fie Was Slightly Injured-Believes Discharged Men Committed Deed.

Butte. Mont., April 30,-The home of J. G. Wicklund, foreman of the quarries of the Washoe Smelting company near Anaconda, was demolished by a charge of giant powder at midnight. His wife and baby escaped unburt. Wickland was injured, but not serious-

A Butte, Anaconda & Pacific freight train, en route to the quarry, narrow-ly missed a wreck Wednesday, a crow-

bar having been fied to the rails. The engineer saw it in time. Several hundreds Austrians and Italinns, who had been employed at the quarries before the panic, were not employed when the Amalgamated Copper company properties resumed last winter and Wicklund has frequently received letters threatening his life.

received letters threatening his life. Wicklund, when interviewed today, expressed the view that the foreigners discharged were behind the outrage. When the properties resumed here, thousands of men flocked to Butte and Anaconda, where few of the new comers could be employed. Men in charge of the various industries auxiliary to the Amalgamated mines and smelters have been either threatened or attacked. In Butte several foremen and shift ed. In Butte several foremen and shift bosses have been seriously beaten, while on one occasion, six weeks ago, a superintendent drove a crowd of Italians from his mine at the pistol point. Wicklund is unable to give a clue to the perpetrators of the attempt on his life, and no arrests have been made.

AGRICULTURAL BILL.

Senate Sustains Committee's Action in Reducing Amount.

Washington, April 30.—The senate had under consideration all of today the agricultural appropriation bill, Practically all of the committee amendments was disposed of except those re-lating to the forest service, which will be taken up tomorrow, and which are understood to be likely to provoke de-bate.

"PIGEON TOED" BROWN.

Notorious Desperado and Horse Thief Of Montana Killed by Sheriff.

Great Falls, Mont., April 36.—A special to the Tribune from Glasgow tells of the shooting of "Pigeon Toed" Brown, a notorious desperado and horse thief. Sheriff Small of Valley county and deputies Calderwood and Bennett had been hunting Brown for three days. They ran across him unexpectedly at a ranch house 55 miles north of Glasgow. Brown knew Calderwood, and when he entered the door Brown grabbed up his gun. The deputy was too quick for him, however, sending a bullet completely through Brown's body and slightly wounded another occupant of the room. Brown, as he fell, expressed a desire for paper to leave some message, but died before this could be given him.

Brown was known throughout north ern Montana as a most dangerous horse that ern Montana as a most dangerous horse thief, and for some months posses have been trying to capture him.

EDWARD C. HAZEY ACQUITTED.

Seattle, April 36.—A special cable to the times, from Juneau, Alaska, says that after a costly trial to the government, Edward C. Hazey, charged with murder in the second degree in connection with the killing of Fred Hinshard, in the Keystone Canyon in connection with the killing of Fred Hinehardt in the Keystone Canyon riot last fall, has been acquitted by a jury in the federal court, which took just one ballot to reach its decision. The tragedy grew out of the determination of Guggenheim employes to cross the right of way claimed exclusively by the Alaska Home railway, in the construction n the construction of the Copper river

In announcing the acquittal on this chage, the court instructed the defense to be prepared to return in December with its witnesses to resume the hear-ing on four other indictments against Hazey in connection with the Keystone Canyon riot, should the department of justice at Washington order further prosecution.

The present hearing has been in progress 30 days and will cost the government something like \$30,000 because of the change of venue taken from Valdez. A small army of witnesses were brought here to testify for the prosecu-

Open Sessions of Investigation Into Electric Boat Co. Legislative Methods Are Over.

ATTY. WHITNEY CONFESSES.

Wrote the Notorious Anonymous Letters-Could Give No Evidence For Rep. Lilley.

Washington, April 30.-The investigation into the legislative methods employed by the Electric Boat company, directed by the house of representatives, and a resolution introfuced Feb. 20 last, by Representative George L. Lilley of Connecticut, is ended, as far as open sessions of the special house committee, which has been conducting it, are concerned. The closing hours of the case were dra-

Frederick Brown Whitney, an attor-Frederick Brown Whitney, an attorney-at-law, admitted that he was the author of the anonymous letters of Feb. 13 and Feb. 15, to the representatives of the Detroit Free Press and State Senator Frank Edinborough of Michigan, which have figured so prominently in the investigation. The admission of Mr. Whitney was made in the form of an affidavit, which was read by his counsel, former United States Senator Thurston of Nebraska. Mr. by his counsel, former United States Senator Thurston of Nebraska. M Thurston stated that Mr. Whitney rhurston stated that Mr. Whitney is thurston stated thospital in this city, and that it would be impossible for him to appear before the committee.

In the affidavit Mr. Whitney stated that from 1901 to 1904 he was clerk that from 1901 to 1904 he was clerk but from 1901 to 1904 he was clerk but

him to appear before the committee. In the affidavit Mr. Whitney stated that from 1901 to 1904 he was clerk to the committee on naval affairs of the house of representatives; that shortly thereafter he became second vice president to the Lake Torpedo Boat company, which position he retained until May 19, 1806; that he is now vice president of the Lake Submarine company, an independent organization. The reasons for writing the anonymous letters were given by Mr. Whitney as follows:

'That of his own initiation he undertook what appeared to him at the time to be not improper methods to have brought to the attention of Congress the methods which he had believed had been pursued by the Electric Boat company in their endeavor to secure, through congressional action, what might be termed exclusive legislation, which would shut out competition and prevent the Lake Torpedo Boat company from competing in the United States for submarine torpedo Boat construction.'

