boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of Avere's Chenev Pectronate, a bettle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the Chenev Pectronat had saved my darling's life. Can you wonder at our graditude? Sincerely yours,

Mis. EMMA GEDNEY."
