BREVITIES.

Libbig is growing blind of one eye.
Paris pronounces rats good eating.
A public measure—the grave yard.
Bonner wants to pay \$100,000 for a horse.
A Missouri judge has divorced himself.
Bananas grow in the open air at Augusta, Ga.
London has thirty-three miles of beer shops.
The Pope expects to live ten years longer.
A wooden wedding—Marrying a blockhead.
Isabella, of Spain, pays \$20,000 a month for board.
Death is the drooping of the flower, that the fruit may swell.
Jokes will now be the order about the Schurz stands presented to Carl in California.
Beware of no man more than yourself; we carry our worst enemies with us.
A Kentucky negress presented her lord with six pincushions all in one day last week.—Ex.
We find self made men very often, but self unmade ones a great deal oftener.
Teach your children to help themselves, but not to what doesn't belong to them.
Providence, R. I., in proportion to its population, is the wealthiest city in the Union.
England uses 220,000 pounds of paper annually; France, 100,000 pounds, and the United States, 400,000.
Six gentlemen in New York have taken steps to import 100 Chinese servants for their households.
Coffee raising is to be quite extensively experimented on in Los Angeles, California.
The following notice is posted on the door of the Phenix Hotel bar-room at Concord: "Closed on account of the drought."
A newsboy in New York, the other day, was heard crying out, "Here's your *Pice Gazette*. 'Nother one of them things by Missus Stowe."

A lock of human hair was found by a Maine wood-chopper recently, buried four inches deep in a beech tree. It had been there fully eighty years.
"From Maine to Texas" is now superceded by "from Florida to Alaska," and it is supposed the next thing to say will be "from Greenland to Tehuantepec."

Pittsburg makes a speciality of the manufacture of lamp chimneys and silver glassware. Of chimneys alone, which are made of pure flint glass, they turn out 400 gross per week.

Count Tube, a Swede, has bought all the unsold lands in Polk county, Wisconsin, together with the great water power at St. Croix Falls, for a colony of Swedish emigrants.

A loyal Quebec paper talks unconsciously treason when it says of the Prince's reception that "probably no feature of the ball gave more pleasure to the guests than the supper."

Minnesota has completed its wheat harvest, and estimates the quantity at 22,000,000 bushels, of which only 6,000,000 bushels will be retained in the State.

An old stable keeper in England says he has never had a bad foot on his horses since he commenced the practice of bedding on a thick layer of sawdust. Pine sawdust he finds, the best, oak the worst.

The Hebrew community of London has been admonished by its Rabbi to desist from the practice of inserting the silver year upon the tombstones of their relatives, in addition to the Mosaic year, as in this manner they impliedly recognize the Christian era.

Milton Page, of Alexandria, one day last week drank 74 of the largest eggs that could be picked out of two hundred dozen, weighing 12½ pounds, and equal to 110 common eggs; all eaten in thirty minutes. He has offered to eat 125 eggs.

Dr. Francis Peyre Porcher, in his "Resources of the Southern Fields and Forests," shows that while the flora of New York contains 1,450 species, of which 150 are known to possess medicinal properties, that of South Carolina numbers 5,500, of which 410 have a medicinal or economical value.

Good joke was that, on a "prominent citizen" of Vincennes, Ind., who went on his wedding tour a short time since, to Niagara Falls, and paid five dollars to a fellow who represented himself as superintendent of the Falls, for a certificate setting forth that he had visited all the points of interest in that vicinity on both sides of the river.

Quakers, who do not fight, can conquer where our fights fail; and when a notorious class of traders have done worse than fail, they succeed. The proof of this is the report from Gen. Hazen, witnessing that the Indian reservation system, under Quaker influence, is advantageous and works well. The Indians have come to believe that their present agents are honest, which is a marvelous consummation, and so much gain for saving faith. "All that was wanted was an honest administration," says the General, "and that they have having." It is wonderful that it never occurred to our Administrators before now that honesty could be appreciated by savages, and might prove, even with Indians, the best policy.
