Local dealers shy that 200,000 bushels

of wheat will be shipped in this winter from the northwest, which will even up

the home shortage. The rapidity with which it is being put in here now has brought prices to a stand still, and it is

predicted that there will be no further rise in the prices of flour.

The premises at 131 Main street, for-

merly occupied by Kahn Bros., has been

opened clear torough to the rear, and the building there is to be connected

with the main structure in front by a

12-foot while glass partition reaching to the roof. When the building has been

remodelled, Spencer Clawson will occu-py it.

Favorable Reports Affect Stock-Century Sells for 95-Little Change in Carisa, May Day and California.

It is very evident that not only is the bear movement not over, but also that the mining share market is extremely dull. The lack of an outside element in the trading is being felt now that stocks are so low with a chance that yet lower figures will soon maintain. Even rumors of rich strikes and of other encouraging features at some of the mines have no effect on the stock prices. Some stocks are now way below their actual worth and it is really an evil that they should be knocked down as they have been. There are other stocks that haven't reached their proper level yet, and it is stated that if an outside element is "xpected to trade on the exchange those stocks probably will have to be put at ilgures representing their proper values.

The stocks that represent recognized valuable properties have been quietly purchased to some extent by mining men and their friends for investment purposes, the low figures making them

extremely interesting. It is hoped by many familiar with the mining interests of Utah that some thing will be done to bar out the strictly gambling propositions that give the exchange a bad reputation and injure the really valuable properties by dis-couraging investors with frequent and absolutely unwarranted fluctuations.

The trading this morning commenced with Ajax, which changed hand with around 59, closing with 58% asked for the stock. Carisa was dealt in to the extent of about 7,000 shares at 55 and
