ASK THE MOTHERS.—Women have better opportunities for observing the effects of medicine than men. This is especially true of mothers, who note with a keenness born of affection, the operation of the remedies they administer to their children. Now ask any mother who has used Hale's Honey of Hyacinth and Tar in her family as a cure for cough, cold, hoarseness, whooping cough, croup or influenza, what she thinks of it. The answer in every instance will be that she has found it the most effective preparation of its kind she has ever tried or heard of.

TOOTH-ACHE DROPS.—Are in one minute.

Part of the system sleeps except the head. How many of you are "asleep?" Last Monday evening, in the 10th, 16th or 17th Ward, a large ship came. The finder will be suitably rewarded by leaving at D. 15 Wells.

THE OTHER DAY, at a concert, a gentleman having put his hat upon a chair to keep a friend from taking it, after a short time returned to claim it. He found the hat he had left, sure enough, but it was sitting on the "hat." The lady sitting on it, "Madam," said the gentleman, "I am sure I thought it was your hat."

GREAT REDUCTION. The Rocky Mountain Coal and Iron Co. have reduced the price of their celebrated coal \$1.00 per ton. On and after January 1st 1875, we will sell coal at the following prices: \$7.50 per ton at the yard. \$4.00 c. delivered.

To be had at our yard near U. C. R. Depot. Office 109 Kimball Block. R. C. FACKER, Agt.

The sweet girl graduate of New Orleans recently received the degree of Maid of Science. Some time hereafter she will probably be entitled to another degree—that of Matron of Science.

ECONOMY IN THE KITCHEN.—Prudent housekeepers are ever on the alert to practise economy in the culinary department. In no way can this be done more effectually than in the use of a Baking Powder which combines purity, strength and reliability. Dooley's Yeast Powder has attained the deserved reputation of being economical, convenient and wholesome, besides which it will produce from a barrel of flour twenty-five to thirty pounds more bread, rolls, etc., than by the old process of raising dough with baker's or hop yeast. Hereabove is a great saving, and authorizes the guarantee that it will give entire satisfaction.

BECOMING KNOWN.—As it is becoming known that Dr. Price's True Flavoring extracts are not made up from chemical poisons, but natural flavors, delicate and grateful to the most cultivated palate, they are growing rapidly in popular favor. The special recommendation of Dr. Price's Flavors is that their purity is perfect, their strength so much greater than other extracts, while the bottles hold half more than those purporting to

contain the same quantity. It is only necessary for a person of pure taste to be asked to try these flavors and they will be convinced that they are the finest, purest, and best flavorings for cakes, puddings, pies, &c.

THE EVENING NEWS.

Monday, Jan. 19, 1875.

Local and Other Matters.

University of Deseret.—The Second Semester of this educational institution commences on Monday, Jan. 25th, at 9 a.m., when all the classes for the studies of the preliminary course will be organized. An examination of classes conducted in writing, for an advanced standing, will be in operation during the present week. Besides these, there will probably be an oral examination before the executive committee of the Board of Regents.

A Bad Muzz.—Last week Thomas Kieruan, on complaint of his wife, was arrested on a charge of beating and abusing her, for which Justice Pyper fined him \$25. He stayed two days in jail; subsequently \$15 of the fine was remitted, by the Mayor, and he was liberated on paying the balance. When he came out of prison he discovered that his better-half had taken everything of value out of the house, leaving him to shift for himself, and driving him to the necessity of having recourse to the law to obtain his goods and chattels.

Sudden Death.—We regret to learn of the somewhat sudden death of the wife of Mr. Walter Paul, at Mendon, Cache Valley, last Thursday. It appears that the lady was taken suddenly ill on that day, and that competent medical aid could not be obtained nearer than Logan, six or eight miles distant, and for which place Mr. Paul immediately started, but before he got back his wife had breathed her last. Some of the relatives of the family went up from this City for the purpose of attending the funeral yesterday.

WILLIAM POTTER, Register.

M. J. W. Haskin Arrested Again.

The San Francisco Chronicle of Jan. 15 says:—"Joseph W. Haskin, recently a resident of Salt Lake City, was arrested in this city yesterday by Deputy United States Marshal P. H. Lannan, upon a requisition from the Governor of Utah, on two indictments for perjury found by the grand jury in that Territory. The crime in one instance was alleged to have been committed through the United States Land Office, and in the other in swearing falsely in regard to questions of title to important mining claims."

