EDITORIAL NOTES.

Several prisoners in jail at Richmond, Ga., have published a card requesting their friends not to attempt a rescue.
It is anticipated that the condition of the poor in New York and other large cities the coming winter will be deplorable.
The Oakland (Cal.) *Transfer*, of Sept. 16th says, "We are afraid Tom Fitch don't study his testament as much as he should do. In quoting a pathetic passage, the other night, he got things transposed in a most ludicrous manner; the laugh rippled round the great circle of Bibles-sharps, head by Parson Benton; Tom kept on with his highfalutin passage, glancing sideways at the audience, not knowing exactly what was up, and altogether the serio-comic scene was enough to crack a smile on the face of a mimic."
The critics cannot agree as to the merits of Miss Mary Anderson, the new "theatrical sky-rocket." All acknowledge she has more than ordinary ability, but some contend that she needs the culture of stock acting, careful training, experience, while others claim that such a course would dampen the natural flashiness of her genius.
The New York *Herald* says, "Gamblers are a protected class, not less at Rockaway than in New York. Discharge almost invariably follows arrest, or nominal bail is taken."
The silver question is being discussed all over the civilized world. It must be settled in Utah, for we scarcely hear it referred to now.
A merchant of Hull, England, decamped with a forged note. He was detected in Fejee, and dogged until the Hull authorities could send an officer, who identified the forger, and took him back to England.
Dr. Glade, the spiritualist, went to London recently, intending to astonish the scientific men there; but he finds they will pay no attention to him, declining invitations to attend his performances.
Poor slaves are being gradually emancipated by subscription in Brazil.
Rosie Green, of Wellington, Conn., fourteen years old, took strychnine because, she said, no one cared for her, her dead mother was calling her, and she was tired of life.
Hereafter criminals are to be executed privately in Dallas, Texas, in order to prevent public demonstration.
Mary Clemmer talks in this way of the genus revenged—"Ministers, as a lot, are consorted set, and take on the most insufferable airs of condescension to women; yet there is no other class in the world who submit so utterly upon the support of women—mental, moral, emotional, material."

THE BRITISH PUBLIC AND THE TURKISH ATROCITIES.

The sentiment of the British people appears to have been considerably aroused, and their feelings to be running a little wild, over the reported atrocities of the Turks in the present war. Warm indignation meetings are apparently the order of the day, wherein the Disraeli ministry is warmly handled, the Government called upon to punish the Turks for their alleged excesses, and Parliament invited to assemble soon and discuss the eastern situation.
It is told of the operations of the Turks in Bulgaria is true, the perpetrators of the shocking deeds of lust, rapine, and blood could scarcely receive too severe punishment, for the more retribution of the barbarities practised is enough to harrow up the soul to a pitch of extreme horror and indignation. The deeds are dreadfully cruel and altogether barbarous. Not the slightest shadow of excuse for them is admissible. That they ought never to have been done is true enough. That they ought to be put a stop to is equally true. That the perpetrators should be adequately punished is exceedingly desirable. But the question is, How are they to be punished? It is probable that the cruelties have been stopped, or checked in a large measure, through the representations of the embassies of Britain and the other powers. Indeed, the war itself is brought to a standstill for ten days, apparently in the interests of peace. Let us hope that peace will result, and perforce the cruelties of the war will not be resumed. But even if peace should result, there is the question of the barbarous cruelties to the Bulgarians. Full satisfaction in some kind, so far as can be had, should be rendered to the suffering survivors. This will probably be insisted on by the Powers, and incorporated in the terms of the treaty of peace, if such treaty should become a fact. If Turkey will not agree to satisfactory provisions of this kind, it is possible that the Powers will bring such a pressure to bear upon her as will establish the practical independence of the principalities now in arms against her. Russia is certain to afford them liberal material aid, in case of a renewal of the war, and other of the great Powers will be likely to be inclined that way. Another Sinope would not be of any advantage to Turkey, while another Navarino might be her ruin.
Meantime the British lion may roar and shake his mane, but it may not be in the best interests of the permanent peace of Europe for the excited British public to goad the Government into aggressive action beyond certain bounds.

TO-DAY'S DISPATCHES.

EASTERN.

Rifle Match.

NEW YORK, 19.—The Irish team have decided to shoot with six men in a match with the Americans on Thursday next.

Yellow Fever Increasing.

A dispatch received from Hunter and Gamble, of Savannah, reports 329 new cases of yellow fever in one day, and saying the daily expenses were \$1,200.

American Mining Board.

The American mining board, recently organized in this city to deal in mining stocks and bonds, have rented the office formerly occupied by Duncan, Sherman & Co., corner of Pine and Nassau streets, and will open for business on Oct. 2nd.

The Explosion at Hall's Point Postponed.

Gen. John B. Newton announces that Hall's Point reef will not be blown Sunday morning, as was expected, the contractors having failed to provide the explosive materials on time.

More Aid for the Savannah Sufferers.

The Chamber of Commerce, in a special meeting, to-day, appointed a committee of twenty-five to take the necessary measures to raise funds for the suffering people in Savannah; \$2,200 has been collected already.

The Indian Commissioners—Matters Begin to Assume a Serious Aspect.

RED CLOUD AGENCY, Neb., Sept. 19.—I improve an opportunity to send out a dispatch in advance of the time set for the council to-day. Matters begin to assume a serious aspect, and appearances indicate that there will be no Indians here to-day, notwithstanding the fact they were all told a week ago they would be expected to give a final answer to-day. With the exception of about a dozen leaders of Lower's band, all the Indians belonging to this agency have moved down to Shadron Creek, twenty miles away, ostensibly for the purpose of consulting with the Spotted Tail Indians, but it is now thought here that the move was for the purpose of getting away from the commissioners, with whom they do not wish to treat, as a Spotted Tail Indian told one of our party, on condition that his name should not be made known, that the Indians at both agencies were considering whether they had better run away from the agencies altogether or fight the Commissioners. They now think they will proceed to Spotted Tail to-morrow and hold council there if no Indians attend here. It is a curious fact, that Red Cloud has been, for two months past, in frequent receipt of letters from Fort Peck on the Missouri River, some of which are so heavy as to require nine cents postage. It is reported that the tenor of these letters is urging him not to sell a foot of the Black Hills country. I have some additional points from Grand, Crook's scout, who came in recently. He says at Crook's late fight, a guidon belonging to the Seventh Cavalry, also a number of horses and saddles belonging to Crook's command, were captured. The capture of corn, sugar and coffee, landed at the mouth of Powder River by an over-loaded steamer last month, gave the hostiles an abundance of supplies.

Another Failure in the Mustang Ride.

CHICAGO, 19.—Francisco Peralto failed yesterday to accomplish the feat of riding 100 miles in 100 hours. The race commenced at 1 p.m. on the inside track at Dexter Park, the equestrian having to make 120 leaps within the specified time to win the match. Twenty ponies were used, Peralto changing at the end of each mile. At the thirtieth mile he was two minutes behind; at the fifth 3.35, and at six p.m. he had only accomplished ninety-eight miles, the remaining seven miles took him 22.15 to cover, and he lost the race accordingly by that time. A fair audience witnessed the performance.
