EDITOR AND PUBLISHER.

Thursday, August 27, 1898.

EDITORIAL CORRESPONDENCE.

PRESIDENT YOUNG'S TRIP NORTH.

LOGAN, August 23.

At 8 o'clock a.m. President Young and several of the company met with the Logan Sunday School. This was a most interesting meeting. Who, that entertains any desire for the future prosperity of Zion, can feel indifferent respecting our Sunday Schools? They are working out an immense amount of good, and the fruits are not so apparent yet as they will be. One excellent result has followed their establishment in every settlement and ward that we have visited, namely, leading men and parents begin to perceive their worth, and are affording them the needed encouragement. There is probably no school in the Territory with which greater pains have been taken since its organization than with this of Logan. They sing sweetly and in harmony, and their replies to the questions which were asked of them were very correct. *Après* of children, the most striking feature that we see in visiting the settlements and in the receptions which they give to President Young and his company is the great number of children on every hand. If the settlements were in close proximity one to another, it might be suspected that they were borrowed for the occasion; but in Logan, when the question was asked, if their neighbors had not loaned them some for the display, they assured us that Logan had not turned out near all its children. They had been kept at home for various causes, which they explained. One of these is the whooping cough, which is just now very prevalent here among the children. The Psalmist says that children are an heritage of the Lord, and that happy is the man who has his quiver full of them: they shall not be ashamed, but they shall speak with (or subdue, as one version has it) the enemies in the gate. Certainly, according to this, the residents of these valleys should neither be unhappy nor ashamed, and they should be able to speak with the enemies in the gate; for their quivers are generally full, in the sense David uses the phrase.

President Young and Elders Geo. A. Smith and Geo. Q. Cannon addressed the children in encouraging and instructive remarks.

THE MEETINGS

To-day at 10 a.m. and 2 p.m. were very crowded. We estimated, by measuring the size of the bowery and allowing 400 square inches for each person, that there were at least 4,500 persons in the congregation. The forenoon was occupied by Elders John Taylor and Geo. Q. Cannon. The afternoon by Elders Lorenzo Snow, Charles C. Rich (who reached here in good health yesterday morning from Bear Lake Valley) Geo. A. Smith and President Young. The speakers all had excellent liberty, and the people were taught many principles which, if practiced by them, will increase their happiness and prepare them for a glorious future. Immediately after meeting the animals were hitched to the carriages and the company started for Wellsville.

THE MONSTERS OF BEAR LAKE.

We have had conversation with Bro. Charles C. Rich and other brethren from Bear Lake Valley respecting the monsters which have been seen in the Lake, an account of which, from the pen of Bro. Joseph C. Rich, was published in the *EVENING NEWS* a short time ago. They all firmly believe the account as published. They consider the testimony that has been given by so many individuals, who have seen these creatures in so many places and under a variety of circumstances, indisputable. They would believe these persons upon any other subject, and they can not withhold their credence—incredible as the existence of such monsters may appear—from what they say they saw in the Lake. We should conclude that there are very few, if any, persons in Bear Lake Valley who doubt the statements which have been made. The Indians' traditions corroborate all that has been said of these creatures. It is well known that the Indians will not camp near the Lake, and they have never been known to bathe in its waters. They have persisted in stating that there were terrible monsters in the Lake, of which they were in fear, two of their tribe having within the memory of some of their number, been carried off by them. If one or two persons only had seen and described them, it might be set down, even if they were persons of good judgment and credibility, as an optical delusion; but they have been lately seen by numbers, and at different times and places, and their descriptions agree, and they also agree with the accounts of the Indians. Various plans have been suggested for the capture of one or more of them; but no attempt has as yet been made. We hope that some plan may be devised that will be successful. Until the question of their existence is settled, and something learned of their nature and habits, if such monsters are actually there, the Lake will not be a very com-

mon place of resort for fishermen. One of those who are said to have seen them last, timed their speed while passing from one well known point to another on the other side of the Lake, with his watch, and if the description can be relied upon, a boat would stand no chance of escaping if they were pursued or came in contact with it. Our readers who are familiar with the accounts we have published of these creatures can form their own conclusions respecting them. The accounts are *fishy*, decidedly so; but we cannot dispute the persons who make them. Some of the persons who have seen them we know, and their truthfulness is unquestionable. We must believe they saw something remarkable, whether monsters or not we hope time will soon decide.

