

choice of Wm. B. Preston as chairman, and Ezra D. Carpenter secretary.

On motion of O. C. Ormsby the chair was authorized to appoint a committee on credentials; the chair appointed John B. Thatcher, C. C. Shaw and Seth Lankton a committee on credentials, who reported the list of delegates.

First precinct of Logan, Alvin Crockett and O. C. Ormsby.
Second, John B. Thatcher and Ralph Smith.

Third, James Quayle and Wm. Partington.

Fourth, Thomas E. Ricks and Eli Bell.

Fifth, Hugh Adams and Robert Henderson.

Hyrum precinct, Charles C. Shaw and Henry H. Peterson.

Smithfield precinct, David Woodruff and Seth Lankton.

Benson Precinct, Charles Reece and Alma Harris.

Clarkston precinct, A. W. Heggie and George Godfrey.

Lewiston precinct, Hans Funk and S. J. Allen.

Newton precinct, John M. Barker and A. P. Welshman.

Tranton precinct, Ira Ames, and W. Blanchard.

Hyde Park precinct, John A. Wolfe and Thos. Duce.

Mendon precinct, Henry Hughes and Walter Paul.

Paradise precinct, Henry A. Shaw and James Lathouse.

Richmond precinct, Henry Staudig and C. H. Monson.

Providence Precinct, J. F. Madison and Frederick Thorn.

Wellsville precinct, Joseph Howell and Evan Owen.

Millville precinct, R. Jessop and Richard Yates.

Randolph, Rich County, Archibald McKinnon.

The report of committee was accepted and committee discharged.

On motion of C. C. Shaw, O. C. Ormsby was chosen permanent chairman, and Henry A. Shaw was chosen secretary.

Prayer was offered by Henry Hughes.

On motion of John B. Thatcher, chair appointed Alvin Crockett, C. C. Shaw, Henry Staudig, John B. Thatcher and Henry Hughes a nominating committee. The gentlemen appointed withdrew, and Wm. B. Preston was called upon for a speech, who responded happily and to the point. The committee came in and reported the following names.

Commissioners to Locate University Lands—John Rowberry, John Van Cott and L. S. Hills.
Territorial Treasurer—James Jack.

Auditor of Public Accounts—William Clayton.

Representatives to Legislature—Wm. B. Preston and Archibald McKinnon.

County Officers.

Probate Judge—M. D. Hammond.
Selectman—Chas. O. Card.
Assessor and Collector—Joseph Goldard.

Recorder—James T. Hammond.
Attorney—H. K. Cranney.
Surveyor—J. H. Martinens.
Coroner—Ezra D. Carpenter.

The report of the committee was accepted and committee discharged. The names of the several nominees were taken up separately and acted upon. They were all sustained without debate until the name of Archibald McKinnon was reached, he then made a short eloquent speech, saying he was sent as the only delegate from Rich County, and instructed to present to the convention the name of Wm. Howard, Jr., as their unanimous choice, which he (McKinnon) heartily endorsed, and very ably advocated before the convention, but the members of the convention had been convinced by the able advocacy of Mr. Howard's claims as the nominee for Rich County by their delegate McKinnon, that he (McKinnon) was the very man himself and heartily and unanimously sustained him.

On motion of Alvin Crockett, the convention resolved itself into committee of the whole, for the purpose of electing a central committee of the People's party for Cache County. The following are the names of the gentlemen elected as such committee: Moses Thatcher, Samuel Roskelley, Wm. B. Preston, M. D. Hammond, O. N. Liljenquist, O. C. Ormsby and Wm. F. Rigby. The convention chose Ezra D. Carpenter, secretary of central committee.

Motion made and passed that the proceedings of the convention be published in the DESERET NEWS,

Salt Lake Herald and Ogden Junction.

Benediction by C. C. Shaw.
Adjourned sine die.

O. C. ORMSBY,
Chairman.
H. A. SHAW,
Secretary.

Dry Farming.

PLYMOUTH, Box Elder Co.,
Utah, July 21st, 1878.

Editors Deseret News:

Harvesting has set in in good earnest, and the reward of industry is abundant. Although the weather has been very unfavorable for an even and plump development of small grain, it will be average with other portions of the Territory abundantly irrigated. Opponents of dry farming have attributed our bountiful harvest to an uncommonly favorable season, but we regard this as an error of judgment, since it is plain that this has been an uncommonly unfavorable season, with but little fall rain and a light winter, together with recent hot weather and parching wind, we should readily determine to be unfavorable to the interests of dry farming. In spite of this, however, our crops are a real proof of what may be produced at average seasons. Having had many advantages to learn the theory of profitable farming, I venture the following suggestions:

It is not imperative that land should be broken deep—about four inches being sufficient; but the second year, plow deep, say eight inches, and across the plowing of the first season. This makes easy work, and places the land under splendid cultivation. Fall wheat should be drilled in, for the reason that in a cold climate like ours, grain near the surface is much more apt to freeze or "winter-kill." For this purpose three pecks to the acre are sufficient, and not to exceed 70 lbs. to the acre sown broadcast. Bushel and a half of barley per acre and two and a half of oats is sufficient. In harvesting a great saving may be insured by the use of headers. To some this may seem absurd, but calculate time, labor, waste, and consequent expense of reaping, binding, hauling, etc., and then the neat cutting of 25 acres per day hauled and stacked, and this done by six hands, and you will readily see the profit and convenience of heading your grain. In this section, George Mason has set the example by purchasing a header and wagons which are now in successful operation.

I will mention that those fine specimens of wheat sent from this section to you, which was noticed in the last issue of the NEWS, were from the farm of H. D. Pierson, Esq., and is only a sample of what may be seen by inspecting his splendid crop.

W. W. FELTS.

94. TELEPHONES!

For short lines my Automatic Telephone is the best in use. I have a test line 1 mile in length that transmits the voice with such power as to be heard in all parts of an ordinary room. Send for Illustrated Circular. J. R. HOLCOMB Mallet Creek, Ohio. 20w41.

BEAUTY:

OR, THE

Secret of a Fair Face

An Item of Interest to Every Lady who Desires to be More Beautiful than she now is.

Unfortunately not one woman in a hundred, subjected to the whims of an American climate, possesses that basis and starting point of real beauty—a pure and clear complexion.

What nature has thus denied, art must be called upon to furnish.

It can be done; it is done daily. Prof. W. E. Hagan placed beauty within the reach of every unblessed daughter of Eve when he discovered that surprising article known in fashionable circles as the true secret of beauty, and called

MAGNOLIA

BALM

The MAGNOLIA BALM is a sure device for creating a pure and blooming complexion.

It conceals all natural blemishes in the most surprising and effective manner.

It removes all roughness, eruptions, redness, blotches, freckles, and tan with magical power.

It drives away all evidences of fatigue and excitement.

It makes the plainest face beautiful.

It gives the complexion a dazzling purity and makes the neck, face, and arms appear graceful, rotund, and plump.

It makes a matron of 35 or 40 look not more than 20 years old, and changes the rustic maiden into a cultivated city belle.

The Magnolia Balm removes all blemishes and conceals every drawback to beauty; and, while it is as harmless as water, it is so life-like in its effects that the closest observer cannot detect its use.

Ladies who want to make themselves attractive can make an absolute certainty of it by using Hagan's MAGNOLIA BALM, and we know of no other way. It is the cheapest preparation in the world, all things considered, and may be had at any drug store.

KELLY STEEL BARB WIRE FENCE

THE BEST AND MOST DURABLE FENCE IN THE WORLD.

Price 15 cents per yard.

One Rod in Length weighs a Pound.
