The Porte has not yet accepted Ignatieff's proposals. Attorney for D. C. resigned. The Khedive's estate, judgment against it.

Philadelphia wool market. EDITORIAL NOTES.

Californians are complaining of excessive taxation. The Milwaukee *Sentinel* talks this way: "We had a fellow up in Wisconsin—Bill Taylor—who always went to the table in his shirt sleeves, and that sort of a thing. We elected him Governor, and he stole everything he could reach."

A new industry, that of drying eggs, has been set on foot at Passau, on the Danube, and the Prussian military authorities are about to give the product a trial for soldiers' rations.

The Springfield *Republican* says: "A professional trapper with 200 traps is catching muskrats on the Housatonic river, below Pittsfield, moving two miles a day and catching about 300 rats a week. He says that in twenty years' experience he has never seen them better or plenter, and he gets 90 cents a piece for them from the Gunthers, of New York."

The London *Times* says: "It may be said that, as far as can be ascertained at present, the territory known as European Turkey, a region considerably larger than the United Kingdom, contains about eight and a quarter millions of inhabitants, among them three-quarters of a million of true Osmanli. Religion divides the remaining seven and a half millions in the proportion of about three Mahomedans to four Christians; the former representing chiefly converts made during four centuries of unrelenting despotism."

The heirs of William Penn now receive from the British Government, and are to receive "forever," \$20,000 a year, in compensation for their proprietary rights to Pennsylvania, and the British Government thinks as the United States owns the rights in Pennsylvania the United States Government ought to pay the pension to Penn's heirs.

The Empress Eugenie has instituted legal proceedings against the Radical journal *Les Droits de l'Homme* for the publication of an alleged document stating that she was not of legitimate birth.

The grasshopper is a burden in the northwestern States. A letter from St. Paul to the *Pioneer Press* says: "A short trip through Nicollet, Sibley and a part of Brown counties has convinced me that the grasshopper question is one of much more serious importance than our people suppose. In a drive of thirty miles I did not see a furrow turned. Vacant houses and deserted farms are not infrequent. Those who remain cannot possibly hold out much longer. Many of them are actually facing starvation. Unless a change comes

soon, our western counties must be depopulated."

## A NICE THING IN A DEMOCRATIC REPUBLIC.

THERE was a dispatch in Wednesday's NEWS of a rather extraordinary nature, confessing or indicating so much of certain party animus and policy that it seems to merit republication, and a more prominent place among passing news. It runs as follows:—

"CHICAGO, 24.—The *Times* Washington special says Senator West has arrived from Louisiana, in company with Secretary Morrill and Secretary Chandler, having had an interview with Mr. Cameron. The object of the conference was the securing of an order for a large transfer of troops to Louisiana, as has been done in South Carolina. West thinks the State can be carried for Hayes if several thousand soldiers can be sent to that State to work with the deputy marshals in controlling the election. On West's representations, Chandler advised that a similar order be issued as had been sent to Louisiana. It is expected that the additional troops needed will be taken from Phil Sheridan's department. A similar formality will be observed in Mississippi as soon as this Louisiana matter is disposed of. The administration hopes by this use of the soldiers to carry three States of the South, and so make good the possible losses in the North."

This whole paragraph is of itself so expressive that we shall indulge in no extended comment upon it, merely reducing it to its principal points thus:—

1. Three federal secretaries and a senator have a conference.

2. The object of the conference is to have a large military force sent into Louisiana.

3. The senator thinks that if several thousand soldiers work with the deputy marshals in controlling the election the vote of the State will be secured for the Republican party.

4. Consequently a large number of troops are to be sent to work with the deputy marshals to control the election and secure the vote.

5. Therefore the election in Louisiana is to be controlled and the vote secured by federal deputy marshals and federal military.

6. A hasty "bloody shirt" report is to be made, on which to base a proclamation and orders for an interruption of troops.

7. When Louisiana is thus disposed of, Mississippi is to be treated in the same way.

8. By the use of soldiers to carry the vote of three southern States the administration hopes to counteract a Republican loss in the north and save the whole country from a Democratic administration.

Concerning all which we may simply ask if it is the latest and most improved version of the freedom and independence characterizing this boasted land of liberty, this much vaunted democratic republic, this model form of government of, for, and by the people?

We may further observe that this is a little ring of turbulent partisans hereabout, who would be very happy to secure the vote of Utah by marshals, if these aids could be obtained to control the election, said partisan ring well knowing they could never secure the vote by any fair means.

TO-DAY'S DISPATCHES.

EASTERN.

Procession and Fight.