(Special to the Deseret Evening News.)

By Telegraph.

GENERAL.

Utica.—Dr. Peters, of the Litchfield observatory, has discovered a new asteroid.

Chicago, 25.—The *Times*' special says Attorney General Everts has indicated that eight hours constitute a legal day's work under the law of Congress; and that upon his return he will submit his formal opinion denying the right of the Government to deduct from the wages as allowed by law.

One of the Washington administration papers announces that Secretaries McCulloch, Browning, Welles and Randall will support Seymour and Blair, but that Seward has not yet made up his mind.

Baltimore.—The prize fight between Edwards and Collyer, yesterday, lasted an hour and fourteen minutes. On the 47th round Edwards struck Collyer a terrific blow on the jugular vein, rendering him senseless for over fifteen minutes. Both men show signs of severe punishment. A fight occurred between the roughs on a steamer while going to the fight, in which knives, pistols and bludgeons were used. Several men were badly hurt.

There were over 10,000 persons present at the Schutzenfest in this city to-day. Everything passed off pleasantly.

New York.—A special to the *Herald* from White Sulphur Springs says, the meeting between Rosecrans and the Confederate Generals assumes an important form, frequent interviews having been had. Both the Southerners and Northerners are sanguine that there will be the best results from the meeting.

The journeymen tailors of this city met last night and organized for a strike.

New York.—Last night, shortly after the commencement of the performance at the Broadway theatre, several sheriff's officers arrived with a warrant issued by Judge Barnard, for the arrest of D. H. Harkins, the present manager of the company, and attempted to force their way behind the scenes. Being resisted in the attempt they drew their revolvers and fired, wounding two men probably fatally. During the confusion Harkins escaped through the body of the house. The sheriff's officers were arrested, after which the performance proceeded. From all accounts it appears to have been a murderous assault by roughs, employed by Sheriff's deputies, upon frightened actors and actresses, who offered no resistance. The fellows fired two or three volleys in the midst of a group on the stage. They have all been committed to wait the result of the wounds they inflicted.

Several diseased cattle were traced to-day to a butcher shop, where they had been cut up and sold to the inhabitants. One died before it could be slaughtered. The butcher was not arrested.

New York.—Henry J. Raymond has returned, much improved in health by his European trip.

Within sixty days eleven murders, fifty-two murderous assaults and twenty suicides have been chronicled in this city, besides the usual compliment of minor outrages.

Samuel J. Beebe, one of the founders of the New York stock exchange, died recently, aged 83.

John Hoffman, a French chemist, committed suicide to-day, by taking corrosive sublimate. He died in great agony. Domestic difficulties were the cause.

The Cable Company announces that after the first of September, the tariff on messages from this city to any point in Great Britain will be \$116.65 (2) in gold for ten words.

Sheriff O'Brien, in a letter to Justice Shandley, defends the action of his deputies at the Broadway theatre, and expresses his willingness to assume all the responsibility. He says they were assaulted by armed carpenters, etc., and fired in self defense.

The Fenian convention is in session in this city.

Washington.—The President has been asked to grant leave of absence for nine days to all the Knights Templars in the various departments who desire to attend the Triennial Conclave of Knights Templars of the United States America at St. Louis, Sept. 15th. The President referred the matter to the heads of departments, recommending that the request be granted.

Columbus, O.—The State Board of Agriculture has passed a resolution recommending the Governor to appoint three commissioners with power to adopt measures to prevent the introduction of Texas cattle. The Governor accordingly made the appointments, with authority to prosecute all persons who violate the law passed during the last session of the Legislature, to prevent the spread of contagious diseases among cattle.

Territory may specially designate in a permit signed by himself or his subordinate as authorized.

FOREIGN.

Florence, 24.—News have been received of the death of Gen. Duce, one of the Spanish officers recently banished to the Canaries.

Dispatches from Madrid say that the Prime Minister, Gonsalves Boro, contemplates a series of administrative reforms to relieve the popular discontent. It is rumored that the reduction of the standing army and the substitution of enlistment for conscription are among the measures proposed.

