A WORD OF COUNSEL TO THE LATTER-DAY SAINTS, CON-CERNING THE CONFER-ENCE AT ST. GEORGE.

As the time draws near for the holding of the April Conference at St. George, and as doubtless many of those living in distant parts of the Territory have an anxious desire to be present then and at the attendant dedication of the Temple, it will be well to bear a few facts in mind.

Our General Conferences have of late years been held in the New Tabernacle in Salt Lake City, and spacious accommodation has been afforded the people; but in the approaching Conference we contemplate assembling in the lower main room of the Temple in St. George, the water, that the cleansing may which, being without galleries, affords but about one-sixth of the seating to be found in the New Tabernacle in Salt Lake City.

There being no railread in this part of the land, many horses and mules will necessarily be used to bring the brethren and sisters who come to Conference. As general information to those who have not been here, we state that the stock range in the vicinity of St. George is very limited and hay and grain have little chance of going into are scarce.

The citizens of St. George will, no doubt, to the fullest extent, manifest the proverbial hospitality of the Latter-day Saints, but at the same time, as there are no empty same time, as there are no empty the radicals of his party. The houses, all they can do will be but sharp - tongued Blaine has alto share their house room with the many who will come.

In view of the foregoing circumatances it is advised-

1. That too many from the northorn settlements do not make the exertion to come to St. George to Conference.

2. That those coming to Conference either bring their own horse feed, or cause it to be brought from settlements where it is more plentiful. And,

3. When those coming have small tents and other conveniences for camping, that they bring these d will not suit the radical wing of business will suffer no interruption, standing committees was submit. Basett OM Hancok J

alleged continual conspiracies against public order and tranquility.

-Moody holds that it is not true that if a man was born in Boston he does not need to be born again.

-The New York Herald's relizious editor says, "If it should ever be your good fortune to be baptized, keep your purse in your pecket during the ceremony. A great many people make the mistake of laying aside the pocket book at such a time, and the consequence is that

while they are themselves baptized their pocket-books are just as worldly as over. The better way is to take everything with you into be complete."

# "UNEASY LIES THE HEAD."

THE position of the new President is not an enviable one. His intentions may be very good, and he may mean to serve his country rather than his party. But between him and the country lies the party, and if he does not please the party, his well intentioned measures will

effect before the country. The President evidently desires to have a compromise policy,a conciliatory, moderate, conservative polley. This will highly displease ready begun to blurt this out rather noislly in the Senate, and others will be likely to act

similarly, but in a more offensive manner. The President's proposed cabinet runs against snags in the Senate, and that august body does not run eagerly to the confirma-

It is not believed that this manifestation of spite will that this manifestation of spite will in any circumstances, for an ob-defeat the confirmation of the cabi- scure man like Hayes to make such defeat the confirmation of the cabi-net selections, but if such should be the temper of the Senate, Presi-dent Hayes would still be able to have his chosen advisers in spite of the opposition of the Senate, by simply giving notice that he has no further business with that body.

The "Times" Thinks Mayes' Policy Means Music. The Zimes says Hayes in his cab-inet selections has given the coun-try the first distinct indication; and not try the first distinct indication that he intends to go back on the damnable policy of the Grant regime, relegating the Mortons, Bialues, Chandlers and Camerons to the rear, and bringing forward the liberal, independent element. This means music. It means a smash up of the old party combi-nations that will benefit the coun-

The Post says: We are unwilling to believe that any considerable number of republican senators will follow the tripartite associates in their factious course, but if they do se, public opinion, which they de-fy, ought to be made plain. Could the people at large be accommodated with room in the Temple, we should be very pleased to have them present to take part in the dedicatory proceedings, and to receive such information direct as the Spirit of the Lord may have for us. But as temples are made for ceremonial rather than for congregational purposes, the number present at any temple dedication will necessarily be limited.

So far as the dedication of a temple is concerned, we will say that the people of San Pete and vicinity, and of Cache County and vicinity, as well as of Salt Lake City and vicinity, will have opportunity afforded them of being present at such proceedings in the early future, on condition of their faithfulness in completing, respectively, the Manti, Logan, and Salt Lake City temples.
