standing signs of activity the state depariment had nothing this morning of sterest touching the Chinese situation. The imperial edict promulgated yes. terday by Viceroy Tak at Canton, has laft a disagreeable impression here peoplie the Chinese minister's view to the contrary, this edict is looked upon as suspiciously like a preliminary to a formal declaration of war, and only one step toward securing time to move Chinese forces into a better position for defence against the internationals. The notice that came to the state decariment that Korea is free from the Boxer agitation was well received, for it is believed that Russia will thus be enabled to spare many more troops from her Siberian army, for use in the internal force. With it the navy department sent over a copy of a dispatch ceived from Admiral Remey, making some changes in the marine body. Minister Wu also came down and asked for half an hour with Acting Secretary Hill but he declared he had nothing from home, though he was confident of important developments in the immediate future. The Chinese minister expressed to Secretary Hill his continand hope that the ministers in Pekin were still safe, and said he believed he would be able to deliver to the depart-

ment a message from Minister Conger that would make that hope certain. The state department had no infor-mation of any kind from its officers in hina. Acting Secretary Hill said the hinese minister had received no coruunications from China, and had no in ormation to impart, and the confer-nce with the minister was simply an nterchange of courtesies.

#### ALLIES ARE DISAGREEING.

London, July 26 .- While the latest imression derived from the array of con-ficting telegrams from the far East is that a portion of the foreign colony at Pokin may have escaped slaughter until a recent date, the general concen-sus of the best informed opinions of Europe seems to continue to favor the acceptance of the worst news and prompt action thereon, the contention being that the only possibility of deallied commanders inquiring at Pekin. Judging from the news from Tien Tsin, ever, recording divisions among the admirals there, the prospect for i speedy advance seem to be endangered unless the governments speedily agree upon a supreme leader.

"Taku, July 24, Che Foo, July 25. Bureau Navigation, Washington.-Col. Meade condemned to Mare Island hospital, rheumatism, Maj, Waller suc-ceeds command first regiment. My obtainable information clears marines of any imputation burning houses or looting Tien Tsin.

COL. MEADE ILL.

The fact that Col, Meade, who was in oommand of the marines at Taku, has been invalided home on account of rheumatism, has created no surprise among his comrades of the navy who know him best. While a man of in-domitable will, Col. Meade's vitality has been below par, and it has been an almost constant struggle for him to perform his duties. Col. Meade has een the ranking marine officer at the Cavite naval station since its estab lishment. His departure from Taku will leave Lieut, Col. Coolidge of the Ninth infantry in command of the American land forces. The latter's command, however, will be only tem-porary, as the arrival of the Grant with Gen, Chaffee within the next few days will place the general in supreme command.

Maj. Waller, who is now the ranking marine officer, also will give way to Maj. Elddle, who has with him on the Grant two companies of the Fourth bat-talion of marines. The acquisition of the 225 marines will bring the force of marines close up to 700.

Owing to the largely increased force of marines and the reinforcements which are on the way from the United States, Col. William S. Muse-who is now stationed at the Mare Island navy yard. San Francisco, may be assigned to command them.

This is the father's story of the disappearance and description of the lad:

"He is 7 years of age, though looks large for a boy that old. He was wear-ing a sailor's blouse, white front, trimmed in pink; also blue cap and checked knee trousers. We waited for ilm to come back last night and when he did not do so we notified the police. When we could not find him we re for the night expecting that he might put in an appearance some time today. Of course, his mother is much worried about him. We used to live in Pocatello where I was in the saloon business and where the boy ran away several times before and stayed out all night without us knowing where he was. It may be that he has just turned the same kind of a trick here, and that he will show up again all right."
