SESSION OF THE CITY COUNCIL

Bamberger Heading Off Opposition—Big Contracts Let to O'Neill Construction Co.

MRS. MARTHA A. BROWN DEAD

Webster County Affairs—Republican Delegates to State Convention—Ogden Citizen Dies in Mexico.

Ogden, May 5.—In anticipation of objections being raised by the residents and property owners of Lincoln avenue regarding the use of steam as a motive power over his right of way for the trains of the Salt Lake and Ogden Railway company, Simon Bamberger, president of the road sent a communication to the city council Monday night asking permission to use steam power through certain streets of the city, pending the electrifying of the interurban road.

As the petition now being circulated by residents of Lincoln avenue was not completed for several days, action was deferred until a day to be named later when the council as a committee of the whole will hear both sides of the controversy.

The special water and light committee which visited South Fork canyon, several days ago recommended that estimates be secured at once on the erection of an electric plant and water station in the canyon. The sum of \$2,000 was set aside for this purpose.

The contract for sewerage work on Twenty-fourth street between Quincy and Van Buren avenues was awarded to J. P. O'Neill construction company the lowest bidder, upon the recommendation of the city engineer and the sewer committee. \$2,200.50 was the amount of the bid.

The contract for the laying of sidewalks on portions of Twenty-fourth street was also awarded to the J. P. O'Neill company. Their bid of \$55,090 being the lowest submitted.

Payrolls amounting to \$172.71 for the half month were allowed.

Upon the recommendation of the city engineer the time was extended for receiving bids on the concrete bridge over Ogden river at the mouth of the canyon, from May 11 to May 18.

The sanitary inspector stated that 148 cases of contagious and infectious diseases were reported for the past week. Most of the cases were measles.

An ordinance allowing William J. Stevens, Jr. and his associates to construct a distributing system of waterworks in the Lake View addition and giving him a right of way through the streets and alleys of this addition is lay water mains passed its first reading and was referred to the law committee.

An ordinance fixing the salary of the city treasurer at \$1,800 per annum and outlining the duties of the office passed its third and final reading and will be placed on the municipal laws as soon as approved by the mayor.

The city recorder asked permission of the council to employ a clerk in his office on a salary of \$50 per month. Referred to the engrossing committee.

DEATH OF MRS. BROWN.

Aunt Martha Closes Beautiful Career in Sixty-Eighth Year.

The death of Mrs. Martha A. Brown released from a suffering body one of those noble spirits which are permitted to grace the earth. Martha H. Brown, formerly and lovingly known as Aunt Martha, was the wife of Hon. Francis A. Brown, who during his life was one of Ogden's foremost citizens, prominent in the early upbuilding of the city and a devoted and earnest Latter-day Saint.

The deceased was born at Bureau county, Ill., Nov. 24, 1840. Her parents, William and Emmeline S. Anderson, were among the early settlers of Nauvoo, and the father, Capt. Anderson, and brother, fell in defending that ill-fated city. Mrs. Brown lived and died a true believer in the divine mission of the Prophet Joseph Smith, and remembered Nauvoo with pride. She came to Utah in 1864, settled in Ogden, which has since been her home, having married Elder Francis A. Brown in 1867.

Mrs. Brown was the mother of four sons and five daughters. Among those preceding her to the great beyond were her oldest daughter, Mrs. Frank J. Cannon, who succumbed to pneumonia only a few weeks ago, and for many years police Captain William A. Brown, who met his death in the effort to capture that noted criminal, Al Major. The children surviving her are: Mrs. George H. Isalaub, Mrs. Joseph Balantyne, Mrs. Fred H. May, Bruce L. Brown and Miss May Brown.

The funeral services will be held Thursday, June 7, at 2 p. m., in the Fifth ward meetinghouse.

OGDEN CITIZEN DIES IN MEXICO.

Advises received in Ogden yesterday afternoon from Juarez, Mexico, announce the death of Joseph James, formerly of this city. The cause of the

death as near as could be learned was due to injuries received at a sawmill where James was employed. A log on an incline slipped from its bearings and rolled down upon James, crushing him so badly that he died within a short while. Owing to the laws of Mexico requiring that a body be interred within 24 hours after death, it was necessary to make the interment in that country.

C.C.S. CATARRH

Catarrh is not merely a disease of the mucous membranes and inner linings of the body as some of the symptoms would seem to indicate; it is a deep-seated blood disease, in which the entire circulation and the greater part of the system are involved. Like all other blood diseases, Catarrh comes from poisons and impurities accumulating in the circulation which irritate and inflame the tissues and mucous surfaces, and then the unpleasant symptoms of the disease are manifested. There is a ringing noise in the ears, a thin, watery discharge from the nostrils, filthy matter drops back into the throat, the breath has an offensive odor, and many other annoying and unpleasant symptoms are characteristic of the trouble. Sprays, washes, inhalations, etc., cannot reach the blood, and are therefore valuable only for the temporary relief they afford. To cure Catarrh the blood must be purified. Nothing equals S. S. S. for this purpose; it goes down into the circulation, removes the catarrhal matter, purifies the blood and makes a lasting cure. When S. S. S. has removed the cause, the blood being pure and healthy nourishes the membranes and tissues instead of irritating them with noxious matter, and the symptoms all pass away. Book on Catarrh and any medical advice free.