In conclusion, the affidavit states that Mr. Whitney has no personal knowledge from which he could give any evidence to sustain any of the charges of Representative Lilley.

WIFE'S SAD MISFORTUNE

While Husband, Who Was Robbed And Beaten, Is Raving Maniae.

Chicago, May I.—While John Moulds raves in the Dunning asylum and calls constantly for his wife, she is detained at the immigrant station in Boston because she is an alien and cannot show that she is able to support because

She arrived yesterday on the Saxonia in response to a cablegram from the Chicago police informing her of the condition of her husband, who came to this country from England three years ago and went to work here. Moulds made good wages as an experi machinist, and besides supporting his family of nine children in England, managed to save \$500. Four weeks ago he took his money out of the bank and bought a ticket for home. That night he was beaten and robbed. He never recovered from the assault and became insane and was sent to Dunning.

Not hearing from him, his wife became alarmed and communicated with the Chicago police. Working on het information, they identified her busband, and two weeks ago they cabled her of his condition. She took the next steamer for this country. Her pitiful story aroused the immigration authorities and set their over a transparent that and set their condition. She arrived yesterday on the Saxonla

WHE beautiful and fertile Teton Valley lies in the eastern part of Fremont County, Idaho, about 75 miles south of the Yellowstone National Park, and about 225 miles north of Salt Lake City, along the boundaries of Wyoming and Idaho State line. The average elevation is 6,000 feet above sea level. It is surrounded by a large range of mountains excepting on the north where you will find low rolling hills, especially adapted to dry farming. The valley proper is about 30 miles in length and 15 miles in width with a gradual slope to the center from either side. The soil is a black loam mixed somewhat with gravel through the center. Along the foot of the mountains, however, and for some miles toward the center the soil is almost free from gravel and a heavy, black loam, which has been proven to be excellent beet, grain and vegetable land. We have an abundance of water, no valley anywhere better supplied with water, and thaut, too, practically free from cost to the farmer as most all own and operate their independent ditches which are taken from the various streams running into the valley from the are taken from the various streams running into the valley from the mountains on either side. We have an unlimited supply of timber, a load of house logs, poles, fence posts, fire wood, or saw timber can be had from any farm within the borders of the Teton Valley in less than a day, and from a good many homes the farmer makes two trips into the timber in one day. Lumber sells at \$12 per 1,000 feet at the saw mills and \$15 per 1,000 feet delivered. Teton mountains are noted among sheep and \$15 per 1,000 feet delivered. Teton mountains are noted among sheep and cattle men for their excellent quality of grass and of which there is no limit. The valley, hills and mountains are as pretty and green as lawn during the spring and summer. There are few places in this great country of ours where the farmers can just open his farm gate and his sheep, cattle and horses are in grass, while still within his view, yet we boast of such a condition in the Teton Valley. It is an excellent dairing country, farmers make from \$3 to \$5 a head on their cows per month,

patronizing the creameries of which there are two in the valley. There are no better countries for raising cattle, sheep or hogs, than the Teton Valley. There are about 3,500 people now living within the borders of this picturesque valley, and room for ten times that many, and then they could have to exceed 40 acres to every soul, or about 200 acres to the family. There are eight towns fairly well started, ten general mercantile institutions, a branch of the Consolidated Wagon & Machine Co. of Salt Lake City, of Studebaker Bros. Co. of Utah, a number of blacksmith sair lake City, or studebaker Bros. Co. of Chan, a number of backsmith shops, drug stores, and a bank. Some 300,000 bushels of grain was produced during the year 1907. The average yield of grain, taking the valley over, is about 30 bushels per acre, while we have some farmers who raise as high as 90 bushels per acre. The average yield of hay is from 2 to 5 tops in two cuttings. The averaging 5 tops in one cutting. 3 to 5 tons in two cuttings. The exception 5 tons in one cutting. The soil and climate is especially adapted to vegetables and small fruits, curents, gooseberries, strawberries, and raspberries cannot be found to excel in quality and quantity the production of the Teton Valley. Some few apples are raised of the hardler kind. Land ranges in price from \$10 to \$25 per acre, according to its location and improvements and can be had in acreage and terms to suit the purchaser. It is people we want, the men and women who are willing to live with us and build up a country. While we have good investments for investors, we prefer people who tons in two cuttings the men and women who are willing to live with its and build up a country. While we have good investments for investors, we prefer people who will ive with their investments and cultivate the soil. Come and see for yourself: they say seeing is believing, seing the Teton Valley means that you will buy a portion of it, thus enjoying what you see. Come up and catch some trout, see the elk and the fat sheep and cattle, and thriving crops and be convinced. There is no better place in all the land, we will have the railroad soon, the line has been surveyed and accorded, and and catch some trout, see the eik and the tat sheep that catch, and we will compare and be convinced. There is no better place in all the land, we will have the railroad soon, the line has been surveyed and accepted, and granted by the New York office, and there is no doubt of it being built into the Teton Valley within the next two years, and then you will have to pay as dear for land and homes as other places which now have the railroad. Come new while values are low and terms easy and land plenting lark the following large property. ty. Look at the following list of bargains, select what you want, they wont last long.