NEW YORK, 27.—As a procession was passing along Third Avenue, quite a serious disturbance took place between a Nineteenth and Twentieth Streets, resulting in a free fight and several persons badly injured. During the confusion of the fight some of the torch-bearers set fire to a large banner of the 18th Assembly District Republican Association, and it was totally destroyed. A new one will be raised in its stead this evening, when the republicans of the district will meet in large numbers.

Fatal Railroad Accident.

This morning a freight train on the New Jersey Midland Railroad fell through the trestle and bridge work at Hawthorne, the engine and tender landing end foremost upon the Erie track, and the cars tumbling in a pile upon them. The engineer, fireman and three brakemen were fatally injured, and the conductor had both legs broken.

81,000 Reward.

The Railroad of New Jersey offers a reward of \$1,000 for the conviction of the party or parties who misapplied the switch on the night of Oct. 24th, which resulted in the loss of three lives and the wounding of fourteen passengers.

The Board of Excise Arrested.

The entire board excise was arrested, tonight, on complaint of the liquor dealer, who charges them with the violation of the excise law, in granting license for the sale of spirituous liquors to proprietors of eating-houses.

Appointment.

Jas. J. Brooks, of Philadelphia, for a long time in the Government secret service, has been appointed to succeed Col. Washburn as chief of the secret service of the division of the Treasury.

The Indian P. See Commissioners.

CHICAGO, 27.—A telegram from the Yankton agency says that the steamer *K. K. Peck*, passed down at noon to-day, with the Sioux peace commissioners on board. They report their mission has been satisfactory and successful.

They held councils at all the agencies on the Upper Missouri, and the treaty was signed by all the head chiefs of the different bands. The Commission, at the request of the Indians, struck out the section proposing to remove them to the Indian Territory. The Indians accepted all the other propositions without objection.

Explosion of Road Rock.

ST. JOHNSBURY, Vt., 27.—This morning, at Cahoon Falls, six miles north of this place, Frank Johnson, of Windham, Me., Chas. Chubb, of Concord, N. H., and Jos. Heon, of St. Johnsbury, were excavating for a paper mill, and placed some road rock to dry under a stove in the basement while they were at work on the first floor. The explosive ignited and blew the building, twenty feet square, into kindling wood, and hurled the men skyward. Heon was decapitated, and may die. Johnson and Chubb will recover. A falling derrick instantly killed the third man, one of the proprietors of the St. Johnsbury Granite Co. Hawkins was thirty years old and recently married.

Resigned.

WASHINGTON, 27.—E. L. Stanton, son of the late Secretary Stanton, and attorney for the District of Columbia since the formation of the present form of the district government, has tendered his resignation, to take effect on the 31st inst. His resignation has been accepted by the Department of Commission.

Another Cadet Dismissed.

ANNAPOLIS, 27.—Cadet midshipman R. R. Cockle, of Ills., who refused to testify in the investigation of the case of the *Lazers*, has been dismissed from the United States Academy. This is the ninth cadet dismissed for the same offense within two weeks. The whole of the third class, it is said, will have to be dismissed. The court of inquiry into the hazing is still in session.

GREAT BRITAIN.

Tchernayeff Will Fight to the Last.

—The Ministers Would Resign if They Could.

LONDON, 27.—The *Times* correspondent at Belgrade says the depression here continues. I cannot help thinking we are at the beginning of the end. If the Russian army is left unassisted, the Turks will assuredly reach Belgrade. They are advancing slowly but irresistibly, however, and unless an armistice is concluded, Gen. Tchernayeff will certainly fight to the last. There is scarcely any reason to doubt that the Russian government has lost all control over Tchernayeff, who is completely at variance with the minister of war. With regard to the rumors of a crisis, the correspondent says doubtless the ministers would gladly resign if the Prince would accept their resignations, and if they could get others to replace them, but these difficulties make a change of ministry impossible. It is generally expected here that Serbia will be created a kingdom, but this anticipation only increases the growing dread of Russian patronage among the better classes of Servians. Only thirty Russians arrived yesterday.

Evacuation of Kaonick.

The *Times* correspondent with the Turkish army telegraphs from Nish, October 25th, that the Servians on the 21st evacuated Kaonick after a short fight. The Turks hold the town and have found valuable booty there.

Campaign Ended for This Year.

—Dervish Pasha's Army Demoralized.

The *Standard's* dispatch from Ragusa says the complete failure of Dervish Pasha's recent attack on the southern frontier of Montenegro ends the campaign for this year, as the winter has commenced. Moutkar Pasha has shortly withdrawn to Trebinje. The plain around Trebinje is completely flooded. Dervish Pasha's army is thoroughly demoralized. All the Catholic Albanians who joined the Turkish standard, have returned home and refuse to relinquish the arms supplied to them by the Turks. The Asiatic volunteers have demanded to be discharged.

The Greatest Success of the Campaign.