The Chronicle of January 16th has the following:—"Joseph W. Haskin, recently a resident of Utah, was arrested at detailed in the San Francisco Chronicle of Jan. 15 says:—"Joseph W. Haskin, recently a resident of Salt Lake City, was arrested in this city yesterday by Deputy United States Marshal P. H. Lannan, upon a requisition from the Governor of Utah, on two indictments for perjury found by the grand jury in that Territory. The crime in one instance was alleged to have been committed through the United States Land Office, and in the other in swearing falsely in regard to questions of title to important mining claims."

These charges are the work of Mr. Haskin's enemies—the same accusations having been brought against him three years ago and a discharge obtained. Judge Morrison has issued a writ of habeas corpus, returnable on Tuesday next."

Hunting Up Witnesses.—Detective Rose, of this City, arrived here this morning from the neighborhood of Evanston, where he had been hunting up the witnesses in the case of W. L. Williamson and others, indicted for the robbery of Mr. Simpson, who was murdered last summer. It will be remembered that it was mainly by Mr. Rose's tact, shrewdness and enterprise that this case was worked up in the first place. This time Mr. Rose found the witnesses scattered all the way from Evanston to Piedmont, some of them being in the Hilliard plieries.

He took to town with him this morning, having been seven days on the trip. We learn from him that a train from the east arrived at Ogden at 3:35 p.m. yesterday, and another at 8 o'clock this morning. Captain Forbes and Mr. Atwood, the latter superintendent of the Emma mine, and hired a Utah Central special, which left Ogden shortly after 6, reaching this City at 7:20, that being the train on which Detective Rose also got here.

Barton, one of the prisoners who escaped from the county jail on Friday night, was held as a witness in the Williamson case.

Mr. Rose states that the weather between Evanston and Piedmont is positively fearful, fierce winds generally prevailing, the cold being intense and the snow being generally between five and six feet on the level, to say nothing of drifts.

Operation for Cancer.—The Ogden Junction of January 16th says:—

"Yesterday afternoon, in company with Dr. Williams of this city, we visited Mrs. Perry, wife of Mr. Perry of Three Mile Creek, Box Elder County, who is at present the guest of Mr. and Mrs. Peter Boyle. Dr. Williams performed the final operation of extracting a large cancer from Mrs. Perry's breast, the main body of the cancer having been removed some days previously. The wound left, though large enough to bury a good sized egg, is in a fair way of healing up rapidly, and Mrs. Perry rejoices over her deliverance from this terrible excrescence. She has exhibited great patience during the painful operation, and we have no doubt that her entire recovery at an early date will prove another of the many evidences of Dr. Williams' skill in the treatment of cancers."

The British Mission.—By the Millennial Star we learn that Elder Edward Hanham wrote from Southampton, Dec. 12, that he had recently baptized, in the river Itchen, a man and two children, the latter being a son and daughter of the late Elder William Randall of this city. A mob assembled at the place and created some disturbance, striking the little company of Saints two or three blows.

H. S. Gowans wrote from Rochdale, Dec. 15, 1874:—

"There were four persons baptized here on Saturday. Last night I went into the water and baptized fourteen, making eighteen in all; four renewed their covenants, two were re-baptized who had been cut off, and twelve first baptisms."

Utah Southern Extension.—The work of construction on this line is expected to be commenced some time during the coming Spring. The enterprise is a huge stride towards taking Utah into the vanguard of material progress among the Territories and numbers of the States, of not a few of which she is even now ahead, especially in the matter of railroads, and nearly all of her lines are enduring monuments of the enterprise and spiritedness of her people.

The Counties of Juab, Sanpete, Beaver and Iron are severely rich in various ways, with resources that will remain undeveloped until touched by the next to magic influence of the iron highway.

The mines of Tintic District will receive a new and powerful impetus, while other mining localities in the same neighborhood, which are as yet comparatively untouched by the miner's apparatus, will be opened up and developed, bringing to light, in all probability, rich productions. In the first named County there lie open to the enterprising capitalist deposits of beautiful rich marble, of various shades and hues, specimens of which we have seen, while at the head of Salt Creek Canyon is an apparently inexhaustible deposit of gypsum, capable of being manufactured into cement that would be as enduring as the everlasting hills, as well as being put to numerous other uses. By means of railroad communication these and many such resources will sooner or later be developed and manipulated for the use of man.

The Sanpete coal beds have a well established reputation, some of their products having been proved to be of the very best quality for cooking purposes.

Should the main line not pass through the valley of the Sevier on its way to Beaver, doubtless that rich portion of the Territory will be touched by a branch line, for it is, in many particulars, one of the most desirable localities in Utah. The coal beds of Salina Canyon are probably not surpassed or even equalled outside of Iron County. Sevier county has also strong indications of being rich in paints, such as reds, yellows, browns, siennas, &c., and within her borders are some of the finest hot and warm mineral springs, with strong curative properties. Sevier county is also one of the best vegetable raising localities in the State.

