

FOUR DROWNED, A SCORE INJURED

Landing Slip at Stone's Landing,
Wash., Breaks With a Par-
ty of Picnickers.

EXCURSIONISTS EMBARKING.

Handed or More Were Precipitated
Into Twenty-five Feet of Water—
Work of Rescue Hard.

Tacoma, June 24.—Four were drowned and a score or more injured at Stone's Landing yesterday by the breaking of a landing slip of the steamer Multnomah, which was taking aboard a picnic party, numbering upwards of a thousand members of the Swedish Order of Valhalla of Tacoma.

THE DEAD.
Agnes Peterson, aged 10, daughter of Peter Peterson.
Elmer O. Oberg, aged 4, son of Fred Oberg.
Daisy Oberg.
Elmer Bodin, aged 30, Seattle.

THE INJURED.
Mattie Leclair, Spanaway.
Bertha Eubank, Parkland.
Mrs. Fred Oberg, and daughter, Esther, aged 15; Edith, aged 13; Judith, aged 10; Ellen, aged 6.
Mrs. C. N. Johnson, 2127 South K street, Tacoma.
Mrs. Gustave Peterson, 1519 K street.
Mrs. G. A. Willen, and two children, 1210 North Ninth street.
Mrs. Adolph Lundell, 826 South Prospect street.
Miss Mabel McCannaby, 416 South Yakima avenue.
Mrs. Charles Williams, 1103 North Oak street.
Mrs. Gertrude Malcom, 1320 South L street, bruised and condition serious.
Mrs. Hannah G. Hodson, 1745 South A street.
Mrs. H. W. Hall, 703 South Fifteenth street.

All but one of the dead and injured lived in Tacoma.

The accident happened while the excursionists were embarking on the steamer for their return to Tacoma.

Suddenly with a terrible crash the slip gave way, precipitating a hundred or more men, women and children into 25 feet of water.

Capt. Mathieson of the Multnomah lost no time in getting the crew of 20 at the work of rescue, and within five minutes all who could be found were out of the water. The crew's work was impeded by frantic persons grabbing and upsetting life boats. To add to the confusion, excited fathers, brothers and friends of those in the water sprang from the dock to save loved ones and the mass of humanity became so great that the rescuers worked under great difficulties.

Many acts of heroism were recorded. One man clinging to the piles and supporting himself in the water saw a little girl floating near. He seized the child's dress and aided in putting her in a life boat, which was almost immediately upset by four crazed men seizing its sides. One woman rescued attempted to jump back into the sound, crying: "I want my baby." She was assured that the child was safe and permitted herself to be taken away. One 4-year-old boy taken from the water unconscious was kept at Stone's Landing while the family was almost immediately notified. No one knew where the little one was. The little one died of exposure and injuries.

THE MAGIC NO. 3.
Number three is a wonderful mascot for Geo. H. Harris, of Cedar Grove, Me., according to a letter which reads: "I am a well known man. I have had kidney trouble, and becoming greatly discouraged by the failure to find relief, I tried Electric Bitters, and as a result I am a well man today. The first bottle relieved and three bottles completed the cure." Guaranteed best remedy for stomach, liver and kidney troubles. By Z. C. M. I. drug store, druggists.

LONE HIGHWAYMAN HOLDS UP TWO STAGES.

Fresno, Cal., June 24.—At 10 o'clock this morning a lone highwayman, containing 22 passengers were held up by a highwayman, who secured about \$150 from the crowd. The holdup occurred between Summit and Grady Gulch, but the highwayman, near where all the previous holdups occurred. When the first stage reached Brunner's mill and was going slowly along the road, the driver was suddenly halted by a masked man stepping out of the brush and leveling a new rifle at his head. When the second stage came up a few minutes later came the order from the robber to the driver to pull up by the other stage. The passengers were ordered to go in a hurry. The bandit appointed a collector as soon as the passengers were lined up, and told him to pass the hat. When the collection was over the collector was commanded to transfer the money from his hat to a handkerchief and tie it up and leave it in the road. The travelers were then ordered to resume their seats and the drivers were told to proceed.

Rewards have been offered and a determined effort is being made to capture the bandit.

THE GREAT BATTLESHIPS.

To Build Them at Government Yards
Would Cost a Million More.

Washington, June 24.—Because of the great disparity in equipment the big navy yards at Mare Island and Brooklyn stand no show in the award of the contracts for the two new 20,000-ton battleships, proposals for the construction of which were opened last week. The bids submitted by the navy yards have not yet been made public, but they are greatly in excess of those from shipbuilding firms.

Secy. Metcalf has pointed out to those who urged having the ships built at the Brooklyn yard that this would involve an expenditure of from \$500,000 to \$700,000 more than if the lowest responsible bids were accepted.

TO CURTAIL POWER OF HOUSE OF LORDS

Premier Campbell-Bannerman In-
troduces Resolution for That
Purpose in the Commons.

THE HOUSE IS PREDOMINANT.