A Vienna correspondent of the *Times* confirms the capture of Djunis by the Turks. He gives a circumstantial narrative of the five days' struggle, from the 17th to the 23rd inclusive. He says it was unquestionably the greatest success during the campaign. In consequence of their defeat the main portion of the Servian army has withdrawn to Belgrade, but a part at least of Howat's force has been cut off in the direction of Krusatz, whence it can, however, retreat by Servian Morava to Shalatz. It is not known whether the Servians will hold on to the left bank of the Morava, but this seems to be immaterial. They cannot make a stand there, as they would be liable to be cut off from the river and forced to the angle formed by the confluence of the two branches of the Morava. Unless an armistice is concluded, a Turkish move back their defensive line from Alexinatz and Deligrad to Parathen and Cupriza, which would open the Moravia Valley with all its resources to the Turks.

Religious Agitation—The Russian Ironclad Squadron—The Porte Has Not Yet Accepted.

Religious agitation has begun in Morocco, with the object of procuring help for Turkey. The Christians apprehend a Moslem outbreak. The foreign consuls have communicated with their governments in the subject.

The Russian ironclad squadron will winter in Italian waters, to be ready to proceed to the east in case of need.

According to private dispatches from Constantinople, dated yesterday, the Porte had not accepted Gen. Ignatieff's proposal for a six weeks' armistice.

Opposed to Russian Power in Turkey.

The liberal newspapers of Berlin are almost unanimous in their vigorous declarations against the establishment of Russian power in the Turkish provinces.

The *Voss Zeitung* urges the propriety of placing the reform under the English instead of Russian control.

Return of the British Arctic Expedition.

A telegram has been received announcing the return to Valentia of the British Arctic Expedition, under Captain Nares, comprising the steamers *Alert* and *Discovery*, progressing to the north pole was impossible. Captain Nares reports that no land could be discovered to the northward of the highest latitude reached, namely 82° 45' N., but in other respects the expedition was successful.

The *Alert* has proceeded to Queenstown and Captain Nares to London. All well.

The *Alert* arrived at Valentia at 2.30 this afternoon, being the first port made since leaving the frozen regions. She parted company with the *Discovery* in the Atlantic.

Judgment Against the Khedive.

CAIRO, 27.—England, France, Germany and Austria have ratified their approval of the judgments against the Daira or Khedive's private estate.

CENTRAL AMERICA.

DESTRUCTIVE HURRICANE.

PANAMA, 19.—A severe cyclone passed over the Central American States on the 3d and 4th insts. The town of Managua, Nicaragua, was inundated on the 4th; about 400 houses were blown down, and the inhabitants had to climb on the top of their houses to prevent being washed away by the flood. Many were drowned by the houses falling. The total damage is estimated about \$2,000,000.

The town of Bluefields, on the Mosquito Coast, Nicaragua, also experienced a hurricane. Over three hundred houses were blown down. The same storm passed off the Lake of Nicaragua, causing an immense amount of damage. The *Comodore Adams*, a lake steamer, was lost.

Disasters at Sea.

The steamer *Cos's Rica*, from Panama, Sept. 29th, for Acapulco, was caught in a cyclone on the 4th inst, and roughly used, losing the head of her mainmast, main top mast and gall, two quarter boats and a blade of her propeller. The bark *Prima*, recently arrived at Montevideo, reports having received from the American ship *Independence* the crew of the English ship *Scotland*, and from Glasgow to San Francisco. The *Scotland* had been blown on her beam ends in a gale, and subsequently foundered.

The loss on the coffee crops is estimated at three million dollars. About twenty lives were lost. The whole district is completely flooded.

The Rebellion Continues—Fighting Progressing.

The rebellion continues in the United States of Columbia. The government intends, it is reported, to raise an army of 30,000 men to suppress it. Fighting has been progressing in Tolima, where Gen. Delgado defeated the rebels under their chief Casabianca. This leader retreated into Antioquia, and the rebel forces have been driven back to the state, with whom he formed a junction, are now said to amount to 10,000 men. Gen. Delgado, of the national army, has joined General Triunfo, in the State of Canca, and their united forces number 10,000 men.

The rebels hold Pasto. No movement has yet been made by the national troops in that direction.

General Sanchez with 15,000 men goes to the Pacific; from that place the capital is safe from a coup de main on the part of the rebels.

President Para is expected to enter into Medellin soon with 15,000 men, and there were some prospects of the end of the rebellion.

The papers relate an anecdote of a beautiful young lady who had become blind, having lost her sight after a marriage. It is unknown what had become of her, but it is said to be a true story.

DIED.

At St. Louis, Mo., October 21, 1876, of typhoid fever, FRANCES JANE HOWELL, daughter of William and Louisa Howell, aged 13 years, 5 months and 25 days—*Opinion* buried.
