

DAINGER SIGNALS WERE NOT SET

A London Express Crashes Into Waiting Train, Killing Sixteen Persons.

THIRTY PEOPLE INJURED.

Occurred on Anniversary of Scotland's Worst Railroad Accident, the Tay Bridge Disaster.

Dundee, Scotland, Dec. 28.—In a railroad collision today, caused by the heavy snowstorm, 16 persons were killed and more than 30 injured.

Among the persons injured is Alexander William Kirk, member of the house of commons from Bannockshire, Scotland.

Owing to the heavy fall of snow, trains from London to Aberdeen were held up at Arbroath. During the afternoon the line was cleared and one train proceeded for Dundee. It had stopped at Elliot Junction, and the danger signals were thought to have been set. They failed to act, however, being clogged with snow, and an express train dashed into the rear of the waiting train.

It is recalled that the Arbroath accident occurred on the anniversary of Scotland's worst railroad accident, the Tay Bridge disaster of 1879, and within 20 miles of the scene thereof. In that wreck, a bridge collapsed and precipitated a train with more than 70 persons into the river. None escaped.

It was announced that it would be the policy of the new association publicly to present the merits of life insurance wherever the interests of policyholders are assailed.

The object of the conference was to determine the methods of procedure, if any, to guarantee to the Japanese in San Francisco their rights as set forth in the treaty. We have reached no decision as to what course will be pursued, and the conference will be resumed here tomorrow.

BROWNSVILLE RIOTS.

Witnesses Swear They Saw Soldiers Shooting From Inside Garrison.

Brownsville, Tex., Dec. 28.—George W. Rendall and his wife testified in the Purdy investigation here today of the Brownsville riots. They live in the second story of a building across the street from Fort Brown, and swore they saw soldiers shooting from inside the garrison on the night of the riot.

Mrs. Kate Leahy said she counted 16 negro soldiers shooting in the shooting. Herbert Eklins was with Mrs. Leahy and corroborated her testimony. In all 20 citizens testified to photographs of the places fired into were taken and bullet holes counted. A Springfield army bullet was found imbedded in a mirror and was taken to Washington. The inquiry will be completed tomorrow.

CAPT. MACKLIN'S ASSAULT.

Maj. Penrose Refuses to Make Any Statement About His Identity.

El Reno, Okla., Dec. 28.—Maj. Penrose, commanding at Fort Reno, tonight refused to make any statement regarding a report that he had shot to the identity and whereabouts of the person believed to be a discharged soldier of the Twenty-fifth Infantry, who shot and seriously wounded Capt. Edgar B. Macklin a week ago. It is believed here, however, that he has secured definite information and that the assault will be in custody within a short time that Capt. Macklin's condition shows much improvement, though it probably will require many weeks to restore his health.

PRESIDING JUDGE GRAHAM SCORED

Judge Dunne Administers a Strong Rebuke to Him in The Schmitz Case.

HE INTERFERES TOO MUCH.

If He Takes Mayor's Case the Ruel Case Will Have to Follow.

San Francisco, Dec. 28.—Judge Dunne this morning administered a remarkable rebuke to Presiding Judge Graham when he learned that the latter is preparing to consider the motion of the attorneys for Mayor Schmitz to have his case transferred to another court. Judge Dunne not only directly accused Graham of interfering with the business of his department, but declared with an air of finality that if the Schmitz case is taken away from him the Ruel case must go with it.

On that account he continued the proceedings looking to the setting aside of the indictments against Ruel until Wednesday morning at 10 o'clock, at which time Judge Graham will have made it evident whether he intends to give the Ruel-Schmitz case in half. In passing on the matter Judge Dunne said:

"I am not unfamiliar with the tactics employed by counsel defending the co-defendant here, and I have also noticed that they invariably appeal to Judge Graham as a man of large sympathies and generous impulses. That he should interfere in the past with the orderly conduct of this court, and in that connection and in connection with the proceedings now before this court called upon to do an idle and useless thing. In other words, I ought not to be compelled to proceed with this inquiry in the present condition, because if the application of the counsel should appeal to Judge Graham I want it understood that both cases will be sent to him. I cannot proceed under the very circumstances of the case with regard to the defendant Ruel, and I would not feel justified in so doing. I submit the matter to you. You have my views."

Judge Graham today postponed until Monday morning, the hearing of Mayor Schmitz's motion for a transfer of his indictment case from Judge Dunne's court to another department of the superior court. The postponement was ordered after a bitter interchange of words by the attorneys and at the request of Asst. Dist. Atty. Hiram Johnson, who desires to file counter affidavits.

ITALY'S FOREIGN POLICY.

Rome, Dec. 28.—Answering an interpellation in the senate today regarding the foreign policy of Italy, Foreign Minister Tittoni practically repeated the statement he made in the chamber of deputies a few days ago. He said, however, that the Anglo-Franco-Italian agreement concerning Abyssinia, not only regulated the relations of these three powers in Ethiopia, but also the clouds on the horizon of Europe. The foreign minister's statement has strengthened the previous impression that Italy is working for the maintenance of peace.

YAQUI UPRISING.

City of Mexico, Dec. 28.—According to the official report of the uprising of Yaqui Indians, no Americans were killed and the total number of deaths was four, two men and two women, all Mexicans. Besides these casualties, four Mexicans were badly wounded.

Lencho, where the raid occurred, is within three miles of Torin, the military center of the district, where 2,000 troops are stationed. As soon as word was heard Gen. Lorenzo Torres, in command of all the troops, took the field in pursuit of the Yaquis. The soldiers were killed or captured until the Indians are killed or captured.