LYMAN, WYO.

LOST IN THE MOUNTAINS.

Thrilling Experience of Conference Visitors in the Wilds of Wyoming.

Special Correspondence.

Lyman, Wyo., May 4.—On Sunday night, at the adjournment of the quarterly conference of the Wyoming conference which was held here May 2 and 3, all the visitors, who came by rail No. 3, so left Lyman about 8 o'clock to drive to Carter, a distance of about 12 miles. Among those, who left were Elders Hyrum M. Smith and James H. Hart, May E. Connelly, the general board of Young Ladies, President John M. Baxter and Counselors, Stake President of the Y. L. M. A. A. Laura Burdett and Counselor Mary K. Dawson, Bishop James Brown, wife and daughter, Patriarch Joseph A. Quibell, Bishop John Kennedy from Arizle, Peter McKinnon stake clerk, and George A. Pearl, stake superintendent of Sunday Schools. The company left in four or five heavy mountain buggies. The wind was blowing, rain was descending and the night was extremely dark, so much so that those driving white horses could not see them at all.

The rig in which Mary E. Connelly, Laura Burdett, Mary K. Dawson, Tiena Brown, Theda H. Brown, Archibald McKinnon, John Kennedy and George A. Pearl, were riding left the road, and after wandering in the hills for several hours, they decided to stop until morning. Luckily they did, for just a short distance in front of them was the Muddy river. If they had kept on moving, death would have claimed them all.

The buggy containing Pres. T. J. Tingey, Stake Clerk P. McKinnon, Patriarch Joseph A. Quibell and Bishop James Brown left the road eight times, but each time they succeeded in finding it again. About a mile from Carter station, the team left the road again, this time completely overturning the buggy. The team ran away with Bishop Brown caught between the box and the back wheel. Death seemed certain, but in some way he managed to fall to the ground and the buggy passed over him. Patriarch Quibell was very much shaken up. The team ran down the valley and crashed into the rig that was returning after safely carrying some of the company to Carter. The returning rig was completely demolished. The others finally reached their destination in safety.

PRESIDENT'S RIGHT TO DISMISS TROOPS

U. S. Judge Hough Listens to Arguments in Case of Private Reid, Late of 25th.

LEANS TO EXECUTIVE SIDE.

Tells Plaintiff's Counsel Would Require Considerable Legal Proof to Establish Mere Civil Contract.

New York, May 4.—For more than three hours tonight Judge Hough in the United States district court listened to arguments which involved the question of the right of President Roosevelt to summarily dismiss the three companies of negro soldiers of the Twenty-fifth infantry for alleged participation in the Brownsville riot. The argument was on a demurrer interposed to a portion of the answer of the government in the action commenced by Private Oswald W. Reid to recover \$122, which sum represented his wages as a soldier from the date of his dismissal without honor and the date of the expiration of his enlistment. The suit was commenced in the federal court in this district.

To the complaint filed in behalf of Private Reid United States Dist. Atty. Stinson entered a general denial, and for additional defense alleged the right of the president to dismiss the soldiers of these companies, and also referred to the reports of the various army inspectors recommending such action, making the reports a portion of the record of the case. It was to this portion of the government's answer that Charles E. Mellen, counsel for Private Reid, demurred.

Counsel Mellen contended that the enlisted men were protected by constitutional rights, which the president had not the power to take away, even as commander-in-chief of the army and navy, the enlistment operating really from a legal viewpoint, as a civil contract. The real power of removal, the attorney contended, was vested in the Congress, which created the army and navy, the president, as commander-in-chief, possessing it times of peace only the application of the congressional act.

United States Atty. Stinson in reply characterized the legal propositions of Lawyer Mellen as most startling, and insisted the power had been vested in the nation's chief executive to dismiss commissioned officers of the army and navy since the government began, and he could not see how the enlisted men should therefore be surrounded by such constitutional safeguards that even the commander-in-chief could not get by them if he deemed it proper for the betterment and morale of the service.

Judge Hough reserved decision, but told Lawyer Mellen plainly from the bench that it would require considerable legal proof to convince him that the relations of the enlisted soldier and government amounted simply to a civil contract. Beliefs are to be submitted by the attorneys in the case by Wednesday and Judge Hough said he would take the matter up at the end of the week.

The coroner's jury in their inquest over the bodies of Busey and Meng found to the effect that dynamite caused the wreck.