New York.—The *Herald*'s London special says the English Ambassador gave a grand dinner to Admiral Farragut at his residence on Wednesday.

Later advices from Hayti state that Salnave has been defeated, and is now acting solely on the offensive. He had forced a loan of two hundred thousand from two wealthy merchants who had been to Europe to negotiate for money.

Liverpool.—Dispatches continue to be received giving accounts of shipwrecks, caused by the recent gale. The ship *Furor*, hence for New Orleans, was last seen dismasted in a sinking condition.

A letter from Rome says it is reported there that Cardinal Bonaparte will be appointed Archbishop of Blasendorf, which will make him primate of the United Greeks.

A letter from Florence expresses the opinion that the party recently working throughout Italy are preparing for another invasion. The sons of Garibaldi are constantly traveling about the country holding interviews with leading Garibaldians. Other circumstances also point to the probability of such an intention.

Correspondence.

ZURICH, Switzerland, Aug. 3, '98.

Elder George Q. Cannon:—Dear Bro. I trust I shall not intrude by addressing a few lines to you to let you know how we are getting along here in the old world. We are now in the beautiful country of Switzerland, where we can enjoy the pure mountain air, which brother W. B. Richards and myself highly appreciate, after being cooped up in smoky London for the past 12 months. We left London on the 6th of July and arrived at St. Imier on the 8th after an interesting trip of two days. I was much pleased with portions of the country, crossing the Jura mountains, and on descending this side saw some of the most beautiful sights I ever witnessed.

Since my arrival in Switzerland I have had the privilege of traveling through some of its many sights, and I think that the topographical appearance of the country surpasses anything I have had the pleasure of seeing. The lakes, mountains and valleys are beautiful, and in many respects remind me of our peaceful home in the far off west. The customs of the people, though strange and in some cases disagreeable to one like myself, are still in many respects highly commendable. To see the way in which agriculture is carried on is really pleasing as well as being a novelty to me. One thing I think worthy of note, that is, that farming can be carried on what can stand out in the open field without being protected by a stone wall, and still permitted to grow and not be subject to prowling "critters," which are so great a pest in our own country.

Yesterday we held a conference at which there were quite a number present. Amongst the happy number was President F. D. Richards, K.G. Maeser, Octave Ursenbach, W. B. Richards and H. Young. It was truly a day of rejoicing and long to be remembered by all present. The Spirit of God was poured out in rich abundance. Much valuable instruction was given by bro's Richards, Maeser and Ursenbach. W. B. R. and myself were not able to instruct much as we were not able to "deutsch zu sprechen." The presidents of branches will return to their homes and fields of labor with new determinations, and fresh zeal.

The work of the Lord in these lands is in a promising condition, and I am sanguine that with the help of God much good will be done during the present year. The spirit of the work is extant, many strangers are attending our meetings, and we are privileged every day or two to add one or more to the kingdom of God. Our mutual friend "Karl" is wide awake to the work, and is laboring with all his might, mind and strength. The Saints love him as a father, and I do most emphatically think him "the right man in the right place." All are well and send kind love to you at home. Praying for your welfare and happiness.

I am your brother and well wisher.

HEDER YOUNG.

Died:

In Paragonah, August 11, 1898, William Edward, son of William Edward and Edna Jones, aged one year, two months and five days.

At Spanish Fork City, Aug. 16, 1898, David Malcolm, aged 49 years; formerly of Glasgow, Scotland. *[M.M. Star, please copy.]*

At Spanish Fork, Utah county, August 2, 1898, Barbed Orther Greer, wife of Willard Orson Greer.

Deceased was born at Airdrie, Lanarkshire, Scotland, September 21, 1843. She emigrated to Utah with her father, Andrew Ferguson, in 1855. She was beloved and respected by all who knew her, a devoted husband and two children to mourn her loss. *—(Cont.)*

At Smithfield, Cache county, July 5, John Galbraith, aged 39.

The deceased was a native of Beth, Ayrshire, Scotland. He obeyed the gospel in 1855, and emigrated to this country in 1856. *—(Cont.)*

[M.M. Star, please copy.]

NEW TO-DAY.