BIG SNOWSTORMS IN CENTRAL EUROPE

Result in Interruption of All Kinds Of Communication and Loss of Life.

GROWING WORSE IN ENGLAND.

Railroad Traffic Being Completely Tied up—Relief Trains Give No Relief.

London, Dec. 28.—It is many years since central Europe generally has suffered so severely from an Arctic visitation as it has this Christmas week. From France, Belgium, Switzerland, Germany, and Austria-Hungary the same tale is repeated of heavy snowstorms, interruption of vehicular, telegraphic and railroad communication, loss of life and general discomfort. While Great Britain, as a rule, escapes winter weather, she has suffered this year to an almost unprecedented degree. According to reports tonight from northern points, the storm is growing worse.

The heavy snowstorms which began several days ago continue. They are accompanied by violent gales and even thunderstorms in some places, and have resulted in a serious railroad accident near Arbroath, Scotland, in which about 15 persons were killed or suffered serious injuries. Railroad traffic in the northern part of England and especially in Scotland, is becoming completely tied up. Large towns like Edinburgh, Dundee and Perth are almost completely isolated. The telegraphic services are discontinued and would be completely useless but for the extension in recent years of the underground wires. The snowstorms continue with equal severity in northern Wales and Ireland.

NEGRO IN U. S. UNIFORM SHOOT A CHINAMAN.

El Reno, Okla., Dec. 28.—Existing an attempt to shoot a soldier of the 83d of Oklahoma tonight, Le Sung, a Chinaman, was shot and dangerously wounded by an unknown negro, who wore the uniform of the United States army. The soldier was shot at near Fort Reno, the sheriff's force, police force and many posse of citizens are searching for him.

The numerous outrages perpetrated by negroes against the soldiers of the Twenty-fifth Infantry, has aroused public sentiment to white heat and this crime but adds fuel to the flames. Summary vengeance will probably be wreaked by the citizens should the man be apprehended unless the strongest protection is given by troops from Fort Reno.

Le Sung was alone in his laundry when the negro entered, and pointing a pistol at him demanded his money. The Chinaman attempted to draw a revolver and the negro fired, the bullet entering Le Sung's chest. It is not known whether he will die.

The negro was dressed in the full uniform of the United States army, but it is not known whether he is a member of the negro troops now stationed at Fort Reno or one of the discharged soldiers. Some of those dismissed for participating in the Brownsville riots carried their uniforms away with them at the time of their discharge.

After wounding the Chinaman, the negro ran from the laundry toward the outskirts of the town, but it is believed by the searchers that he is in hiding in the woods near the town.

Maj. Penrose, commanding officer at Fort Reno, when asked what action he had taken, and whether the roll of troops at the fort had been called, refused to discuss the case.

"I'm getting sick of this business," he said. "Every time a crime is committed it is laid to the negro soldiers. I won't tell anything about what has been done further than to say that we are doing all in our power to aid in the apprehension of the guilty party."

CONGO AFFAIRS.

United States Will Support Great Britain in Steps it May Take.

Washington, Dec. 28.—It was stated at the state department today that the government had pledged its support in any steps taken by the British government toward ameliorating the condition of affairs in the Congo.

This is the first time that any official announcement has been made, and sets at rest all questions as to the stand the United States would take in case powers signatory to the Berlin treaty to intervene. The agitation in England for some action by that government under its treaty obligations looking to reforms in the Congo has been as great, if not greater, than in the United States, but England apparently has been loath to act while there was any prospect that Belgium would annex the Congo territory.

MRS. SARAH AYRES MYSTERIOUSLY MURDERED.

Warren, Or., Dec. 28.—Mrs. Sarah Ayres was mysteriously murdered on her farm near that place tonight. She was shot dead while she was sewing in her kitchen, and the weapon with which the crime was committed, a 45-caliber affair, was found on the floor near the body.

Bert Holman, Mrs. Ayres' 13-year-old adopted son, gave the first news of the tragedy to neighbors, and later was taken before the county authorities and told his story. He said that he was preparing to go to bed in an upper room, when he heard a shot and heard someone running out of the house. He ran downstairs and found his mother lying dead. Owing to various circumstances, the authorities have concluded to hold the boy for further examination. The rifle with which Mrs. Ayres was shot belonged to the family. Mrs. Ayres' husband is in the mountains and cannot be reached for several days.

It May Figure in the Trial of J. C. C. Jaxon, Negro Tailor.

Los Angeles, Dec. 28.—The sudden and mysterious death in Pasadena two years ago of the wealthy Mrs. Harriet McVicar, widow of the well known Chicago theatrical man, may figure in the murder trial of J. Miss Ida McDaniel, who was a nurse in the McVicar household, is now on the way here from Chicago to give testimony for the prosecution in the trial of Jaxon. LAWLESS MEXICANS.

More Troublesome and Dangerous to Americans Than the Yaquis Are.

Green, purchasing agent of the Caranena Yaqui River and Pacific railroad, stated today that the Yaqui country traversed by his road is quiet and that he is just from the neighborhood in the murder trial of J. C. C. Jaxon, the negro tailor, who was reported to have been a fabrication.

A prominent miner from the Yaqui section, who stated that the attack on Lencho occurred here, but that he believes that it and other outrages charged to the Yaquis were committed by lawless Mexicans, who, he said, were more troublesome and dangerous to Americans than the Yaqui Indians.
