Prost. Heyes' Order Compiled United States Marshal Kerns, re-ceived, this morning, an official letter from Attorney General Devens, calling attention to the civil service order of Prest. Hayes, requiring every officer of the general government to take no further part in the management of political or-ganizations. This order was complied with by the marshal, who gave the necessary instructions to his deputies and court officers.

No further facts substantiating it have come to light, but the Inter-Ocean claims that it is 'rese, and that if they were at liberty to name their informant, his character would vouch for the truth of the statement.

A Vienna correspondent denies that there will be a meeting between the Emperors of Germany and Austria this year, and confirms the statement that no convention has been concluded between Servia and Roumania. He says the Servans hesitate until the Roumanian army has established itself on the Turkish side of the Danube. It is not probable that this hesitation on the part of Servia will restrain the Prince of Roumania, and the present moment is thought to be favorable for crossing the Danube, as it is supposed at the Roumanian headquarters that a portion of the garrison of Widdin has been sent to Nikopolis, and is kept in check thereby.

A Bucharest correspondent telegraphs, that all is reported quiet on the Danube, to-day, Thursday, notwithstanding last night's rumous of an engagement at Rust-cluk.

Should this be true, the fight will be a running one. The infantry will prove comparatively non-effective. The work will have to be done by cavalry.

An eye-witness says, at about 1.20 o'clock shouts attracted the stowd to Craig Street, where a young man in grey clothes, was rishing away from the mob. While the leaders attempted to pull him off the ateps of Dunn's Store, another young man attempted to all him, and was struck by a member of the meb, whereupon he fired several shots, and almultaneously received the fire of the pack. One shot struck him in the forehead, when he fell, bleeding, on the slowark, but shots were still fired at him, and nobody went to his assistance until the policemen placed him in an express wagon and took him away. A Protestant clergyman, who attempted to offer prayer over the dying man, was rudely pushed back, despite the mute appeal of the upturned eyes of the poor vistim. The mob had complete control of the streets, and evidently desired an outbreak. As Hackett's body was driven off some other persons were seriously hurt. There is every prospect of a disturbance, tenight, by the crowd, which is allowed the persons having licenses permit ting them to sprinkle the sidewalk in front of their premises must confine such sprinkling solely to the premises named in the license.