That is Principle of Resolution—Would
Reduce Life of a Parliament
To Five Years.

London, June 24.—Premier Campbell-Bannerman today moved his resolution curtailing the power of the house of lords before the fullest house of the session. The galleries also were crowded, those present in that part of the house of commons including many peers.

The resolution was as follows: "That in order to give effect to the will of the people, as expressed by their elected representatives, it is essential that the power of the other house to alter or reject bills passed by this house should be restricted by law; that within the limits of a single parliament the final decision of the house of commons shall prevail."

Replying to a question, the premier said it was not proposed that the resolution should be moved in the upper house after its passage in the house of commons had been completed.

He emphasized the fact that the resolution embodied the principle of the predominance of the house of commons and said that in adopting this course the government was following certain historic precedents.

The resolution itself, even if adopted, would not have the effect of law or procure the desired results; a bill would be necessary and the government would exercise its discretion as to when it should be introduced. His resolution, he said, was intended to test the opinion of members and make sure that they have the house of commons behind them. They hold the house of commons alone is authorized to express the country's sentiments. He declared that the only course open was to recognize the constitutional authority which resides in the house of commons.

Amidst loud ministerial cheers the premier protested that parliament should not be usurped by a non-elective house. The government proposed that there should be conferences between the house of commons and the house of lords where differences arise over a bill. If no agreement is reached, the bill should be reintroduced and sent to the house of lords with a declaration that, should a second conference fail to result in an agreement, the house of commons would pass the bill over the head of the lords.

Continuing, the premier said the present government believed that the reduction of the period of existence of parliament from seven to five years would effectively prevent "an effete government which had lost the country's confidence from forcing through unpopular and improper measures."

Balfour, the opposition leader, opposed the resolution and defended the house of lords. He admitted that the house of commons was the elected house, but declared that even if he abolished the house of lords the country would insist upon a substitute.

One of the leaders of the house participated in the prolonged debate.

TELEGRAPHERS WILL APPEAL TO PRESIDENT.

Oakland, Cal., June 24.—President Small of the Telegraphers' union announced this afternoon that he would ask the United States government to intervene in the settlement of the strike. He said he would appeal to President Roosevelt and members of the cabinet to help him to end the strike. The transaction of business of national importance is being interfered with, because of the strike. President Small asserts that when intervention is made by the president and cabinet officers it will be learned that the striking telegraphers are in no wise to blame for the strike.

REMARKABLE RESCUE.

That truth is stranger than fiction, has been demonstrated in the little town of Pedora, Tenn., the residence of C. V. Pepper. He writes: "I was in bed, entirely disabled with hemorrhages of the lungs and throat. Doctors failed to help me and all hope had fled when I began taking Dr. King's New Discovery. Then instant relief came. The coughing soon ceased; the bleeding diminished rapidly, and in three weeks I was able to go to work." Guaranteed for coughs and colds, 50c and \$1.00, at Z. C. M. I. drug store. Trial bottle free.

HEAT IN PITTSBURG.

Eleven Persons Dead, More Prostrated
From It.

Pittsburg, June 24.—Eleven persons are dead and many prostrated as a direct or indirect result of the warm weather experienced in the Pittsburg district within the past 24 hours. The maximum temperature today was 82.

TRANSPORTING MILITIA.

Traveling Under Department's Orders
To Be Treated Same as Regulars.

Washington, June 24.—The comptroller of the treasury today decided that the payment for the transportation of any body of organized militia, when traveling under orders of the department, shall be governed by the same restrictions as apply to the transportation of regular troops. The question arose in connection with the visit of the Hawaiian militia to Camp Perry, Ohio, to participate in the national rifle match this summer, and it was desired to know whether the expenditures of transportation were payable from the regular congressional appropriation for the support of the militia, which question is decided in the affirmative.

THE INSIDE ON SAN FRANCISCO

No Question But Eugene Schmitz
Will be a Candidate for
Re-election.

WANTS "TO BE VINDICATED."

Gossip on Current Topics of Interest to
Those Studying Conditions Now Ex-
isting in Golden Gate.

SPECIAL CORRESPONDENCE.

San Francisco, June 22.—With its duly elected mayor in jail and an acting mayor who ought to be, San Francisco is struggling along the best way she can, hoping against hope that the future may have better things in store. The Moses who is to lead us out of the wilderness has as yet not come to the front and the executive, judicial and legislative branches of the government are in a sad tangle. Mayor Schmitz, indicted for extorting money from the French restaurant and promptly convicted of the crime, fulminates from the county jail that politics caused his conviction and he is still willing and able to carry on the business of his office.

SCHMITZ' REGRETS.

In notifying the supervisors that he is still mayor of San Francisco Schmitz refers to them twice as an honorable body and says that he is temporarily unable to perform his duties because of detention in the custody of the sheriff. He maintains that by their action appointing James L. Gallagher as acting mayor, the supervisors were taking the first step towards securing control of the municipal government in order to give valuable franchises to the wielder of the big stick, Rudolph Spreckels, and other valuable privileges accorded to those who have co-operated with him in his endeavor to purify the city.