Beaver County has many resources, principally mineral in their character, that would take a shoot towards the march of development by the magic touch of the railroad, some of the mines in that locality being considered very rich.

But of all the localities that will be reached by the proposed Utah Southern Extension, perhaps by far the most promising and important is Iron County, whose enormous coal and iron mines are not to be surpassed by those of any other part of the world. Railroad communication with that part of the Territory will hasten the extensive manufacture of iron, one of the most enriching industries in existence, iron being an article that enters more or less into nearly every other industrial branch.

An Outrageous Proceeding.—On Saturday night an employee of Wells, Fargo & Co. accosted Mr. Dobson, night watchman, and threatened to step inside the premises of that firm, on East Temple Street. He at first denied to go, but as he was made to believe that the man had been made business with him he acceded to the request. As soon as he got into the man turned the key in the door and poured out a volley of oaths and imprecations about the "G-d d-d police," at the same time retreating to the back part of the office, from which another employee of the same firm suddenly sprang forward with a double-barrelled shot-gun, which he pointed at the body of Mr. Dobson, cursing and swearing at him and telling him he had a right to shoot him. Mr. Dobson told him how he had been invited to step in, but to no purpose. The affair had a look of pre-arrangement about it, and is supposed to have arisen from a grudge against the police owing to the wielder of the shot-gun having

been caught some time ago in a very bad scrape by them and fined. Mr. Dobson was probably taken for a policeman.

Missionary Appointments.—Sunday evening, Jan. 23rd.

Third Ward—Elder John Van Cott.
Fifth and Sixth—Elder C. R. Savage.
Ninth—Elder C. W. Stayner.
Twelfth—Elders G. Swan and C. J. Thomas.
Thirteenth—Elder W. G. Young.
Fourteenth—Elder R. F. Nealen.
Fifteenth—Elder S. B. Young.
Sixteenth—Elder G. G. Bywater.
Nineteenth—Elders J. B. Maiben and M. B. Shipp.

We are also requested to publish the following country appointments, for the same date:—

Big Cottonwood—Two p. m., Elders S. A. Woolley and West Jordan—Usual time, T. Harris and D. A. Swan.
Taylorville—Usual time, D. Jant and W. A. McMaster.
Mill Creek—Usual time, G. Teasdale and H. W. Naisbitt.
Sugar House—Usual time, T. V. Williams and J. P. Freese.

Street Railroad.—Notwithstanding the deep snow, cars have been running on regular time to-day on all the branches of the street railroad, excepting on the 20th Ward extension, on which, for the accommodation of the public, Mr. Superintendent Arnold has placed a good sleigh, on which passengers ride for car fares.

Yesterday Mr. Arnold had scraped at work from sunrise till nearly sundown, clearing the track of the line, not confining himself to that, however, but clearing the way on each side of the railroad track, making travel on the streets along which it runs easy. This was a heavy labor, and results not only in benefit to team travel, but also to pedestrians.

It should be remembered by the travelling public that Mr. Arnold cleared a road by the side of the line, so that teams would not interfere with the track, by running over and clogging it up, which they should avoid doing.

Four prisoners captured.—Scott, Barton and Shaffer, three of the four prisoners who escaped from the County Jail on Friday night, have been captured and are again in their old quarters. The Sheriff had instructed certain citizens at Union Fort to keep a lookout for the fugitives, and subsequent circumstances proved that he was correct in supposing that they would turn up in that vicinity, for that is where a number of citizens took them. They were brought to town yesterday. Barton and Scott must have been guided by Shaffer, whose former residence was at Union Fort, the remaining two being comparative strangers to this part of the country. So far as we have learned, McLaure is still at large, but it is not probable that he will succeed in eluding the officers.

Theatre.—There was an excellent performance at the Theatre on Saturday afternoon and evening, attended by a numerous audience for the times.

Mr. Thorne, it is reported, has entered into an engagement to appear at Piper's Opera House, Virginia City, Nevada. Mr. Thorne has proved himself one of the most useful members of the dramatic company in this city, and we trust he will find his new engagement pleasant and profitable.

Snow.—Sunday morning people found about a foot of snow on the ground when daylight did appear.

GREAT BRITAIN.

OF WREATH.—Gloomy Forebodings.—The direct cable company's steamer Faraday is reported off Weymouth, says—"In the gloom surrounding us, all things are portentous—all are alarming. Germany is arming, including the best part of the world, cannot do otherwise. Momentary dreams of peace have fled. Germany rears her ugly head, and she can only hold by arms, and while arms are in her hands." The Times confesses that Germany cannot raise a third army, and that her hopes are in her navy.
