs, the effects of whose waters, especially on diseases common to children, is said to be of marked beneficial character. Although only a commencement has as been made, Mr. Goss assares us that twenty bath-houses have been erected for fresh water bathing in the lake, and that six are completed for the use of those who prefer the warm water. An order for a number of small pleasure boats and been given, and they will be ready in a short time. The fishing within a hun-dred vards or so of the place is excellen while game, particularly rabbits and<sup>2</sup> wild fowl, is so plentiful as to be almost a unisance. It is the intention to creet suitable houses for the accommodation of pleasure seckers who may be desirous of making a prolo stay, but these, as well as many other improvements, are not yet completed; and it is hinted that when this is all arranged as contemplated, a little branch railroad line will be run from Lehi to the new resort to accommodate the traveling public. At present excursion wagons will be used for this purpose, and buggies and riding horses will be at the service of those desiring them. The inhabitants of Lehi spent them. The inneoitants of Leni spent the Twenty-fourth at the new resort, of which they are justly proud, and it was then formally opened. Since then every day has seen its quota of pleas-areseckers wending their way towards its hospitable gates. A party of young men who don't mind reposing on the ground under tents could have a good round under tents could have a good time there now; more aged and com-fort requiring people, had Letter wait, however, till the expected arrange-ments are made, of which due notice will be given.