CANDIDATE FOR RE-ELECTION.

There is no question but Eugene Schmitz will be a candidate for re-election as mayor next fall and a tremendous fight will be put up for him by his friends in the Labor Union party. In his own opinion he has been vindicated twice at the polls, and he means for a third vindication which will be somewhat in the nature of a climax. His press agent ought to suggest to him a radical change in his present mode of life. Instead of the big red automobile with champagne and high living he should take the heavy and weary of prison fare and be a real martyr to the labor cause.

MUNICIPAL RAILWAY.

The folly of using nearly a million of taxes to build a municipal street railway when the money is so urgently needed for other purposes is severely condemned by all here except the yellow A. Morning paper. Says this day editorially: "The diversion of public moneys at this time to the construction of street railways would be one of the worst of the criminal acts of the unfaithful, corrupt and shameless San Francisco. Our public buildings lie in ruins. Our streets are in deplorable condition. Many of the principal thoroughfares to Golden Gate Ave. are impassable. Business is hampered. Trade is depressed. The public is inconvenienced and financially injured. There is no demand for the street railway. It is a waste of money for the immediate construction of a municipal railway."

LEADERS DENY IT.

The labor union leaders are vehemently denying that they publicly advised the striking carmen to wage through blood in order to accomplish their end. There was plenty of talk of the union to the ground, and staying there for a while for the good of the cause but there never was a mention of blood. The Chronicle has editorially apologized for bringing in the blood and the union leaders have passed up to some luckless reporter whose vivid imagination got him into print and trouble at the same time.

HEAVY PASSENGER.

Apologies of the car strike there is one union bus driver who regrets that the carmen's committee wrote to Baby Schmitz that he must not ride on the cars again but must organize union buses. Baby Schmitz weighs 400 pounds and has a shoul on the Cliff House. Since he received the letter he has been making a habit of riding on the cars twice a day and when he gets into the union bus at the ocean beach and gets out at the foot of Market street he has a hand smile when he pays the driver 10 cents. The driver thinks that he ought to be allowed to charge by the pound instead of per capita and the union may get Baby to ride on the company's cars all day to break them down. Baby says "Dots a good joke."

LID CLOSED DOWN TIGHT.

The other night the lid of the tenderloin closed down tight and the only satisfaction given the gay roysters who like midnight better than midday, was a hint that there would be "nothing doing" for Police Capt. Mooney "go home. Mooney has been guilty of breaking a sacred rule of the police department as to bringing scandal on fellow members and he is to be banished from the tenderloin to the public house. He is to be publicly doubt the integrity of Chief Dinan. Meanwhile he persists in making ill-timed raids on joints which are entitled to protection and against three hundred men from the tenderloin. When a quietus has been put on Mooney the cars are at the ferry will resume the old job of "putting phosphorus on likely looking 'Rubeys'" so that they cannot leave them at night.

WATER BECOMES MOTORMAN.

The Walters' union has expelled a member who sought to better his condition by becoming a motorman on the United Railways but as yet the luckless man has taken no action against the union. The union charges 10 cents to any part of the city and seriously interfere with their business. Many unions have imposed fines from \$25 upward for members riding on the cars but the respective union treasuries have not been enriched much thereby though the cars are filled daily by working people. No republican has as yet been given the union man employee to fix the city's typewriters for devoting his time to inventing an underground electric conduit.

JAPANESE IN DISGUISE.

Some one has made the awful discovery that the wily Japanese are landing at this port in all sorts of disguise. The newspapers are greatly wrought up about it and it is being urged as a counter claim to the wrecking of the Japanese restaurant by some of our festive citizens. There are quite a number of Japanese here and if they are in disguise it will be awkward to know how to treat them. In hiring a man to wash your windows you might be insulting a millionaires and in offering a tip to one for brushing your clothes you might give mortal offense to a prince of royal blood.

BARRED FROM TEXAS.

All Persons Suffering From Tubercu-
losis in an Advanced Stage.

Chicago, June 24.—A dispatch to the Record-Herald from Austin, Tex., says: All persons suffering from tuberculosis in an advanced stage are to be barred from entering Texas.

Dr. W. H. Brumby, state health officer, said last night that within a few days he would issue a proclamation establishing a rigid quarantine against all persons afflicted with the disease in an acute degree. In doing this he places tuberculosis in the same category with yellow fever and smallpox.

Dr. Brumby has just returned from a trip of investigation to points in southwest Texas, where he says he found many health-seekers who had just entered the state suffering from tuberculosis.

A FORTUNATE TEXAN.

Mr. E. W. Goodloe, of 107 St. Louis St., Dallas, Tex., says: "In the past year I have become acquainted with Dr. King's New Life Pills, and no laxative I ever before tried so effectually disposes of malaria and biliousness." They do not gripes. Price at Z. C. M. I. drug store.
